# Ryan White HIV/AIDS Part C, Part D and Part F Dental Programs Stakeholder Meeting

**Health Resources and Services Administration | HIV/AIDS Bureau**

**Division of Community HIV/AIDS Programs**

**July 18, 2024**

# DCHAP Stakeholder Webinar
## July 18, 2024

**CAPT Mahyar Mofidi, Director**
**Division of Community HIV/AIDS Programs (DCHAP)**
**HIV/AIDS Bureau (HAB)**

Vision: Healthy Communities, Healthy People

# Zoom Platform

## Virtual Etiquette

- **Mute your line and stop your video during presentations**

- **Chat to ask questions and make comments during the presentations and discussion**

- **Start your video when presenting – we will call on you**

- **Pair your phone with your computer – to reduce bandwidth**
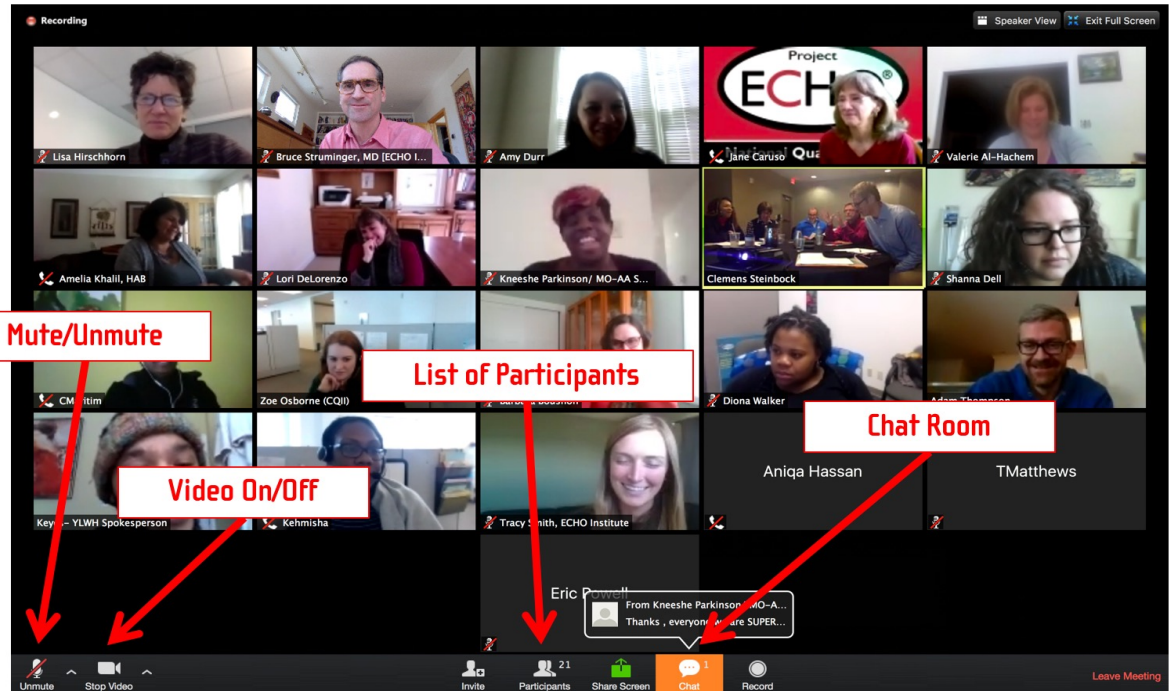

# HRSA's HIV/AIDS Bureau (HRSA HAB) Vision and Mission

## Vision

Optimal HIV care and treatment for all to end the HIV epidemic in the U.S.

## Mission

Provide leadership and resources to advance HIV care and treatment to improve health outcomes and reduce health disparities for people with HIV and affected communities.

# Meeting Agenda

- **DCHAP Updates**

- **HIV/AIDS Bureau Updates**

- **Engaging Persons with Lived Experience**

# DCHAP Updates

# Office of the Director

Stephanie Yun, MPH, CHES

| April Start | 3/31/2024 | 6/30/2024 |
| May Start | 4/30/2024 | 7/31/2024 |

# Upcoming 2024 Stakeholder Webinar Schedule

## SAVE THE DATE

### HAB's DCHAP Stakeholder Webinars

| Day and Date | Time |
| --- | --- |
| Thursday, November 14, 2024 | 2 pm – 3:30 pm ET |

# Maternal and Infant Health Mapping Tool

- Interactive online tool for exploring health resources, the geographic relationships between maternal and infant health indicators, and demographics

- Designed to help federal, state and local decision-makers and others visualize maternal and infant health factors to assist in understanding need and targeting resources
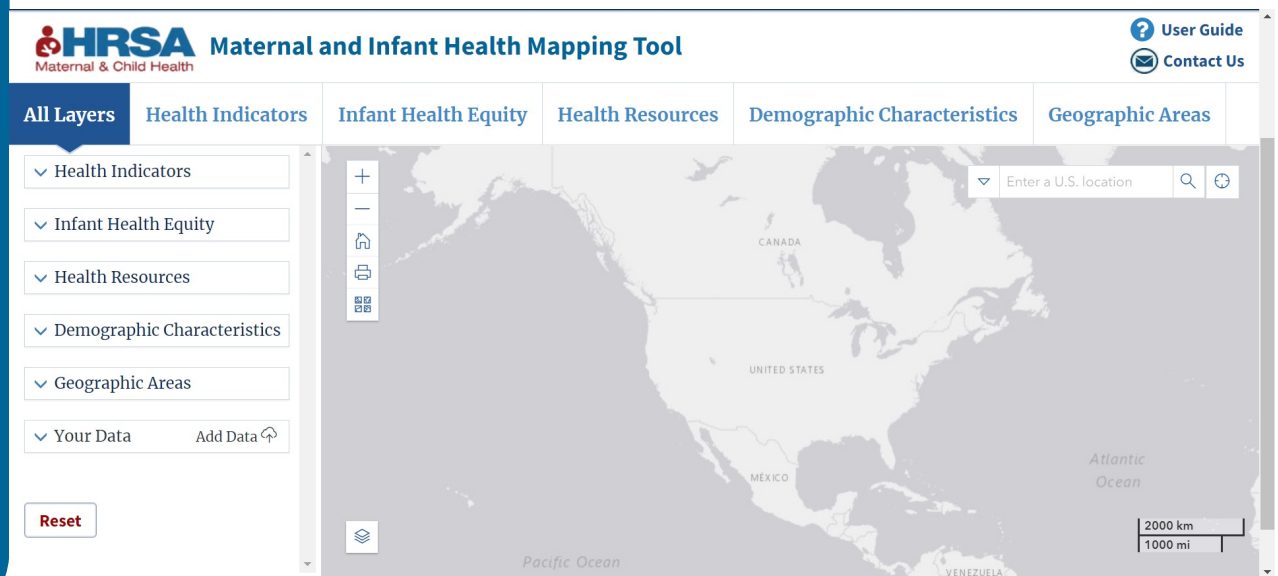

**Coming Soon!** RWHAP Parts C and D recipients service area delivery sites will be listed on the mapping tool

# Why Do We Need This?

Explore county-level maternal and infant health resources

Display the geographic relationships between health indicators, resources, demographics, etc.

Provide a reference on maternal and infant populations for use when preparing for emergencies and responding to them

Provide context and perspective on maternal and infant health indicators and resources across the country

Identify areas with lower and higher rates of maternal and infant health indicators (bright spots and hot spots)

Identify service area gaps and possible areas for additional resources

Maternal and Infant Health Mapping Tool: https://data.hrsa.gov/maps/mchb/
Using the Maternal and Infant Health Mapping Tool: https://mchb.hrsa.gov/data-research/mapping-tool

# HIV/AIDS Bureau Updates

# Help Your Community Stay Healthy This Summer: Encourage Mpox Vaccination

- As the weather heats up and calendars fill up with celebrations and gatherings, HRSA's Ryan White HIV/AIDS Program wants to help your clients and your community stay healthy this summer

- Although the mpox public health emergency has ended last year, risk of renewed mpox outbreaks over the summer months warrants continued vigilance, steps to reduce risk of infections and encourage vaccination, especially among individuals engaging in sex while attending large community gatherings

# RWHAP Recipients' Role in Addressing Mpox

- **Actions RWHAP recipients can take to support their communities:**

  o **Remain aware of current mpox vaccination and testing recommendations, particularly for people with HIV who are immunocompromised, as they are more likely to have severe mpox disease**

  o **Check out updated information now available on the CDC's website about mpox and vaccinations: https://www.cdc.gov/poxvirus/mpox/index.html**

  o **Visit the recently updated HRSA HAB mpox resources webpage https://ryanwhite.hrsa.gov/resources/mpox and frequently asked questions webpage https://www.hrsa.gov/mpox-faqs**

**HRSA**
Ryan White HIV/AIDS Program

# Can Ryan White HIV/AIDS Program Funds Be Used to Purchase JYNNEOS?

- Yes, RWHAP funds may be used to purchase vaccines for eligible RWHAP clients, including JYNNEOS, in accordance with HRSA HAB Policy Clarification Notice #16-02 Ryan White HIV/AIDS Program Services: Eligible Individuals & Allowable Uses of Funds: https://ryanwhite.hrsa.gov/sites/default/files/ryanwhite/grants/service-category-pcn-16-02-final.pdf

- RWHAP recipients would follow the same purchase and acquisition processes as for other vaccines

# 2024 National Ryan White Conference Theme

**Innovating to End the HIV Epidemic:**

**Empowering Communities, Expanding Partnerships, Implementing Interventions**

# 2024 National Ryan White Conference Updates

- HAB is planning a hybrid conference that will take place on August 20-23, 2024, at the Marriott Marquis in Washington, DC

- Registration opened February 14th. Register at: https://ryanwhiteconference.hrsa.gov/

- Hotel reservations can be booked through the link provided with final registration confirmation

- DCHAP Business Day: August 20
  - Plenary and workshops: 11 am-1:15 pm ET (virtual)
  - Meet and Greet: 2-2:30 pm ET (In person)

- If you have any questions or problems registering, please contact: Registration@ryanwhiteconference.org

# 2024 National Ryan White Conference Updates (cont.)

- The conference host hotel is fully booked

- Overflow hotel reservations can be booked through the link provided with final registration confirmation

- If you have any questions or problems registering, please contact Registration@ryanwhiteconference.org

# 2024 National Ryan White Conference Updates (cont.)

**Presenter registration category has been updated to include two different options:**

- **Presenter only**
- **Presenter and attending**

# Next Steps
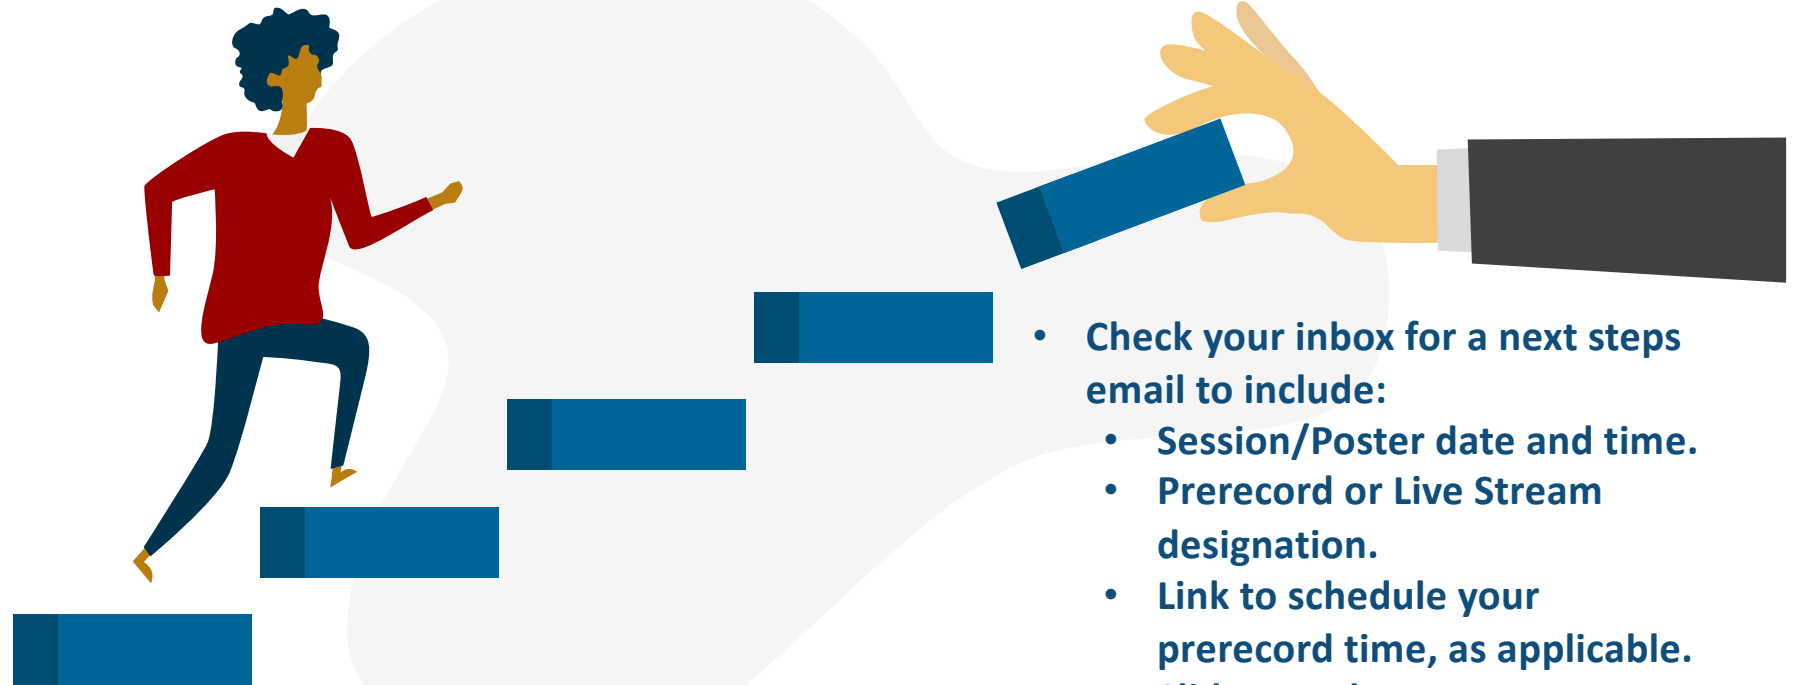

- **Check your inbox for a next steps email to include:**
  - **Session/Poster date and time.**
  - **Prerecord or Live Stream designation.**
  - **Link to schedule your prerecord time, as applicable.**
  - **Slide template**

# Presentation Tips/Reminders

- For 60-minute sessions, please leave 10 minutes for Q&A
- For 90-minute sessions, please leave 15 minutes for Q&A
- Be sure to practice for live-stream and pre-recorded sessions, as applicable
- All presentations and posters **MUST** use the 2024 NRWC approved template
- Session presentations **MUST** include at least **30** minutes of content to be eligible for continuing education units credits
- Know who to contact:

    - workshop abstracts agenda@ryanwhiteconference.org

    - poster abstracts posters@ryanwhiteconference.org

# In-Person Attendance

- **In-person participation from key staff is a requirement**
- **Key staff may include the Project Director/Coordinator, fiscal staff, clinical staff, and/or data staff**

# Ryan White Program 2030 Updates

# Four Pillars of Ending the HIV Epidemic in the U.S. (EHE)

**Diagnose**

All people with HIV as early as possible.

**Treat**

People with HIV rapidly and effectively to reach sustained viral suppression.

**Prevent**

New HIV transmissions by using using proven interventions, including pre-exposure prophylaxis (PrEP) and syringe services programs (SSPs).

**Respond**

Quickly to potential HIV outbreaks to get needed prevention and treatment services to people who need them.

# Diagnosing and Linking People with HIV to Effective Care is Critical for Preventing New Transmissions

## HIV Transmissions in the United States, 2016

| % of People with HIV | Status of Care | Accounted for X% of New Transmissions[a] |
|---|---|---|
| 15% | Didn't know they had HIV | 38% |
| 23% | Knew they had HIV but weren't in care | 43% |
| 11% | In care but not virally suppressed | 20% |
| 51% | Taking HIV medicine and virally suppressed | 0% |

**8 in 10** NEW INFECTIONS COME FROM PEOPLE WHO ARE NOT IN HIV CARE.

[a] Total does not equal 100% because of rounding. Source: CDC.[29]

HRSA
Ryan White HIV/AIDS Program

# Achieving the Ending the HIV Epidemic in the U.S. Goals

## People with HIV in care

- Improve viral suppression rates
- Decrease disparities

## People newly diagnosed with HIV

- Enhance linkage to care
- Enhance engagement in care

## People with HIV out of care

- Expand re-engagement in care
- Improve retention in care

# RYAN WHITE PROGRAM 2030: VISION

**HRSA HAB's vision of optimal HIV care and treatment for all to end the HIV epidemic in the U.S. calls us to focus on:**

## REACHING PEOPLE WITH HIV WHO ARE OUT OF CARE

# Future Discussions

- **What specific challenges do recipients face in reaching undiagnosed or out-of-care individuals?**
- **What tools, resources (outside of financial support), and partnerships do recipients need to enhance their capacity to reach undiagnosed/out of care individuals effectively?**

# Questions?

# Engaging Persons with Lived Experience

# Community Engagement and the RWHAP

- **Community engagement is part of the existing fabric of the RWHAP.**

- **RWHAP recipients funded through Parts A, B, C, D, and the EHE are encouraged and/or required to support activities that:**
  - Facilitate collaboration with community members
  - Work with their communities and public health partners to improve health outcomes across the HIV care continuum
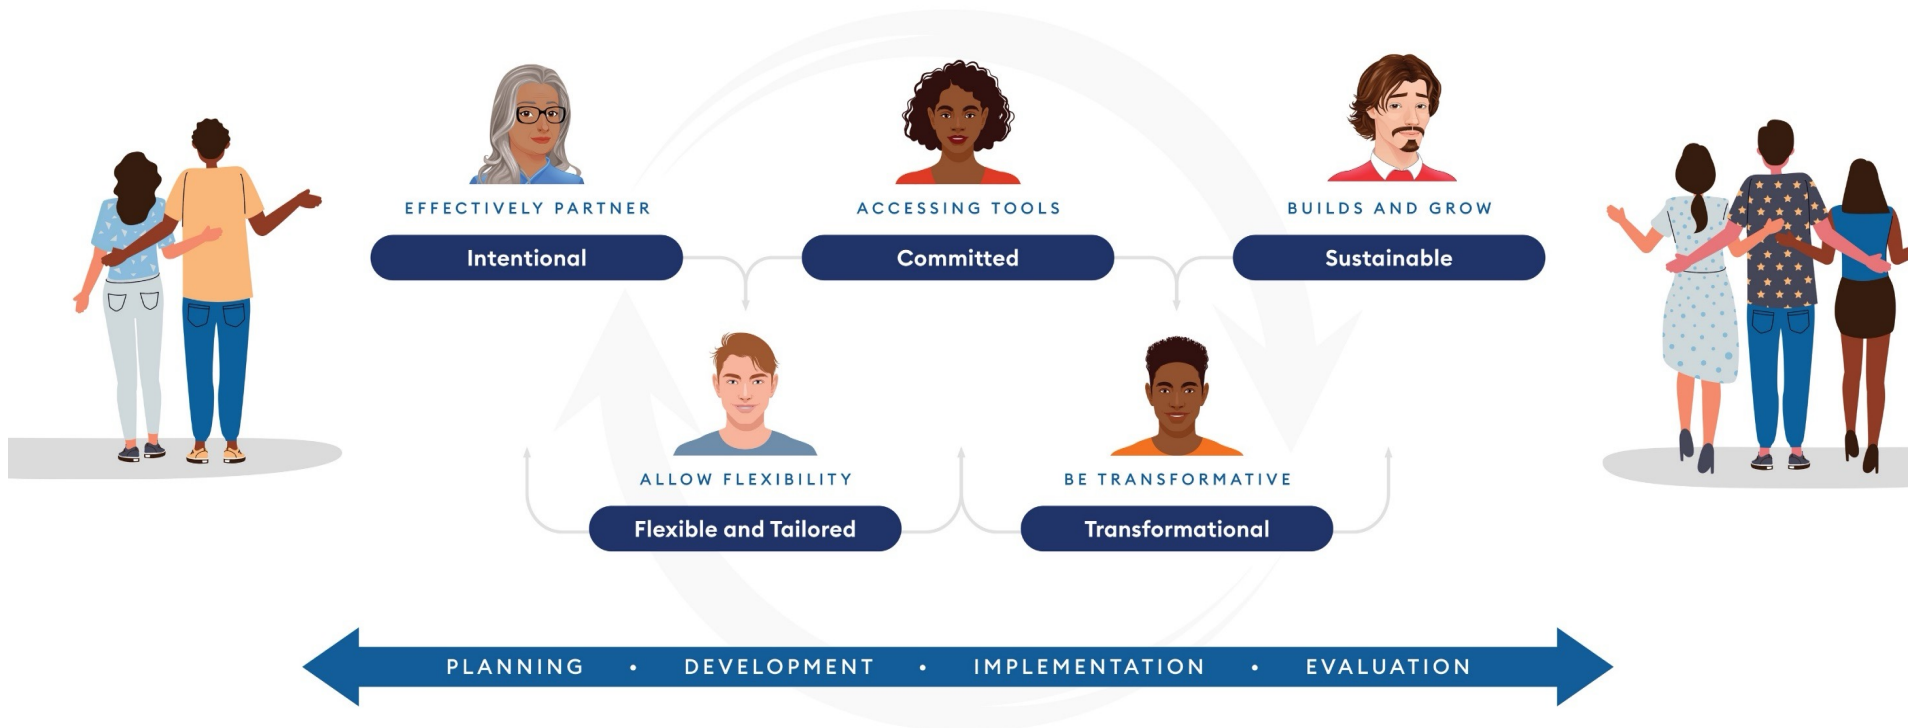

# Why Is Community Engagement Important?

- The voices of people with HIV, their communities, and the greater communities that support people with HIV have been the cornerstone of the Health Resources and Services Administration's (HRSA) Ryan White HIV/AIDS Program (RWHAP) since its passage by Congress in 1990.

- While the RWHAP has successfully provided care, support, and treatment for nearly 567,000 people in 2022, there remains hundreds of thousands of people who have HIV but are not diagnosed or are inconsistently in care.

- With a renewed focus on community engagement to meet the goals for the Ending the HIV Epidemic in the U.S. (EHE) initiative, HRSA's RWHAP understands our collective success depends on how well communities are involved in the planning, development, and implementation of HIV care and treatment strategies.

# Community Engagement Guiding Principles

"voices of the community from beginning to end"

**EFFECTIVELY PARTNER**
Intentional

**ACCESSING TOOLS**
Committed

**BUILDS AND GROW**
Sustainable

**ALLOW FLEXIBILITY**
Flexible and Tailored

**BE TRANSFORMATIVE**
Transformational

PLANNING • DEVELOPMENT • IMPLEMENTATION • EVALUATION

# HAB's Community Engagement Guiding Principles and Valuing People with Lived Experience

HRSA's HIV/AIDS Bureau (HAB) understands our collective success depends on how well communities are involved in the ***planning, development, and implementation*** of HIV care and treatment strategies and supports the following guiding principles: ***intentional, committed, sustainable, flexible and tailored, and transformational.***

Additionally, valuing people with lived experience is critical to successful community engagement.

- HAB expects that RWHAP recipients work with people with lived experience and communities in ways that support these guiding principles.
- The framework's purpose is to understand how to achieve and sustain community engagement and ensure that people with lived experience have a role in that effort.

# Rapping with Ryan White

Today's Focus:
**Engaging Persons
with Lived Experience**

**Lori DeLorenzo
Cheryl Nesbitt**

# Panel Introductions

- **Lori DeLorenzo, Consultant**
- **Cheryl Nesbitt, Consultant**
- **RWHAP Recipient representatives:**
  - **Evergreen Health – RWHAP Part C**
  - **Rutgers, The State University of New Jersey – RWHAP Part F-Dental**
  - **University of Nevada, Las Vegas – RWHAP Parts C and D**

# Stakeholder Webinar Presentation Format

**The stakeholder portion of this webinar will use a "Talk Show" format:**

- **Introductions**
- **Topics for Exploration**
  - **Use chat to pose questions during conversation with guests**
- **Questions from the Audience**

# Talk Show Format: Purpose and Focus

**Purpose:**

- Explore ways in which persons with lived experience have been engaged and supported in RWHAP Part C, D and F programs

**Areas of Focus:**

- Examples of impactful ways persons with lived experience have been engaged
- Strategies to ensure adequate representation
- Ways to support involvement of persons with lived experience
- Words of wisdom from persons engaged in various activities

# Resources

- HAB Community Engagement Letter
- Guide to Consumer Involvement: Improving the Quality of Ambulatory HIV Programs
