

Creating the RSR Client-Level Data File - Written Q & A Summary

January 18, 2023

#	Questions	Answers
1.	Have there been any changes to the RSR submission process and/or the schema since last year's submission of 2021 data?	<p>The 2022 RSR submission process has not changed. There are a few minor reporting changes from last year's submission to this year's. One of the main changes is that the RSR data elements for "New client", and "Received services previous year," now only apply to EHE initiative-funded service providers.</p> <p>We encourage you to watch the "Preparing for 2022 RSR Submission: Understanding Reporting Changes," webinar recording for a more detailed overview of the changes for the 2022 RSR submission.</p>
