Workplan Development: Network Partners

- Workplan reflects what is important to us

- Indicators developed in collaboration with Network Partners

- Utilize existing indicators
  - HIVQUAL, HAB, DHHS Guidelines

- Requirements are incorporated into the Network Partner subcontracts

Incorporating the Workplan Goals

- Plan for data needs of Network Partners

- Workplan indicators are closely linked with Quality Management Committee

- Part D Network Advisory Board

Our Part D Workplan Journey

- An evolving document

- Developed initial indicators with Network Providers

- Integrated indicators across providers
  - Continuity of Care Indicators

- Minimize confusion

Putting it all in context

- Utilizing the same "n" value for indicators

- Continuity of Care Indicators are presented at Advisory meetings and QM Committee Meetings

- Involve Network Partners in developing workplan for upcoming year

Current Challenges

- Addition of Positive Health Clinic of Allegheny General Hospital to the Part D Network in 2010
    - Unfunded Network Partner

- Collection of Data and confidentiality
