

# 2019 RSR OMB Changes

The 2019 Ryan White HIV/AIDS Program Services Report (RSR) will include revisions to the current Client, Recipient and Provider data collection instruments and changes to the services reported in the Client Report. These modifications largely reflect HRSA HAB’s efforts to: reduce data reporting burden on recipients and subrecipients; improve the quality of all data collected and reported; ensure HRSA HAB can measure the investment and impact of all RWHP-related expenditures at state and local levels; and align the data collection and reporting efforts with recently released Policy Clarification Notices (PCNs).

This document provides an overview of the changes and details on implementation dates. All changes contained in this document have been approved for data collection and reporting under OMB Control Number 0906-0039 (expires 12/31/2021).

# 2019 RSR OMB Changes

## Eligible Services Reporting

Current reporting requires recipients report client level data for all eligible clients who receive a RWHAP service from a recipient/subrecipient funded to provide that service (Eligible Scope Reporting). However, as recipients fund additional services using pharmaceutical rebates and program income generated as a result of the RWHAP investments, HRSA HAB's ability to measure the full investment and impact of the RWHAP at state and local levels is limited. For the 2019 RSR submission, HAB will implement Eligible Services Reporting, in which recipients and subrecipients will submit client-level data for clients determined to be RWHAP-eligible clients that received an allowable service funded through any RWHAP and RWHAP-related expenditure. RWHAP-related funding will specifically include: RWHAP related program income and pharmaceutical rebate funds. Reporting data on RWHAP eligible clients who receive services funded by program income and pharmaceutical rebates, generated as a result of the RWHAP award, will accurately capture the clients served under the RWHAP.

**Eligible Services Reporting does NOT include other federal funding, other State or local funds, or other sources of funding received by the subrecipient.**
