Ending the HIV Epidemic in the U.S. Activities

Discussion

# HRSA's HIV/AIDS Bureau Vision and Mission

Vision

Optimal HIV care and treatment for all to end the HIV epidemic in the U.S.

Mission

Provide leadership and resources to advance HIV care and treatment to improve health outcomes and reduce health disparities for people with HIV and affected communities.

National HIV Strategy and Viral Hepatitis and STI Strategic Plans
- The *Office of National AIDS Policy* will be **revising the HIV National Strategic Plan** to reflect the current administration's priorities. The updated National HIV/AIDS Strategy is set to be released on World AIDS Day - **December 1, 2021.**

- The *Office of Infectious Disease and HIV/AIDS Policy (OIDP)* has initiated the process for **developing implementation plans for the Viral Hepatitis and STI National Strategic Plans**.

- HAB has convened an **Implementation Workgroup** to provide programs and activities in support of the goals of the National Strategic Plans.

Measuring Outcomes

Using data to address gaps and disparities

Viral Suppression among Key Populations Served by the Ryan White HIV/AIDS Program, 2010 and 2019—United States and 3 Territories[a]
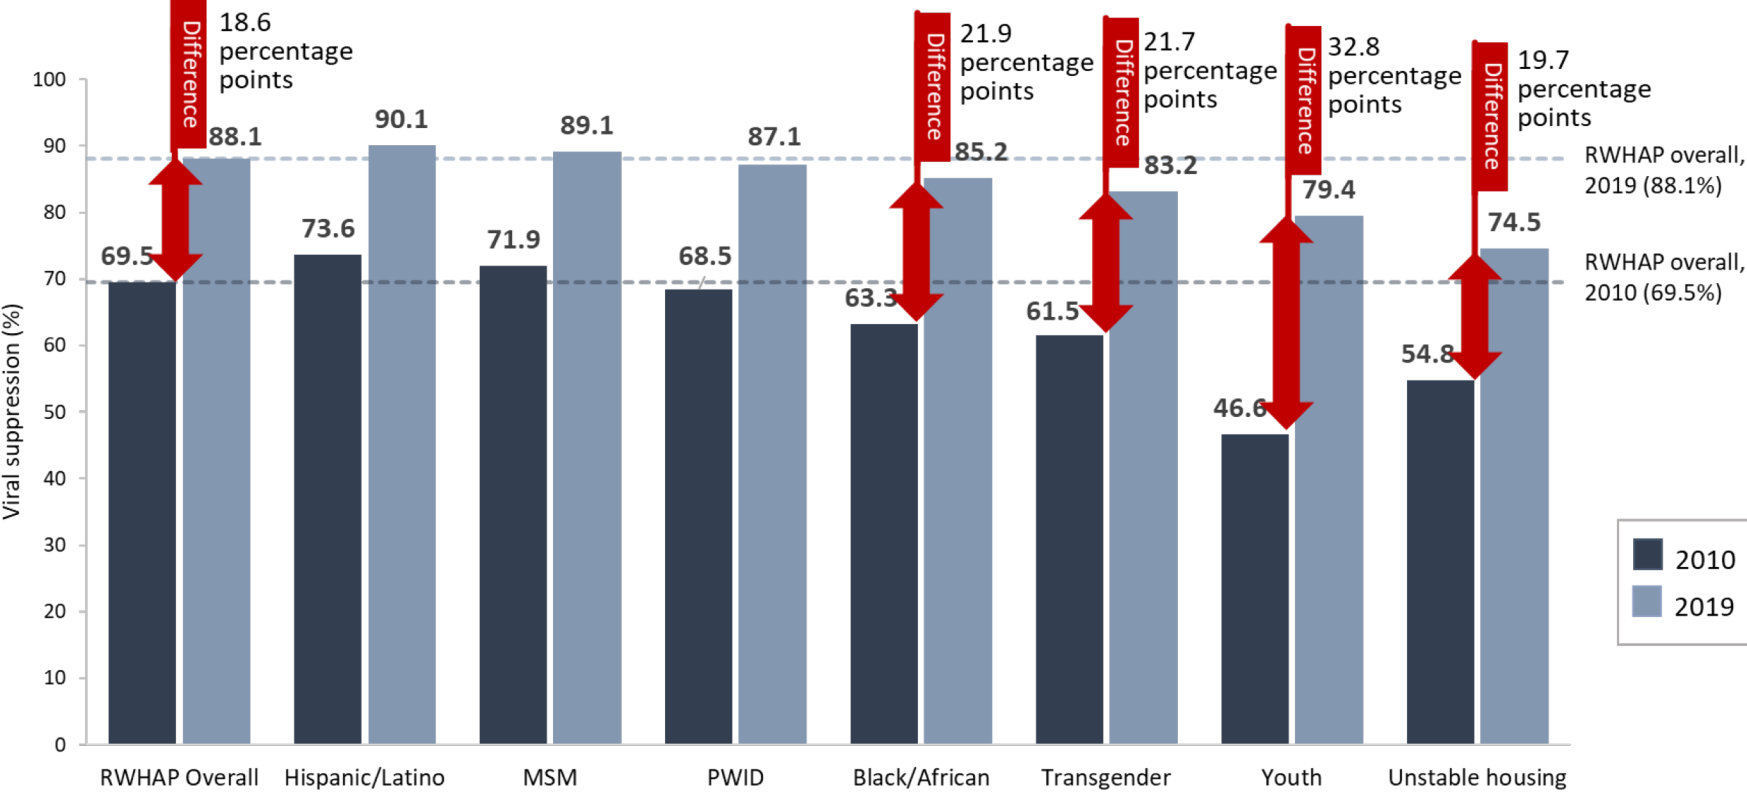

Hispanics/Latinos can be of any race.
Viral suppression: ≥1 OAHS visit during the calendar year and ≥1 viral load reported, with the last viral load result <200 copies/mL.
Includes data from 50 States, the District of Columbia, Guam, Puerto Rico, and the U.S. Virgin Islands.

About Standardized Performance
HRSA HAB's performance benchmarking methodology allows the calculation of expected outcome measure values based on a jurisdiction' client mix. This can then be compared to national averages, allowing a snapshot understanding of whether a jurisdiction is performing above or below expected results. Learn more about this methodology in the Standardized Performance Fact Sheet.

Resources

Standardized performance is below average for the population served. Resources are available to help improve outcomes.

Ryan White HIV/AIDS Program Updates

Engaging People with HIV through Organizational Capacity Development & Leadership Training

ESCALATE
Ending Stigma through Collaboration And Lifting All To Empowerment

Aims to:
- Reduce stigma for people with HIV on multiple levels throughout the health care delivery system
- Focus on implementing stigma-reducing approaches
- Support organizational readiness to employ people with HIV in RWHAP recipient/subrecipient organizations

ELEVATE
Engage Leadership through Employment, Validation & Advancing Transformation & Equity

Aims to:
- Increase leadership, representation, and engagement of people with HIV in RWHAP activities
- Develop skills and support knowledge transfer through peer coaching for people with HIV
- Support organizational readiness to employ people with HIV in RWHAP recipient/ subrecipient organizations

Visit the ESCALATE and ELEVATE sites of TargetHIV for additional project details and updates.

RWHAP Best Practices Compilation

How is your organization innovating to reduce health disparities along the HIV Care Continuum?

The Health Resources and Services Administration (HRSA) HIV/AIDS Bureau (HAB) is looking for innovative and promising strategies for its new compilation of best practices.

The compilation is part of HRSA HAB effort to catalogue and display best practices implemented successfully in Ryan White HIV/AIDS Program health care and treatment settings.

Do you have a novel approach or promising innovation to share?
Please submit it online:
TargetHIV.org/bestpractices

HRSA
Ryan White HIV/AIDS Program

RWHAP Best Practices Compilation, cont.

Ending the HIV Epidemic in the U.S. Activities

Achieving the Ending the HIV Epidemic in the U.S. Goals

| People with HIV in care	People newly diagnosed with HIV	People with HIV out of care
• Improve viral suppression rates • Decrease disparities	• Enhance linkage to care • Enhance engagement in care	• Expand re-engagement in care • Improve retention in care

Clients receiving RWHAP and Ending the HIV Epidemic Initiative Services, and ART Prescription, March–August 2020

RWHAP EHE-funded providers submitted data to the EHE Triannual Module for the first reporting period [March through August 2020]. These data[a] represent clients that received services, of whom **nearly 6,300 were new to RWHAP** and an additional **3,600 were re-engaged[b] in RWHAP services**.

Legend:
- Total
- ART Prescription
- EHE Initiative-Specific Services
- Medical Case Management
- Mental Health Services
- Non-Medical Case Management
- Outpatient Ambulatory Health Services
- Substance Use Outpatient Care

New to RWHAP:
- 4,270 — 68%
- 3,521 — 56%
- 2,943 — 47%
- 588 — 9%
- 915 — 15%
- 4,673 — 74%
- 1,563 — 25%
- Total: 6,287

Re-engaged in RWHAP services:
- 178 — 5%
- 40 — 1%
- 2,409 — 67%
- 717 — 20%
- 970 — 27%
- 2,407 — 67%
- 591 — 16%
- Total: 3,596

X-axis: Clients receiving services (1,000 – 7,000)

New and Ongoing Initiatives to Support EHE

- **Expanding Interventions**
  - Improving Care and Treatment Coordination: Focusing on Black Women with HIV
  - Building Capacity to Implement Rapid Antiretroviral (ART) Initiation for Improved Care Engagement
  - Ryan White HIV/AIDS Program Best Practice Compilation
- **Developing Capacity**
  - Enhancing Engagement of People with HIV through Organizational Capacity Development and Leadership Training
  - Reducing Stigma at Systems, Organizational, and Individual Client Levels in the Ryan White HIV/AIDS Program
- **Increasing Data Utilization**
 - Ryan White HIV/AIDS Program Data Dashboard

Community Engagement Framework: Where We Are Today

Community Engagement Guiding Principles

"voices of the community from beginning to end"

EFFECTIVELY PARTNER — **Intentional**

ACCESSING TOOLS — **Committed**

BUILDS AND GROW — **Sustainable**

ALLOW FLEXIBILITY — **Flexible and Tailored**

BE TRANSFORMATIVE — **Transformational**

PLANNING • DEVELOPMENT • IMPLEMENTATION • EVALUATION
