

Completing the ADR: Recipient Report & Client Level Data Upload

Written Q & A Summary

April 3, 2024

#	Questions	Answers
1.	I noticed that there is a different time period for the recipient report compared to the client level data, can you explain that?	Information reported in the ADR Recipient Report is based on the Part B budget period while the client-level data reported is always the most recent calendar year. For the 2023 ADR, that means that the ADR Recipient Report information is for the period of April 1 2023, to March 31 2024. Client-level data should be reported for calendar year 2023. We encourage you to reach out to RWHAP Data Support with any questions on specific reporting requirements.
