Minority AIDS Initiative (MAI)
State of Washington
RWHAP Part B

Karen Robinson,
Community and Case Management Program Supervisor
Washington State Epidemic and MAI Target Population

- Demographics (Dec. 2013)
  - 19,000 people have been diagnosed
  - 12,000 people reported to be living with HIV

- Living Cases by Race
  - White, - 64%
  - Black – 16%
  - Hispanic – 13%

- Unmet Need by Race
  - Latinos/Hispanics – 29.2%
  - Blacks – 23.4%
  - Whites – 18.5%
Designing Service Delivery System

• **Goal**
  • Enrollment into ADAP or other medication assistance programs

• **Target Population**
  • Black/African Americans and Hispanic/Latino(a)s who do not know their status or who know their status but are not accessing care

• **Strategy**
  • Integration of HIV prevention, care, surveillance
MAI Service Delivery System

**HIV Testing** – *(funding from State and CDC)*
- Increase outreach testing activities to At-Risk Populations
- Increase rate of HIV testing in high prevalence areas
- Strengthen linkage between STD and HIV testing
- Remove barriers to routine testing in clinical settings

**HIV Surveillance** – *(funding from CDC)*
- Identify out of care by monitoring VL and CD4 tests

**Partner Services** – *(funding from CDC and State)*
- Increase testing of partners of PLWH
- Outreach: Out of care or unstable care
- Ensure linkage to care services
MAI Service Delivery System (cont.)

- **Linkage to Care** – *(funding from Part B MAI and State)*
  - Access to Retroviral Treatment Services (ARTAS)
- **Re-linkage to Care** – *(Funding from Part B MAI and CDC)*
  - Care and ART Promotion Program (CAPP)
  - ARTAS
- **Medical Case Management** – *(funding from RW Part B Base)*
  - Link or re-link clients to RW funded services
  - Assist with applying to and accessing services
- **Medical Providers** – *(funding from RW Part C)*
- **Early Intervention Program (EIP)** – *(funding from ADAP, State and Rebates)*
  - Access ADAP, health insurance premium payment
  - Co-pays, deductibles, medical, dental, mental health
MAI Service Delivery System

Case Identification
- HIV Testing (Newly Diagnosed)
- HIV Surveillance (Evidence of Labs)

Outreach
- Disease Intervention Specialist
- Linkage to Care ARTAS
- Re-Linkage to Care CAPP ARTAS

Intervention
- Medical Provider
- Medical Case Management
- Early Intervention Program (EIP)

Referral
- Applications
  - Medicaid
  - HOPWA
  - EIP
- Adherence Support
- Health Insurance Premium Payment
- Co-pays, Deductibles, Medical Dental, Mental Health
- ADAP

Services
- Medical Services, Antiretroviral Treatment
- Labs: VL and CD4 EIP Prescription Fills
- Treatment Adherence Support Services
- Prescription Fills

Monitor for Retention
## Comprehensive Model Success

<table>
<thead>
<tr>
<th>Year</th>
<th>Black/African American Reached</th>
<th>Hispanic/Latino(a)s Reached</th>
<th>Total Minorities Reached</th>
<th>Percent (Number) Linked to ADAP</th>
</tr>
</thead>
<tbody>
<tr>
<td>Case by Case Intervention</td>
<td>2010 14</td>
<td>9</td>
<td>23</td>
<td>30% (7)</td>
</tr>
<tr>

</tbody>
</table>
Lessons Learned & Best Practices

• Use a Systematic Approach
  • Comprehensive service delivery model
  • Break down the divide between prevention and care
• Use data
  • Determine population needs
  • Evaluate the system using performance measures
• Enhance Linkages
  • Partner services, MCM, navigators, outreach
  • STD & HIV services
  • Prevention & Ryan White or care services
• Identify and remove barriers
Resources Needed

- Standards of Care
  - MCM, Partner Services, Testing, Referrals
- Training
  - Partner services
  - Medical case management
  - Enrollment of clients into ADAP/Medicaid
- Linkages
  - STD and HIV testing
  - HIV prevention and RW funded programs
  - Providers and ADAP/Medicaid
