

Q&A

Question Asked

Do you expect the HRSA NOFO to be released as expected, or is it caught up in the Congressional budget issues?

With respect to the question pertaining to payment source; it appears to no longer have an option for "Private Insurance (including HMO/Managed Care)" as in prior years. I noticed in the DSR error validation section, it mentions "Private Insurance" as a value that could be entered; does the "Private Insurance" option no longer exist?

Can you please clarify if the DRPs must submit data no later than March 22, 2024?

Answerer

The Notice of Funding Opportunity (NOFO) for the Dental Reimbursement Program (DRP) is delayed. You will be notified via email once the DRP is available.

"Private Insurance (including HMO/Managed Care)" is still a response option in the Funding and Payment Coverage section of the Dental Services Report (DSR). An updated version of the DSR Instruction Manual has been posted correcting the missing response option.

The Community Based Dental Partnership Program (CBDPP) Dental Services Report (DSR) is due March 22, 2024. The Dental Reimbursement Program (DRP) DSR deadline is pending the release of the Notice of Funding Opportunity (NOFO).
