

Preparing for 2023 ADR Reporting: Updates and Best Practices

Written Q & A Summary

October 25, 2023

#	Questions	Answers
1.	We have someone who has an employer sponsored plan (not paid by the ADAP), how do you report that for health coverage?	For health coverage, you would report Private-employer.
3.	What if the number of days for which a medication was dispensed was more than 30 days but wasn't in a 30 day increment (such as 31 days). Can we report that?	For medication days supply, ADAPs should report the actual number of days for which the medication was dispensed.
4.	The presenter mentioned that you should exclude dispensing fees for the medication costs. What is the guidance if the ADAP pays a per client fee for the client being in the full paid program? Should that be excluded as well?	<p>In the client level data, you would only report the cost of the medication. No other costs should be included. Both dispensing fees and other administrative costs should be reported in the ADR Recipient Report.</p> <p>We encourage you to review the ADR Instruction Manual for additional guidance.</p>
