

ADR TRAX - Written Q & A Summary

Wednesday, April 12, 2023

#	Questions	Answers
1.	Besides making sure that TRAX is updated, what else should I do?	You also need to download the updated ADR TRAX Support Package on TargetHIV , which includes the latest sample .CSV files that you will need to create your TRAX input files. These .CSV files were updated to reflect changes made to the XML schema and ADR reporting guidance. The support package also includes the CHEX Excel templates and ADR Crosswalk .
2.	If I receive an error in TRAX, what should I do?	The error messages in TRAX usually describe what file(s) the issues are in. The ADR TRAX Manual also includes a list of potential errors and screenshots that you can use to troubleshoot. If you receive an error message that you can't resolve, please contact the DISQ Team for further assistance.
