Health Resources and Services Administration (HRSA)

Overview

Supports more than 90 programs that provide health care to people who are geographically isolated, economically or medically challenged

HRSA does this through grants and cooperative agreements to more than 3,000 awardees, including community and faith-based organizations, colleges and universities, hospitals, state, local, and tribal governments, and private entities

Every year, HRSA programs serve tens of millions of people, including people with HIV, pregnant people, mothers and their families, and those otherwise unable to access quality health care

HRSA's HIV/AIDS Bureau Vision and Mission

Vision

Optimal HIV care and treatment for all to end the HIV epidemic in the U.S.

Mission

Provide leadership and resources to advance HIV care and treatment to improve health outcomes and reduce health disparities for people with HIV and affected communities.

HRSA's Ryan White HIV/AIDS Program (RWHAP) Overview

- Provides a comprehensive system of HIV primary medical care, medications, and essential support services for low-income people with HIV.
- Funds grants to states, cities, counties, and local community-based organizations to improve health outcome and reduce HIV transmission.
 - Recipients determine service delivery and funding priorities based on local needs and planning process.
- Provided services to over 566,000 people in 2022—more than half of all people with diagnosed HIV in the United States.
- 89.6% of RWHAP clients receiving HIV medical care were virally suppressed in 2022, exceeding national average of 65.1%ⁱ. This means they cannot sexually transmit HIV to their partners and can live longer and healthier lives.
