

Ryan White HIV/ AIDS Program HIV Quality Measures (HIVQM) Module

The image shows a laptop screen displaying a web-based report titled "HIVQM Program Parts Comparison Report". The report includes a "Report Start Date" of 06/01/2024 and a note stating that the information is only representative of organizations that have submitted data. Below the note is a table with five columns: Category, Performance Measure Title, Part A Percent, Part B Percent, and Part C Percent. The table lists various performance measures such as Annual Retention in Care, Application Determination, Care Plan, Cervical Cancer Screening, Chlamydia Screening, Dental and Medical History, Dental Treatment Plan, and Diagnostic Testing to Exclude HIV Infection in Exposed Infants.

Category	Performance Measure Title	Part A Percent	Part B Percent	Part C Percent
Core Measures	Annual Retention in Care	79%	85%	84%
ADAP Measures	Application Determination	--	--	--
Medical Case Management (MCM) Measures	Care Plan	63%	61%	55%
Adolescent and Adult Measures	Cervical Cancer Screening	50%	47%	47%
Adolescent and Adult Measures	Chlamydia Screening	81%	74%	75%
Oral Health Measures	Dental and Medical History	--	--	100%
Oral Health Measures	Dental Treatment Plan	83%	84%	88%
HIV Exposed Children Measures	Diagnostic Testing to Exclude HIV Infection in Exposed Infants	--	--	--

2024-2025 Instruction Manual

Release Date: November 2024

Public Burden Statement: An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for this project is 0906-0022 with an expiration date of October 31, 2025. Public reporting burden for this collection of information is estimated to average six hours per response, including the time for reviewing instructions, searching existing data sources, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to paperwork@hrsa.gov.

Icons Used in This Manual

The following icons are used throughout this manual to alert you to important and/or useful information.

The Note icon highlights information you should know when completing this section.

The Tip icon points out recommendations and suggestions that can make it easier to complete this section.

The Question Mark icon indicates common questions and their answers.

All new text in the document is indicated with a **gray highlight**.

The No icon indicates answer options that cannot be selected or information that cannot be entered under certain circumstances.

Background

The Ryan White HIV/AIDS Treatment Extension Act of 2009 (Public Law 111-87, October 30, 2009) provides the federal HIV programs in the Public Health Service Act under Title XXVI flexibility to respond effectively to the changing epidemic. It emphasizes providing lifesaving and life-extending services for people with HIV across the country and providing resources to targeted areas with the greatest need.

The Health Resources and Services Administration (HRSA) is responsible for the allocation and administration of grant funds to all program parts of the Ryan White HIV/AIDS Program (RWHAP); and in addition, for the evaluation of programs for the population served and improvement of the quality of care. The provision of accurate records of the recipients receiving RWHAP funding, the services provided, and the clients served continues to be critical to the implementation of the statute and thus is necessary for HRSA to fulfill its responsibilities.

The RWHAP statute authorizes the use of grant funds to improve the quality, availability, and organization of HIV health care and support services. Specifically, recipients are required to establish a clinical quality management program (CQM) to:

- Assess the extent to which HIV services are consistent with the most recent Public Health Service guidelines (otherwise known as the HHS guidelines) for the treatment of HIV disease and related opportunistic infections; and
- Develop strategies for ensuring that such services are consistent with the guidelines for improvement in the access to and quality of HIV services.

Since 2007, HAB has released performance measures for recipients to use as guidance for their CQM program; however, recipients are not required to use the HAB-developed measures, nor are they required to submit performance measure data. Recipients do report on some clinical data elements through the required RWHAP Services Report (RSR) on an annual basis; however, these data give HAB only a snapshot of the quality of HIV services provided by recipients.

In 2013, HAB introduced new performance measures, located at <https://hab.hrsa.gov/clinical-quality-management/performance-measure-portfolio>, with the goals of:

- Identifying core performance measures that are most critical to the care and treatment of people with HIV
- Combining measures to address people of all ages with HIV
- Aligning measures with U.S. Department of Health and Human Services priorities, guidelines, and initiatives
- Promoting relevant performance measures used in other federal programs
- Archiving performance measures
- Monitoring progress toward achieving the goals identified in the National HIV/AIDS Strategy

The HIV Quality Measures Module

HAB developed the HIV Quality Measures (HIVQM) Module, a tool within the existing RSR portal, to allow recipients to voluntarily enter provider-level aggregate data on the HAB performance measures. This tool offers recipients and their subrecipients an easy-to-use and structured platform to continually monitor their performance in serving clients, particularly in providing access to care and quality HIV services. Recipients and subrecipients may find the tool helpful as they set goals for performance measures and quality improvement projects.

Who Can Use the HIVQM Module?

The use of the HIVQM Module is voluntary but is strongly encouraged. The HIVQM Module is available for each recipient and subrecipient who provides HIV care services to enter their own data. In addition, recipients can complete and review the data entry in the module for any of their subrecipients. Those that receive funding from multiple parts only need to submit one HIVQM report into the module. For example, an agency with Part A and C funding will only need to submit data once per submission period. The Part A and C grant recipients of record will have access to those data.

How Can the HIVQM Data Be Used by Recipients and Subrecipients?

HIVQM data can assist agencies with monitoring how they are performing in certain HAB performance measures (i.e., viral load suppression, gaps in medical visits, screenings, etc.) over time. They can use these data to help set up program goals and quality improvement projects to support clients in achieving positive health outcomes. The HIVQM Module also allows recipients to obtain reports that compare providers within their state, regionally, nationally, as well as by RWHAP part. The comparison data can be helpful for the clinical quality management programs and assist in setting annual quality goals or goals for quality improvement projects.

The HIVQM Module also provides subrecipient-level performance measure data that is not found in the RSR report such as adolescent, HIV-positive children, children with perinatal HIV exposure, medical case management, oral health, AIDs Drug Assistance Program, and systems-level performance measures. Recipients and providers also have more frequent and quicker access to the HIVQM Module data compared to the RSR report that is published once a year.

HRSA expects the HIVQM Module will better support CQM, performance measurement, service delivery, and client monitoring at both the recipient and client levels, enhancing the submitted data's quality and utility. Recipients and subrecipients who participate in a Centers for Medicare and Medicaid Incentive program, such as the Medicare and Medicaid Electronic Health Records Incentive Program and the Physician Quality Reporting System, may also find the HIVQM Module helpful because data submitted qualify and comply with these programs' requirements.

What Are the Components of the HIVQM Module?

The HIVQM Module comprises three parts:

- The **Provider Information** page consists of four prepopulated data points about the provider (generated from the latest RSR).
- The **Performance Measures** section is where users can choose and enter aggregate data on up to 45 HAB measures under these nine main categories:
 - Core
 - All Ages
 - Adolescent and Adult
 - HIV-Infected Children
 - HIV-Exposed Children
 - Medical Case Management
 - Oral Health
 - ADAP
 - Systems Level

The **HIVQM Reports** are where users can generate provider-level reports based on their own data as well as compare their data to other recipients and/or subrecipients who have entered data into the module. The comparison reports do not include the identity of the other recipients or subrecipients.

For more detailed information on these clinical measures, visit the HRSA [HAB Performance Measure Portfolio webpage](#).

How Do You Access the HIVQM Module?

Access the module through the existing RSR web system (you must be able to access your RSR via the HRSA Electronic Handbooks (EHBs) with a login and password). To learn how to access the module from the RSR Inbox, go to [Step Two: Access the HIVQM Module](#).

Which Clients Can Be Included in the HIVQM Module?

All clients who receive HIV services, regardless of funding source or RWHAP eligibility, can be included in the HIVQM Module.

When Can You Enter Data?

The module is open to users four times a year—March, June, September, and December—to submit performance measure data for a rolling 12-month period. The 2024-2025 reporting periods are outlined in the table below.

Submission Period Opens	Submission Period Closes	Reporting Period
Dec. 1, 2024	Dec. 31, 2024	Oct. 1, 2023–Sept. 30, 2024
* March 1, 2025	March 31, 2025	Jan. 1, 2024–Dec. 31, 2024
June 1, 2025	June 30, 2025	April 1, 2024–March 31, 2025
Sept. 1, 2025	Sept. 30, 2025	July 1, 2024–June 30, 2025

**System also allows access to edit or enter data for previous three reporting periods.*

Access Prior Reports During the March Submission Period

In March, users are able to enter and update data for the previous three reporting periods in addition to the current reporting period. These reporting periods will be listed in the HIVQM Report Inbox ([Figure 1](#)). To enter and update data for a reporting period, click the envelope icon on the right under the “Action” column. Note that for reporting periods with no previous data, the comment under the “Status” column will display “Not Started,” but you will still be able to enter data by clicking the envelope icon.

Figure 1. Screenshot of the HIVQM Inbox During the March Reporting Period

Report ID	Provider Name	Reg Code	Reporting Period	Status	Action
67406	ABC University	74047	01/01/2024-12/31/2024	Working	Open
67407	ABC University	74047	04/01/2023-03/32/2024	Working	Open
67408	ABC University	74047	07/01/2023-06/30/2024	Working	Open
67409	ABC University	74047	10/01/2023-09/30/2024	Working	Create

For help with EHBs contact the HRSA Contact Center by phone at 1-877-Go4-HRSA (1-877-464-4772) Monday through Friday, 8:00 a.m. to 8:00 p.m. Eastern Time. Or use the HRSA Electronic Handbooks Contact Center help request form to submit your question online. For questions regarding data content and/or reporting requirements, please contact Data Support at 1-888-640-9356 or email to RyanWhiteDataSupport@hrma.com

Logged in as: GranteeDataViewer, GranteeDataEditor, GranteeDataSubmitter, Provider
The HAB Web Applications also require Adobe Acrobat Reader 5 or higher installed on your PC. To download Adobe Acrobat Reader, click [here](#)

How Are the HIVQM Module Data Submitted to HAB?

Once you have entered and saved data in the Provider Information and Performance Measures sections, you have submitted your data. HAB will have access to the data at the conclusion of each submission period.

For more resources on the HIVQM Module, including the manual and past webinars, check out the HIVQM topic page on [TargetHIV](#).

Instructions for Completing the HIVQM Module

Each recipient and its subrecipients have access to the HIVQM Module. Those that receive funding from multiple parts only need to submit one HIVQM report into the module. For example, an agency with Part A and C funding will only need to submit data once per submission period. The Part A and C grant recipients of record will have access to those data.

Enter data for all clients who receive HIV services, regardless of funding source or RWHAP eligibility.

As a recipient, do I enter data for each provider, or can I add the clients from all providers to come up with the total numerator and denominator?

If you are a recipient of multiple providers and you choose to enter on your providers' behalf, you must enter individual submissions for each provider.

Step One: Access the Most Recent RSR Deliverable

Recipients and subrecipients can access the RSR via the [HRSA Electronic Handbooks \(EHBs\)](#).

If You Are a Recipient

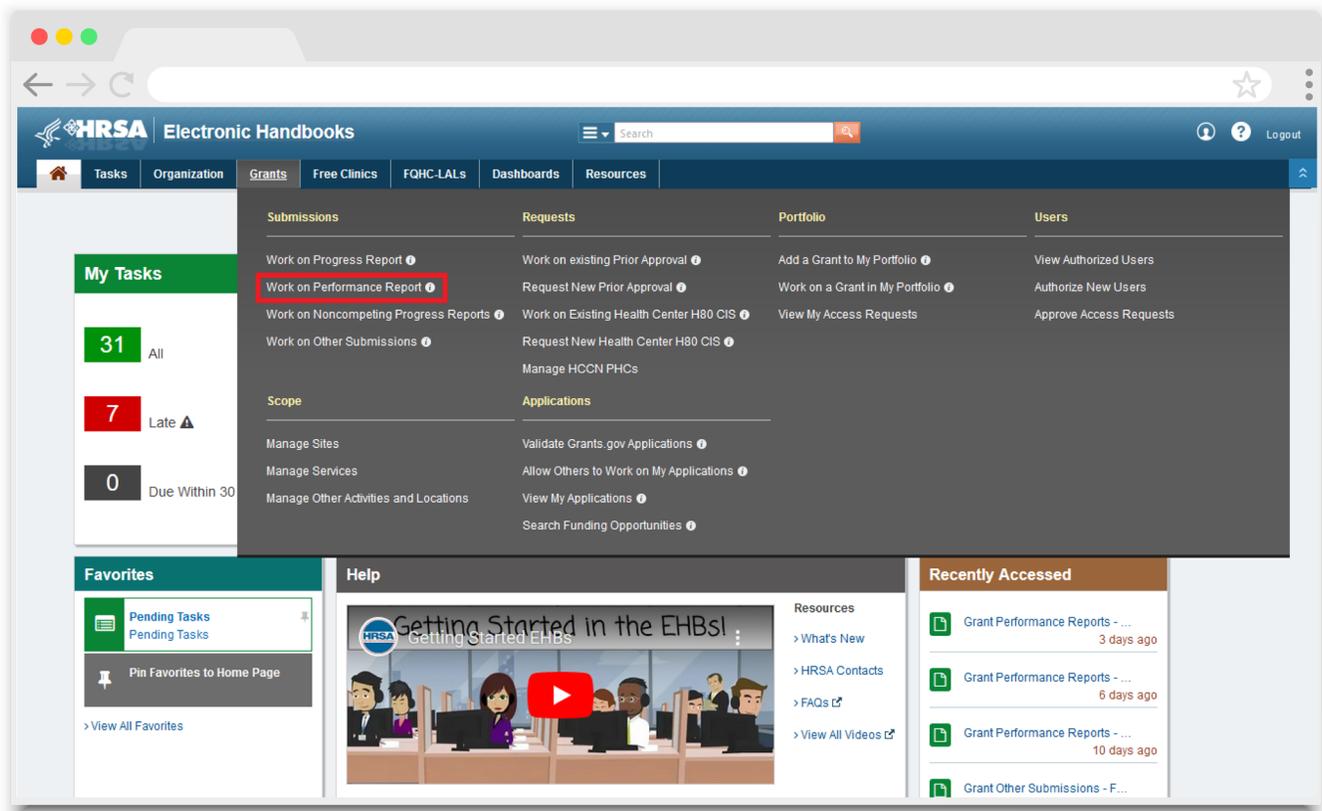

1. Navigate to the EHBs. If you are a recipient, you will choose the "Applicant/Grantee" box at the top-left side of the select role page ([Figure 2](#)). On the next page, select the "Login" button from the Login.gov page and log in using your username, password, and selected method of two-factor authentication.

Figure 2. Screenshot of the EHBs Select Role Page

2. Recipients, once you access the EHBs homepage, hover your cursor over the “Grants” tab toward the top of the screen. From the resulting dropdown menu, under the “Submissions” header, select “Work on Performance Report.”

Figure 3. Screenshot of the Grants Dropdown Menu

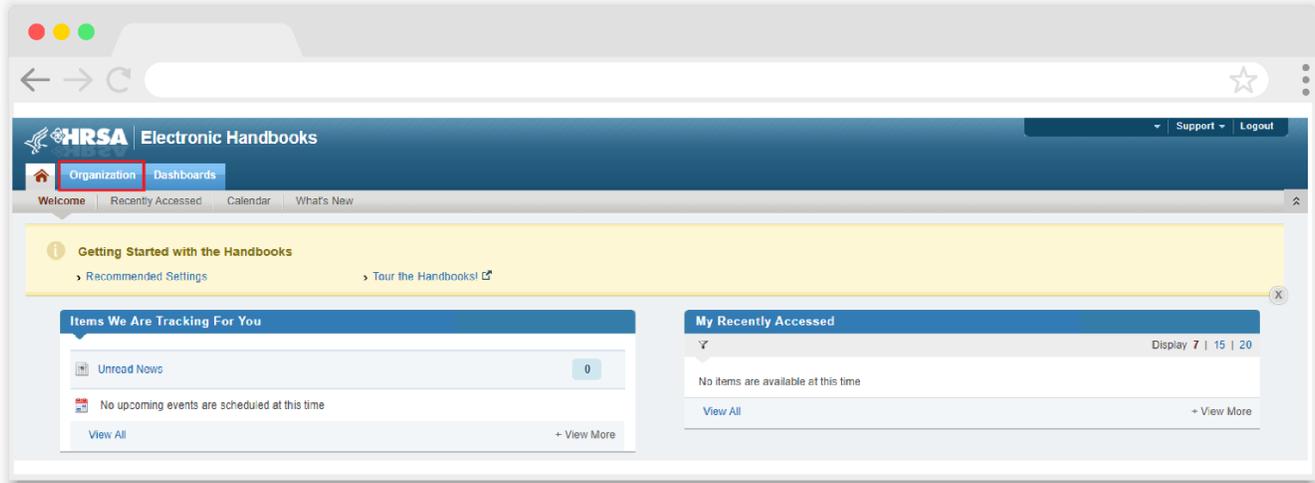

3. At the bottom of the next page, the Submissions - All page, under the "Submission Name" column header, locate your latest RSR. Select "Start" or "Edit" under the "Options" header to access the RSR Recipient Report Inbox.

If You Are a Subrecipient

1. Navigate to the EHBS. If you are a provider, you will choose the "Service Provider" box at the bottom of the select role page (Figure 2). On the next page, select the "Login" button from the Login.gov page and log in using your username, password, and selected method of two-factor authentication.
2. Once you access the EHBS homepage, select the "Organization" tab toward the top of the screen (Figure 4).

Figure 4. Screenshot of EHB Service Provider Homepage

3. The next page will show you the organizations your account is registered to. Locate your organization and then select the “Organization Folder” link under the “Options” column on the right side of the table.
4. On the “Organization Home” page, select the “Access RSR” link, which will be in the center of the page. This will take you to the RSR Provider Report Inbox.

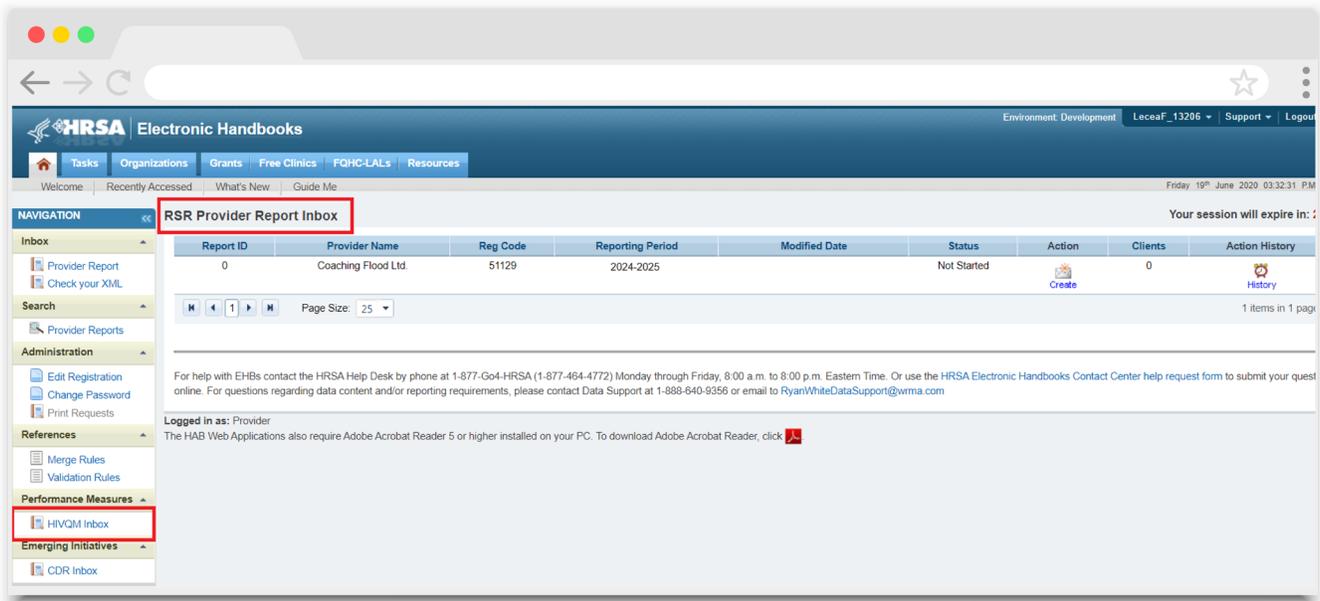

If you need help navigating the EHBs to find your RSR, contact the EHBs Customer Support Center at 1-877-464-4772.

Step Two: Access the HIVQM Module

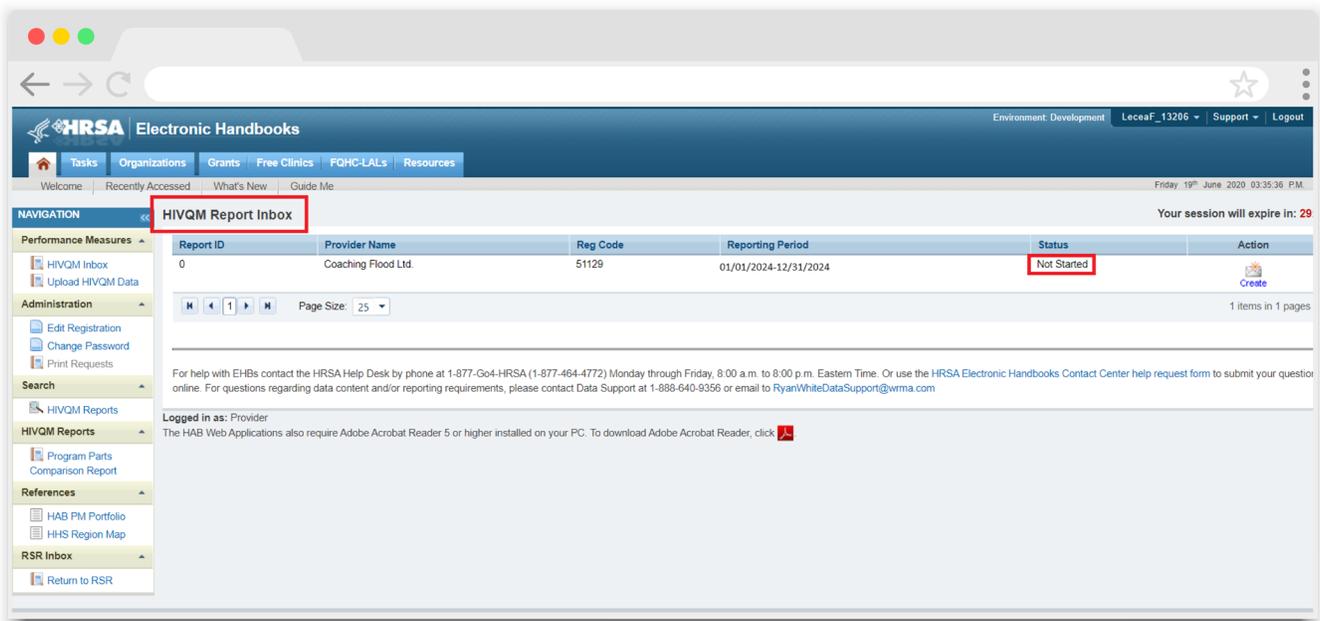

Once in the RSR Inbox, click the “HIVQM Inbox” link under the “Performance Measures” heading on the Navigation panel on the left side of the screen ([Figure 5](#)). Recipients will also access using the same link in the left-hand navigation pane, but their header will read “RSR Recipient Report Inbox.”

Figure 5. RSR Provider Report Inbox

In the HIVQM Report Inbox, find the provider’s name you want to enter data for and click the envelope icon on the right under the “Action” column (Figure 6). This will take you to the first section of the HIVQM Module, the Provider Information page. Subrecipients have access to their own HIVQM report.

Figure 6. HIVQM Inbox

Step Three: Complete the Provider Information Page

The Provider Information page will be prepopulated with data from your last RSR and consists of four items. Check the information already captured on the page and update any incorrect data. Below are the items and option responses ([Figure 7](#) and [Figure 8](#)).

1. **Provider Caseload:** Total number of unduplicated RWHAP clients enrolled at your provider agency at the end of the reporting period. Enter a number up to seven characters; it must be greater than zero.

2. **Funding Source:** Indicate all your agency's funding sources received during the HIVQM reporting period by clicking the corresponding checkboxes. You must select at least one funding source, and you can select more than one if applicable to your agency.
 - Part A
 - Part B
 - Part B Supplemental
 - Part C EIS
 - Part D
 - Part A CARES Act
 - Part B CARES Act
 - Part C CARES Act
 - Part D CARES Act
 - EHE

3. **Provider Type:** Indicate the organization type that best describes your agency by clicking the appropriate radio button. If you choose Other facility, please specify a description. You must indicate only one provider type.
 - Hospital or university-based clinic
 - Publicly funded community health center
 - Publicly funded community mental health center
 - Other community-based service organization (CBO)
 - Health department
 - Substance abuse treatment center
 - Solo/group private medical practice
 - Agency reporting for multiple fee-for-service providers
 - People Living with HIV/AIDS (PLWH) Coalition
 - VA facility
 - Other facility (Please specify)

 Report Period: Last Modified Date:
 Access Mode: ReadWrite Locked By:

Public Burden Statement: An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for this project is 0906-0022, and the expiration date is 12/31/2019. Public reporting burden for this collection of information is estimated to average 1 hour per respondent annually, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to HRSA Reports Clearance Officer, 5600 Fishers Lane, Room 10-33, Rockville, MD 20857.

Please review items 1 through 4 and make any necessary changes. A field with an asterisk (*) before it is a required field.

*** 1. Provider Caseload**
 Enter the total number of unduplicated clients enrolled at the end of the reporting period (caseload).
 Provider Caseload:

*** 2. Funding Source**
 Indicate all funding sources received during the reporting period.

Part A
 Part B
 Part B Supplemental
 Part C EIS
 Part D

*** 3. Provider Type:**

Hospital or university-based clinic
 Publicly funded community health center
 Publicly funded community mental health center
 Other community-based service organization (CBO)
 Health department
 Substance abuse treatment center
 Solo/group private medical practice
 Agency reporting for multiple fee-for-service providers
 People Living with HIV/AIDS (PLWHA) Coalition
 VA facility
 Other facility
 Please Specify:

4. Data Collection: This item consists of three (a–c) entries regarding your data collection system(s). You *must* enter a response for **4a** and **4b**. You must enter a response for **4c** *only* if you selected **Other** in **4b**.

- a. Does your organization use a computerized data collection system? Click the appropriate radio button.
 - Yes, all electronic
 - Yes, part paper and part electronic
 - No
 - Unknown
- b. What is the name of your current data collection system(s)? Indicate all systems that your agency uses by clicking the corresponding checkboxes.
 - ARIES
 - Allscripts
 - AVIGA
 - CAREWare
 - Casewatch Millennium
 - Cerner
 - eClinicalWorks

- eCOMPAS
 - EHS CareRevolution
 - Epic
 - ETO Software
 - FutureBridge
 - GE/Centricity
 - Sage/Vitera
 - NextGen
 - Provide Enterprise
 - SCOUT
 - Other
 - Unknown
- c. If you selected **Other** in 4b, enter in the text field any data collection system(s) used to run performance measures that are not listed in 4b. Use a semicolon to separate multiple items.

Once you have completed the Provider Information page, save your data by clicking “Save” on the bottom right of the screen. If you did not enter data for all items, you will receive an error message to return to the item with missing data and correct it. You will not be able to save your data until you have addressed all error messages.

Figure 8. HIVQM: Provider Information Page

The screenshot displays a web browser window with the following content:

- 4. Data Collection**
- 4a. Does your organization use a computerized data collection system?**
 - Yes, all electronic
 - Yes, part paper and part electronic
 - No
 - Unknown
- 4b. What is the name of your current data collection system(s)? (Select all that apply)**
 - AIREs
 - Allscripts
 - AVIGA
 - CAREWare
 - Casewatch Millennium
 - Cerner
 - eClinicalWorks
 - eCOMPAS
 - EHS CareRevolution
 - Epic
 - ETO Software
 - FutureBridge
 - GE/Centricity
 - NextGen
 - Provide Enterprise
 - Sage/Vitera
 - SCOUT
 - Other (Please specify in Item 4c below)
 - Unknown
- 4c. List any data collection system(s) used to report performance measures that are not in item 4b above (use a semicolon to separate multiple item lists.)**
 -

Buttons for "Cancel" and "Save" are located at the bottom of the form.

Step Four: Enter Performance Measures Data

Users can now enter performance measures data in two ways:

1. Manually entering the data into the module performance measures pages. For assistance, contact Data Support at (888) 640-9356 or email RyanWhiteDataSupport@wrma.com.
2. Via data upload from a [CSV file](#) into the module. For instructions on creating a CSV file, see [Appendix A](#) and refer to [HIVQM CSV template](#). For additional assistance, contact the DISQ Team at Data.TA@caiglobal.org.

You can also create your CSV file using CAREWare. For instructions, see the [HIVQM File Export Guide](#). For assistance, contact the CAREWare Help Desk at cwhelp@jprog.com or (877) 294-3571.

Below you will find instructions for manually entering data and uploading a CSV file into the HIVQM Module.

If entering data, do we need data for the entire measurement year or can we enter partial data?

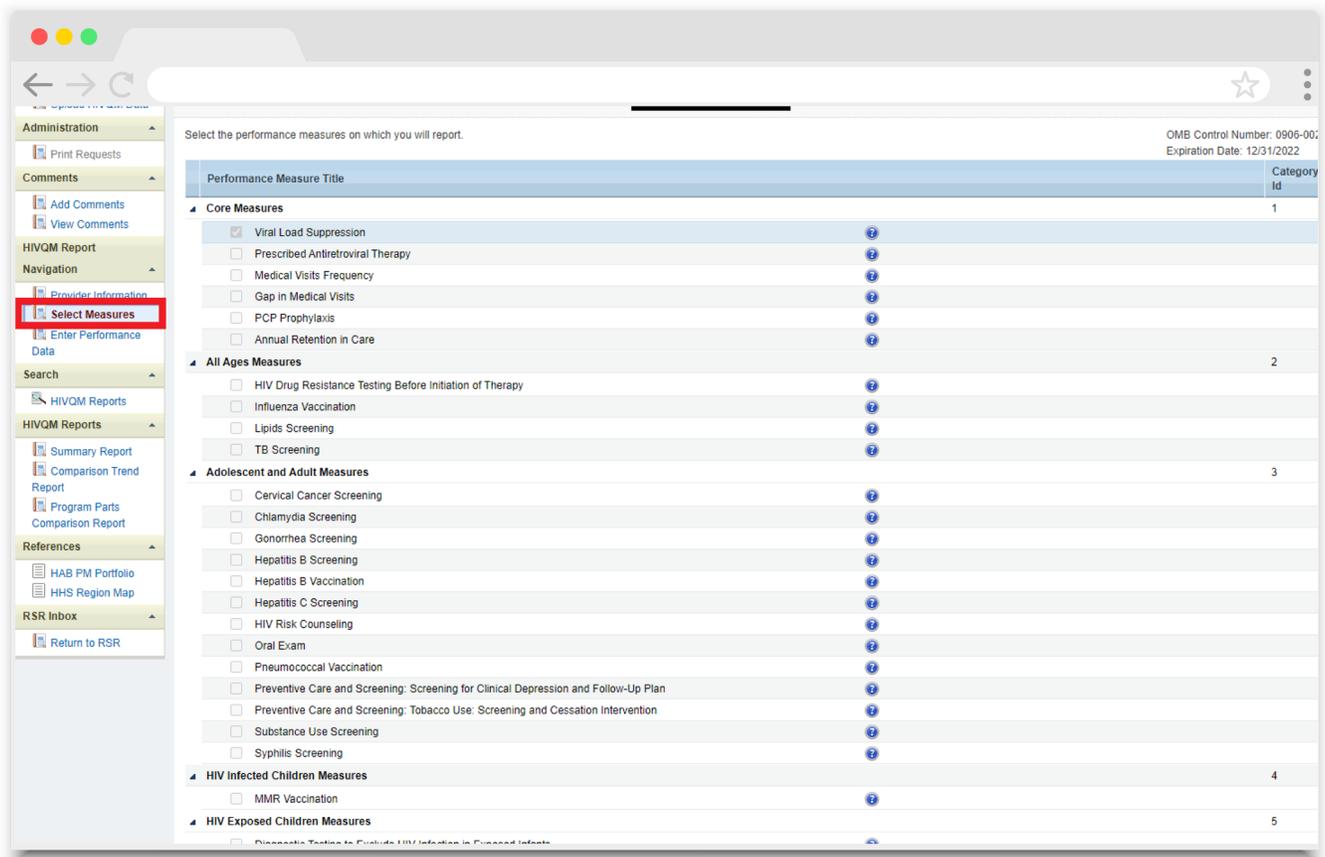

We encourage you to enter all the data you have, whether it is partial-year data or the entire measurement year.

Manually Entering Performance Measures Data

Select Measures

To manually enter data into the HIVQM Module, users must first select the performance measures you want to use. To select performance measures, click the “Select Measures” link under the “HIVQM Report Navigation” heading in the Navigation pane on the left side of the screen. ([Figure 9](#)) is a screenshot of the Select Measures page which displays the nine main performance measures categories that you can select to enter your data.

Figure 9. HIVQM: Performance Measure Selection Page

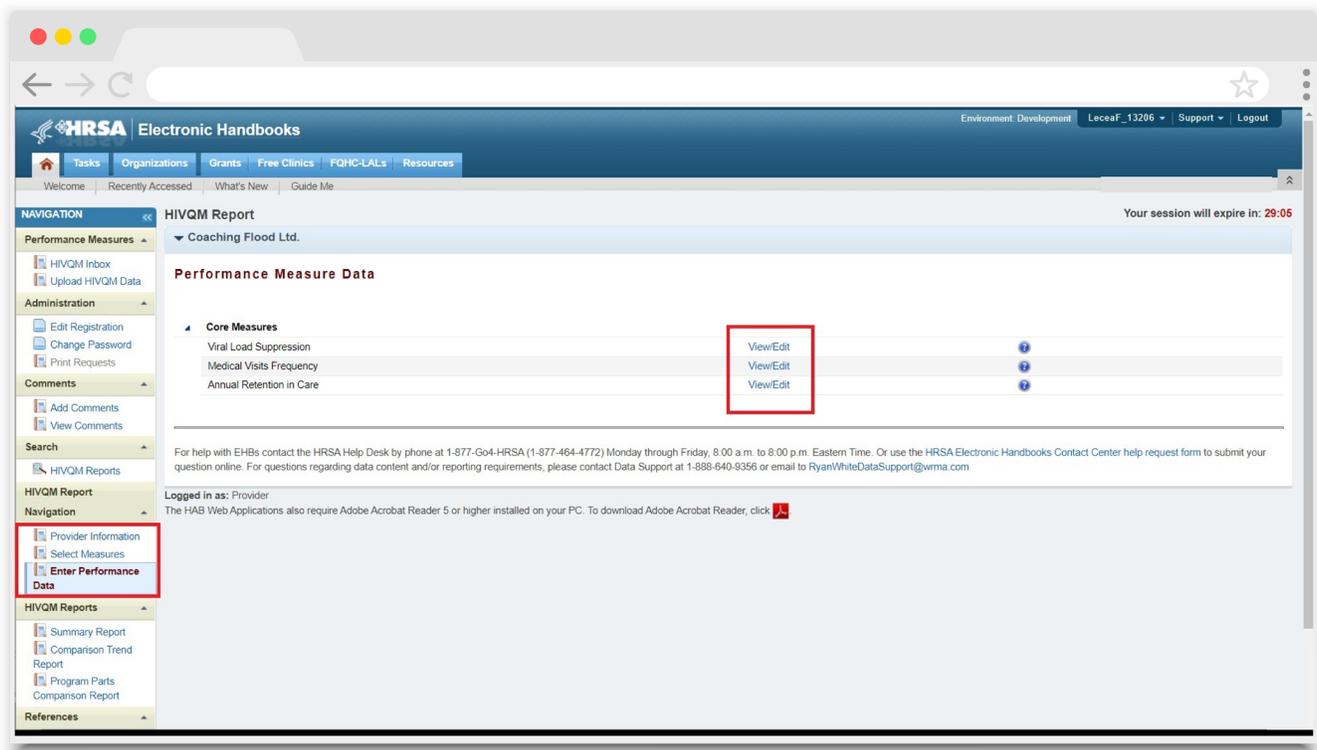

The page will refresh to a list of the nine main performance measure categories. To see the performance measures under each main category, click the expand icon on the left to expand your selections. Select the performance measures you want to enter data for by clicking the checkbox next to the performance measures. If you want more information about the performance measure, click the information icon to the right, and a pop-up window will display additional information. Once you have selected all the performance measures your agency wants to submit data on, click “Save” in the lower-right corner of the screen.

Entering Performance Data

After saving your performance measures, you are ready to enter your data. On the left side of the screen, under the Navigation pane, click the “Enter Performance Data” link, and the screen will refresh to the Data Entry page containing a list of all the performance measures you selected.

To enter your data, click on the “View/Edit” link for the performance measure. See [\(Figure 10\)](#) for a screenshot on entering performance measures.

Figure 10. HIVQM: Performance Measure Data Entry Page

Once you have clicked on the “View/Edit” link, the screen will refresh to display your chosen performance measure. The three main fields for data entry are: Records Reviewed, Numerator, and Denominator. Note that the other fields on this page are grayed out and you will not be able to enter any other numbers. See (Figure 11) for a screenshot on entering these numbers. Below is the guidance to determining the three main numbers:

- **Records reviewed** is the number of all client records that were assessed for the performance measure under review. All client records can include clients who receive HIV services, regardless of funding source or RWHAP eligibility.
- **Denominator** includes only clients in the records reviewed who should receive the care or service under review (e.g., achieved viral suppression, prescribed HIV ART, screened for Hepatitis B).
- **Numerator** includes those clients from the denominator who did receive the care or service under review. (e.g., achieved viral suppression, prescribed HIV ART, screened for Hepatitis B).

The Numerator and Denominator numbers are required fields.

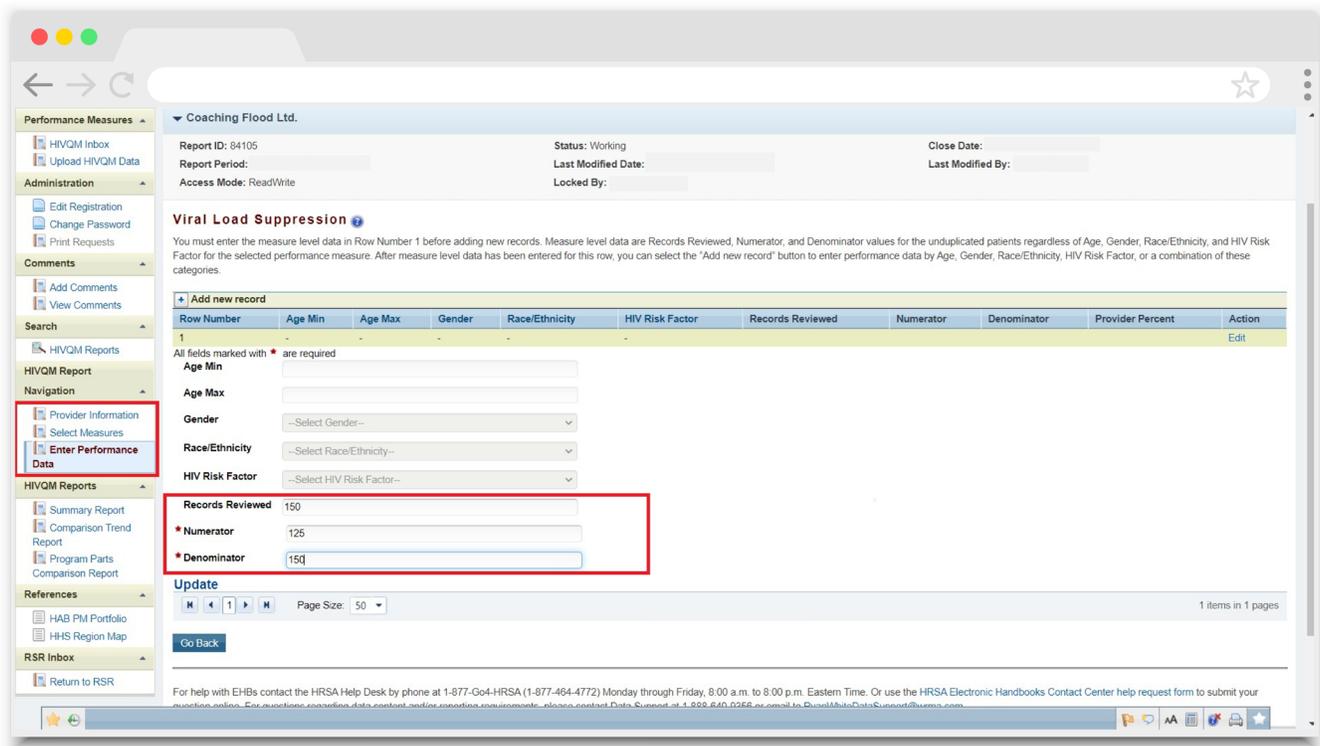

For more program-related guidance on these numbers, click the information icon to the right of the performance measure and a pop-up window will display additional information. You can also refer to the [HRSA HAB Performance Measure Portfolio webpage](#).

Try these tips to avoid receiving error messages when entering your data.

- For Records Reviewed, you must enter a number less than or equal to your caseload number entered in the Provider Information page.
- The Records Reviewed number must be greater than or equal to the Denominator.
- The Numerator must be less than or equal to the Denominator.
- If your Numerator is less than 20% of the Denominator, you will receive an alert to make sure this number is correct. Correct the Numerator or disregard the alert if the Numerator is correct.

Figure 11. HIVQM: Entering Records Reviewed, Numerator, and Denominator

Once you have entered all your data, save it by clicking “Update” on the lower-left corner of the screen. The numbers will appear as Row 1 as a performance measure record. See (Figure 12) for an example of Row 1. Row 1 includes all client records that were uploaded for that specific performance measure. A dash in any of the columns indicates that the measure includes all clients in that category and is not restricted to any specific subgroups (e.g., males only or 25- to 44-year-olds only). If you have entered invalid data (valid data is described above) in any of the fields, you will receive an error message. Go back to your data entries and correct the errors by clicking on “Edit” on the right side of the screen. You will not be able to save your data until you have addressed all error messages.

Figure 12. HIVQM: Row 1

The screenshot shows a web application interface for a performance measure record. At the top, there is a header for 'Coaching Flood Ltd.' with fields for Report ID (84105), Report Period, Access Mode (ReadWrite), Status (Working), Last Modified Date, Locked By, Close Date, and Last Modified By. Below this is the title 'Medical Visits Frequency' with a help icon. A note states: 'Row 1 includes all client records for that specific performance measure. A dash in any of the columns indicates that the measure includes all clients in that category and is not restricted to any specific subgroups (e.g. males only or 25-44 yr olds only)'. A table is displayed with the following columns: Row Number, Age Min, Age Max, Gender, Race/Ethnicity, HIV Risk Factor, Records Reviewed, Numerator, Denominator, Provider Percent, and Action. The first row contains the values: 1, -, -, -, -, -, 125, 100, 110, 90%, and Edit. Below the table are navigation controls including a 'Go Back' button, a 'Page Size' dropdown set to 50, and a status indicator '1 items in 1 pages'. At the bottom, there is a footer with contact information for HRSA Help Desk and Data Support.

Row Number	Age Min	Age Max	Gender	Race/Ethnicity	HIV Risk Factor	Records Reviewed	Numerator	Denominator	Provider Percent	Action
1	-	-	-	-	-	125	100	110	90%	Edit

In this example, dashes appear in age min, age max, gender, race/ethnicity, and HIV risk factor columns. The dashes indicate that you uploaded data for all 125 records and did not restrict your data to any specific subgroup.

Entering Demographic Data

After your first performance measure record is saved, you can now enter demographic data for that performance measure. To enter demographic data, click on the plus icon, “Add new record,” and the page will refresh to allow you to enter demographic data. See (Figure 13) for an example of entering demographic data. The Gender, Race/Ethnicity, and HIV Risk Factor fields include drop-down options that you can choose from. See below for dropdown options.

- **Age:** Minimum and max age
- **Gender:** Male, Female, Transgender (All), Transgender Male to Female, Transgender Female to Male, Transgender Other

- **Race/Ethnicity:** American Indian/Alaska Native, Asian, Black/African American, Hispanic/Latino, Native Hawaiian/Pacific Islander, White, Multiple races
- **HIV Risk Factor:** Male to male sexual contact (MSM), Injection drug use (IDU), MSM and IDU, Heterosexual contact, Perinatal transmission, Other

Figure 13. HIVQM: Entering Demographic Data

The screenshot shows a web browser window displaying the 'Annual Retention in Care' form. The form has a table header with columns: Row Number, Age Min, Age Max, Gender, Race/Ethnicity, HIV Risk Factor, Records Reviewed, Numerator, Denominator, and Pr. Below the header, there are input fields for each column. The 'Age Min' field is set to 24, 'Age Max' to 66, 'Gender' to Male, 'Race/Ethnicity' to White, and 'HIV Risk Factor' to Male to Male sexual contact (MSM). The 'Records Reviewed' field is set to 55, 'Numerator' to 25, and 'Denominator' to 55. There are 'Insert' and 'Cancel' buttons at the bottom left. A red box highlights the 'Add new record' button at the top left and the 'Insert' button at the bottom left. Another red box highlights the input fields for Age Min, Age Max, Gender, Race/Ethnicity, and HIV Risk Factor.

The demographic data will allow you to enter the denominator and numerator for various characteristics of your population. You can enter the numbers for one particular demographic field or multiple fields. In the module, this is called a row. For example, a row can include the numbers for only one demographic group, such as “males,” or for multiple fields such as “African American males who are 24 – 50 years of age.” See [\(Figure 14\)](#) for an example of different rows.

Once you have chosen your demographic preferences for a row and entered the numbers, click on the “Insert” link at the bottom left to submit the data. At the top of the page, you will either get a message that the submission was a success or an error message if your numbers do not make sense. You can correct your numbers by clicking on “Edit” on the right side of the screen. When you get the success message, the module will generate a table showing you the data you entered along with the calculated percentage [\(Figure 14\)](#).

To add another row or a new set of demographic data, click on the plus icon, “Add new record” at the top left of the table. Remember to click on the “Insert” link at the bottom left once you are finished with a row.

(Figure 14) is an example of the generated table with various rows. You can also sort your data by clicking on column title. (Figure 14) shows that table sorted by Race/Ethnicity. **Demographic data will only be reported in this table. Demographic data will not appear in any of the HIVQM reports.**

Figure 14. HIVQM: Demographic Data Report

Row Number	Age Min	Age Max	Gender	Race/Ethnicity	HIV Risk Factor	Records Reviewed	Numerator	Denominator	Provider Percent	Action
1	-	-	-	-	-	125	100	110	90%	Edit
5	24	66	Male	Black/African American	Heterosexual contact	-	47	55	85%	Edit Delete
6	24	66	Female	Black/African American	Heterosexual contact	25	18	25	72%	Edit Delete
7	24	66	Male	Hispanic/Latino	MSM and IDU	65	55	65	84%	Edit Delete
8	24	66	Female	Hispanic/Latino	Heterosexual contact	55	40	55	72%	Edit Delete
4	24	66	Transgender (all)	Multiple races	Other	10	8	10	80%	Edit Delete
2	24	66	Male	White	Male to Male sexual contact (MSM)	55	25	35	71%	Edit Delete
3	24	66	Female	White	Heterosexual contact	65	48	55	87%	Edit Delete

Uploading Performance Measures Data

Recipients and subrecipients can import performance measures data into the HIVQM Module from a CSV file. For instructions on creating a CSV file, see [Appendix A](#) and refer to the [HIVQM CSV template](#).

In the Navigation panel on the top-left side of the screen, click on the link “Upload HIVQM Data” to bring you to the HIVQM Data Upload page. See (Figure 15) for a screenshot of the Data Upload page.

HIVQM Data Upload

This page allows you to upload HIVQM performance measures for the reporting period(s) specified below. You can find the description of the columns in the provided field definition file. Once data is uploaded, you can view the validation results in the Upload Summary table. You may upload HIVQM performance data multiple times. However, system will retain data only from the latest file upload. You can also view and edit performance data in the HIVQM Report for the corresponding reporting period.

Report Period(s) Open for Editing: 01/01/2024-12/31/2024

Provider Name:

Do you have to manually populate a CSV file?

You do not need to enter data manually into the CSV file. There are [RSR-Ready Data Systems](#), including CAREWare, that can create the CSV file for you. Please reach out to the [DISQ Team](#) if you have any questions or need assistance with this.

Instructions on how to create a CSV file can be found in [Appendix A](#).

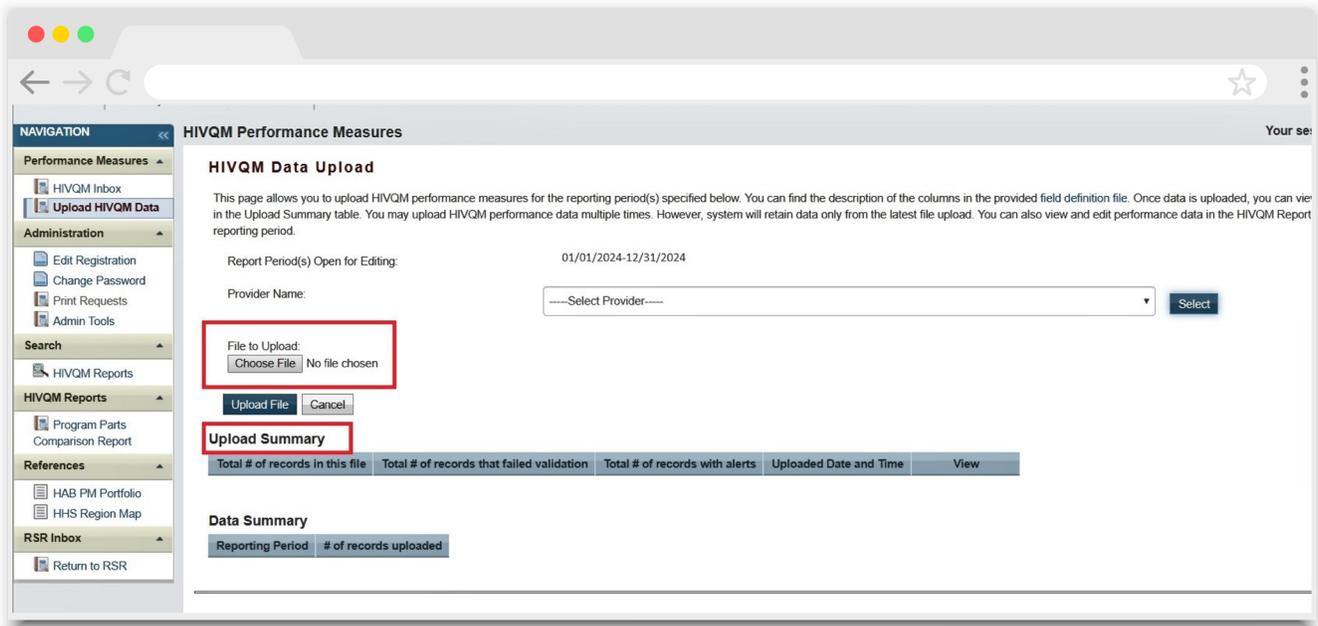

For further assistance in creating a CSV file and uploading your data into the HIVQM, contact the DISQ Team at Data.TA@caiglobal.org.

Uploading Your CSV File

On the Data Upload page, you will be able to select the provider name through a dropdown menu. Users will be able to see all the providers they have access to via the dropdown menu. Once you select the provider name, click on the “Select” button. Two new buttons for importing your file will appear. First, click on the “Choose File” button to search for the CSV file on your computer. Then click the “Upload File” button to upload the file. See ([Figure 16](#)) for a screenshot of the upload buttons.

Figure 16. Uploading Your CSV File

A validation process will automatically begin to ensure that data in your file passes system requirements. Once the validation process is complete, the Upload Summary table will appear to provide information of the validation results. See (Figure 13) for a screenshot of the Upload Summary table. The Upload Summary table will include information on the number of records in the file, the number of records that failed validation, and the number of alerts. There are different types of validation messages. **Alerts** tell you to check your data to make sure they are correct. **Errors** will display any information that must be corrected before successfully uploading your file. To view your list of validations, click on the link “Validation Result” in the Upload Summary table and an Excel document will appear that can also be downloaded to your computer.

A list of validations can be found in [Appendix B](#).

After you have checked the alerts and fixed the errors in your file, you can begin the upload process again by clicking on the “Choose File” button to search for the correct CSV file on your computer and then clicking the “Upload File” button. The old file will be automatically replaced with the new file. When your file has passed the validation process, you will see at the top of the page, “The file is processed successfully.”

The Data Summary table located below the Upload Summary table contains information on the reporting period and the number of records uploaded. This can be especially helpful if you have multiple file uploads.

You will still see the alerts that ask you to check your data even though you have successfully uploaded your file and are ready to generate reports.

Step Five: Generate HIVQM Reports

The HIVQM Module can generate three types of reports: the Summary Report, the Comparison Trend Report, and the Program Parts Comparison Report. These reports allow recipients to compare their performance measures data with that of others.

- The **Summary Report** will allow recipients to compare their performance data at the organizational, state, regional, and national level.

- The **Comparison Trend Report** will allow recipients to compare their performance data at the organizational, state, regional, and national level over a five-year period.
- The **Program Parts Comparison Report** will allow recipients to compare performance measures data by RWHAP part.

To view a report, click the “Summary Report,” “Comparison Trend Report,” or “Program Parts Comparison Report” link under HIVQM Reports in the Navigation panel on the left side of the screen (Figure 17).

Note that the reports will only represent data of organizations that submitted data into the HIVQM Module.

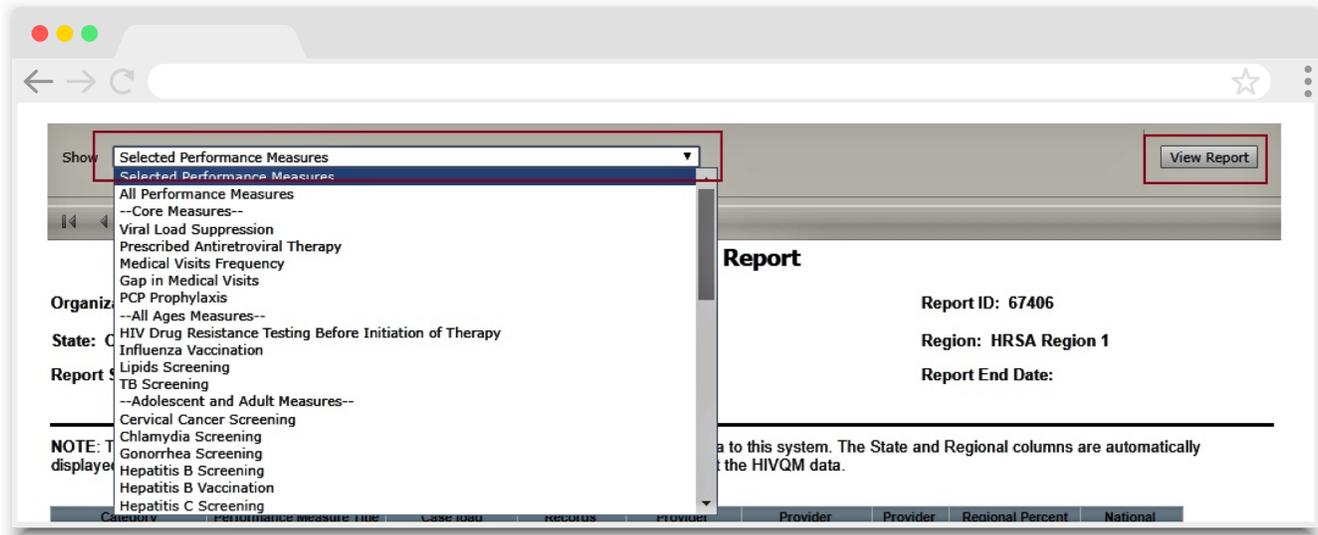

Summary Report

Once you click “Summary Report,” select the performance measure(s) that you want to view from the pull-down menu at the top of the page. You can select all performance measures, a main category, or an individual performance measure. See (Figure 18) for a screenshot on selecting performance measures.

Figure 17. Screenshot of HIVQM Reports Menu

Figure 18. HIVQM: Selecting Performance Measures for Reports (Same for Summary and Comparison Trend Reports)

Once you select the performance measure(s), click “View Report” on the upper right and the report will be generated in a different tab. You can export your summary report via multiple formats (including PDF, Microsoft Excel, and CSV) by clicking the floppy disk icon for a pull-down menu of options. This summary report reflects data that were submitted during the reporting period. Note that the state and regional columns will be hidden if fewer than four organizations submit data for that state or region. See ([Figure 19](#)) for an example of the Summary Report.

Figure 19. HIVQM: Summary Report

HIVQM Summary Report

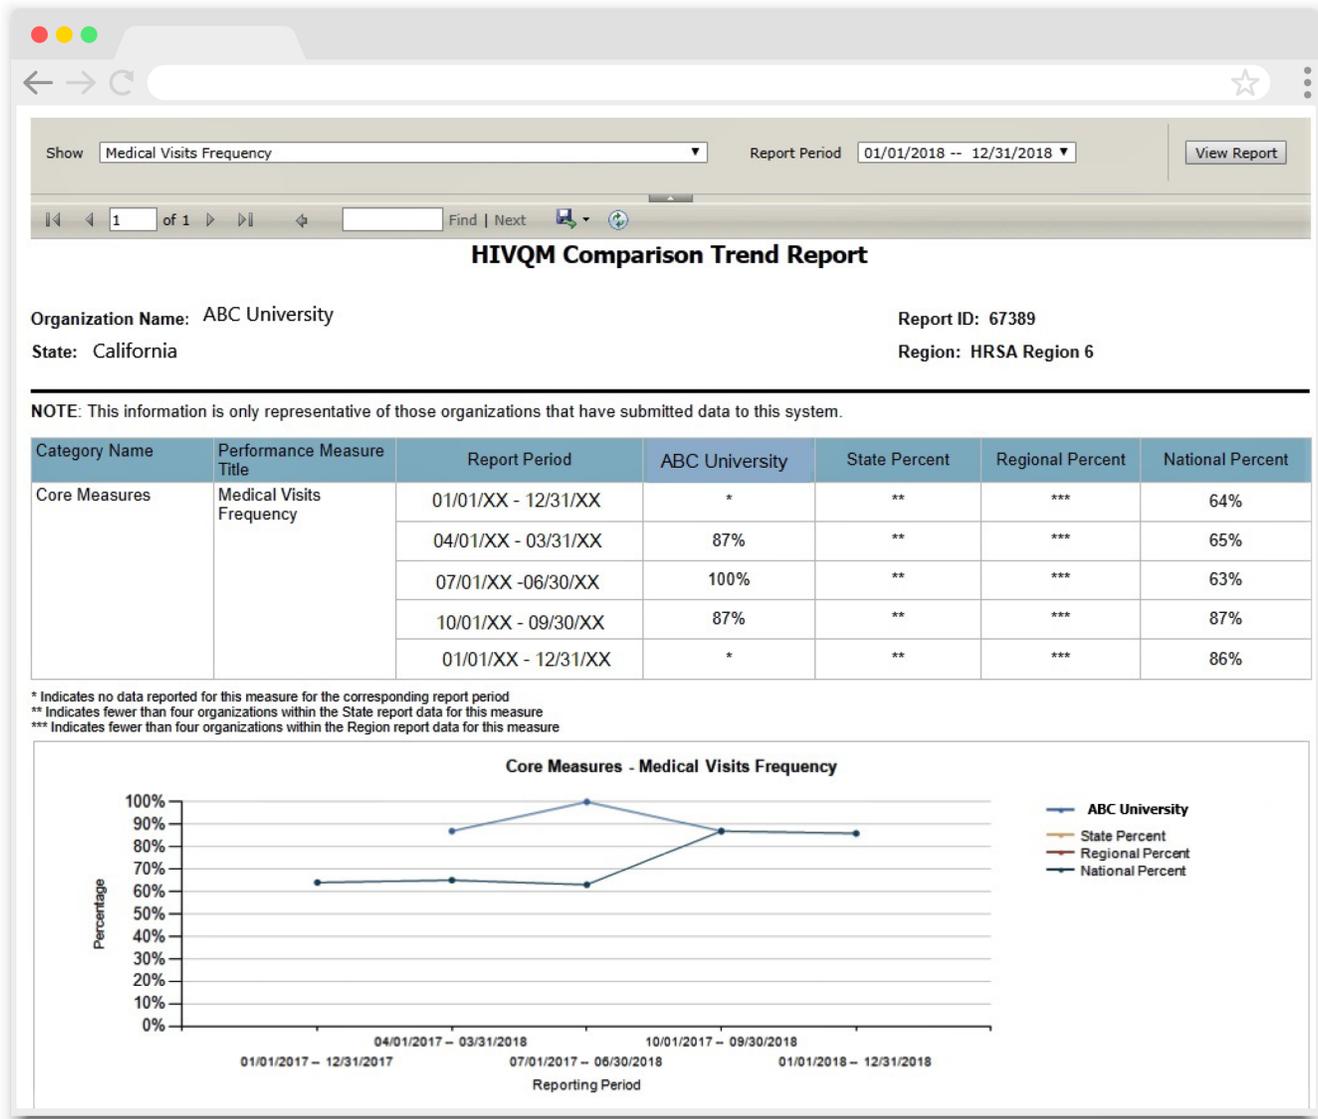

Organization Name: ABC University Report ID: 67385
 State: California Region: HRSA Region
 Report Start Date: Report End Date:

NOTE: This information is only representative of those organizations that have submitted data to this system. The State and Regional columns are automatically displayed when four or more organizations within the corresponding State and Region submit the HIVQM data.

Category	Performance Measure Title	Case load	Records Reviewed	Provider Numerator	Provider Denominator	Provider Percent	State Percent	Regional Percent	National Percent
Core Measures	Viral Load Suppression	141	123	120	120	100%	98%	88%	76%
Core Measures	Prescribed Antiretroviral Therapy	141	123	110	120	91%	91%	88%	89%
Core Measures	Medical Visits Frequency	141	123	100	120	83%	83%	83%	86%
Core Measures	Gap in Medical Visits	141	123	80	110	72%	63%	38%	46%
Core Measures	PCP Prophylaxis	141	123	80	100	80%	80%	76%	75%
Adolescent and Adult Measures	Cervical Cancer Screening	141	80	60	62	96%	96%	96%	94%
Adolescent and Adult Measures	Chlamydia Screening	141	80	75	75	100%	100%	77%	78%
Oral Health Measures	Dental Treatment Plan	141	100	85	95	89%	89%	89%	88%
Oral Health Measures	Periodontal Screening or Examination	141	100	80	100	80%	80%	80%	80%

! Note that the reports will only represent data from organizations that submitted data into the HIVQM Module.

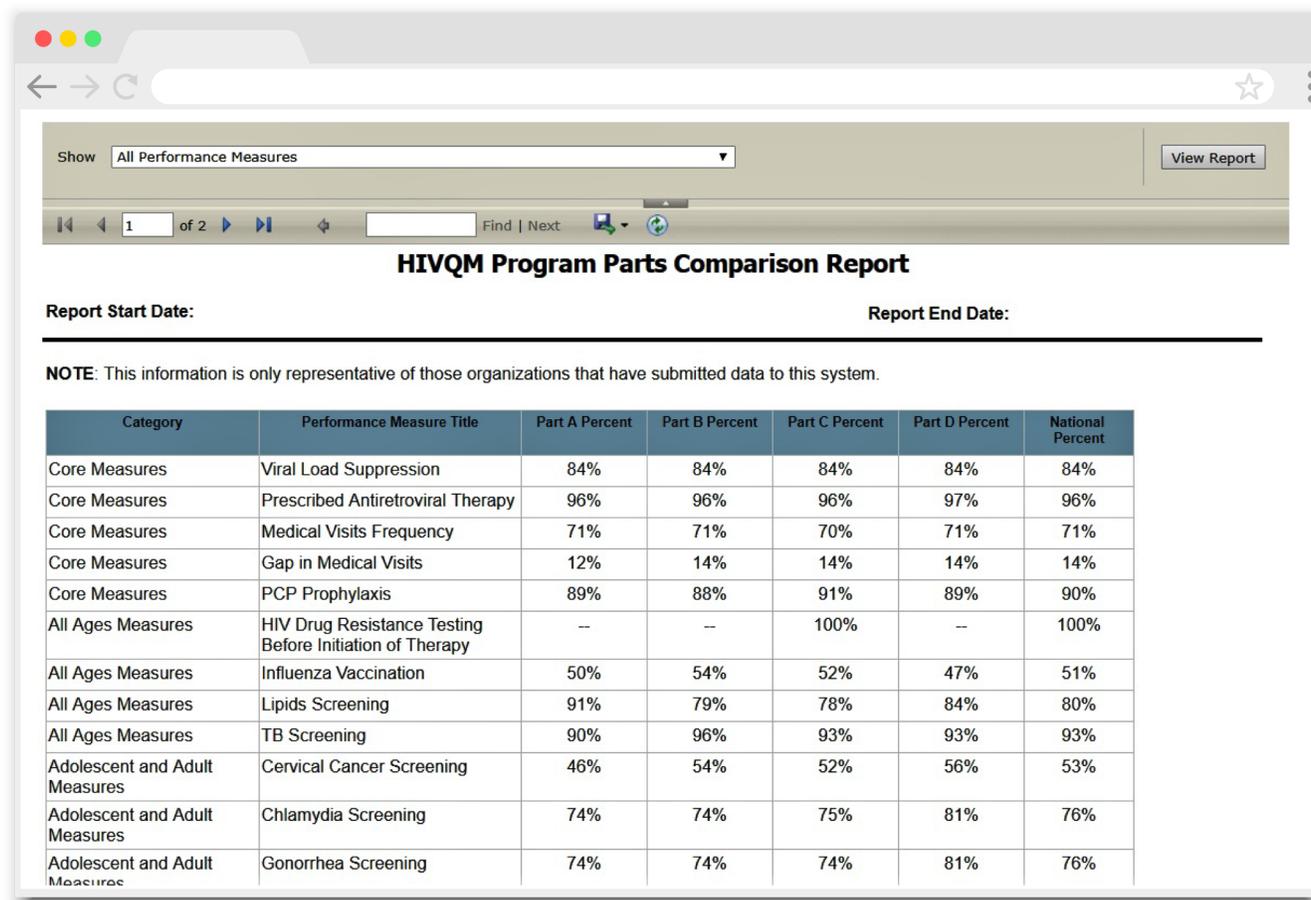

Figure 20. HIVQM: Comparison Trend Report

Comparison Trend Report

Once you click the “Comparison Trend Report” link, select the performance measure(s) that you want to view from the pull-down menu at the top of the page. You can select all performance measures, a main category, or an individual performance measure. In the “Reporting Period” field, select a year-long reporting period from the pull-down menu, starting from January 2016. Click “View Report,” and the report will be generated in a different tab. You can export your Comparison Trend Report via multiple formats (including PDF, Microsoft Excel, and CSV) by clicking the floppy disk icon for a pull-down menu of options. If fewer than four organizations report data under a performance measure, asterisks will be displayed in the corresponding cell of the data table. See (Figure 20) for an example of the Comparison Trend Report.

Figure 21. HIVQM: Program Parts Comparison Report

Program Parts Comparison Report

Once you click the “Program Parts Comparison Report” link, select the performance measure(s) that you want to view from the pull-down menu at the top of the page. You can select all performance measures, a main category, or an individual performance measure (Figure 12). Once you select the performance measure(s), click “View Report” on the right and the report will be generated in a different tab. You can export your summary report via multiple formats (including PDF, Microsoft Excel, and CSV) by clicking the floppy disk icon for a pull-down menu of options. This summary report reflects data that were submitted during the reporting period. See (Figure 21) for an example of the Program Parts Comparison Report.

For further assistance on completing the HIVQM Module or generating reports, contact Data Support at (888) 640-9356 or email RyanWhiteDataSupport@wrma.com.

Appendix A

HIVQM Upload – Field Definitions

This document provide guidance to create a CSV file to upload HIVQM data. The first row of the file contains the column headers separated by commas. The HIVQM data for various performance measures should be populated starting from the second row of the file and each entry should be separated by commas. A screenshot of the sample file is shown below in (Figure 22). You may also refer to [HIVQM CSV template](#). For additional assistance, contact the DISQ Team at Data.TA@caiglobal.org.

Figure 22. HIVQM Data Upload Sample

Provider ID	Provider Name	Software Name	Measure ID	Measure Name	Report Start Date	Report End Date	Record creation date	Records Reviewed	Numerator	Denominator	Age Min	Age Max	Gender	Race/ Ethnicity	HIV Risk Factor
348		CAREWare	Core01	Viral Load Suppression	7/1/2023	6/30/2024	9/30/2024	175	115	125					
348		CAREWare	Core01	Viral Load Suppression	7/1/2023	6/30/2024	9/30/2024	175	78	80	24	29		3	
348		CAREWare	HAB41	Care Plan	7/1/2023	6/30/2024	9/30/2024	175	118	125					
348		CAREWare	HAB41	Care Plan	7/1/2023	6/30/2024	9/30/2024	175	118	125	24	29	2		
348		CAREWare	HAB13	Syphilis Screening	7/1/2023	6/30/2024	9/30/2024	175	118	125					
348		CAREWare	HAB13	Syphilis Screening	7/1/2023	6/30/2024	9/30/2024	175	118	125	24	35			1

The description of each column is defined in the table below.

Field	Field Name	Description	Field Type	Length	Coding	Required
1.	Provider ID	Provider ID of the provider	Numeric	5	Provider ID is a unique five-digit identifier assigned to your organization. Please contact Data Support if you do not have this information.	Yes
2.	Provider Name	Name of the provider corresponding to the Provider ID	Character	250	The Provider Name should be entered in double quotations, e.g., "UNIVERSITY OF CALIFORNIA, SAN DIEGO"	No
3.	Software Name	Name of the software being used to populate the HIVQM data	Character	250	The Software Name should be entered in double quotations, e.g., "CAREWare"	No

Field	Field Name	Description	Field Type	Length	Coding	Required
4.	Measure ID	Measure code corresponding to the performance measure under review	Character	250	The Measure ID should be entered in double quotations, e.g., "Core01." Please refer to the Appendix for a list of valid Measure IDs.	Yes
5.	Measure Name	Name of the performance measure under review	Character	250	The Measure Name should be entered in double quotations, e.g., "Viral Load Suppression." Please refer to the Appendix for a list of valid Measures corresponding to each Measure ID.	No
6.	Report Start Date	Start date of the reporting period	Date	NA	The Report Start Date should be entered in "MM/DD/YYYY" format.	Yes
7.	Report End Date	End date of the reporting period	Date	NA	The Report End Date should be entered in "MM/DD/YYYY" format.	Yes
8.	Report Creation Date	Date when the report was created	Date	NA	The Report Creation Date should be entered in "MM/DD/YYYY" format.	No
9.	Records Reviewed	The number of records that were assessed for the performance measure under review	Numeric	9		Yes
10.	Numerator	Total number of patients from the denominator	Numeric	9		Yes
11.	Denominator	Total number of patients under review for the corresponding performance measure	Numeric	9		Yes
12.	Age Min	Minimum age within the group under review	Numeric	3		No
13.	Age Max	Maximum age within the group under review	Numeric	3		No

Field	Field Name	Description	Field Type	Length	Coding	Required
14.	Gender	Gender code corresponding to the Gender value under review	Numeric	3	Please refer to the Appendix for a list of valid Gender codes.	14.
15.	Race/ Ethnicity	Race/ Ethnicity code corresponding to the Race/ Ethnicity value under review	Numeric	3	Please refer to the Appendix for a list of valid Race/ Ethnicity codes.	No
16.	HIV Risk Factor	HIV Risk Factor code corresponding to the HIV Risk Factor value under review	Numeric	3	Please refer to the Appendix for a list of valid HIV Risk Factor codes.	No

Performance Measure IDs

The HIVQM Performance Measures are each assigned a unique Measure ID. The following table depicts the category and the Measure ID for each performance measure.

Performance Measure Category	Performance Measure Name	Measure ID
Core Measures	HIV Viral Load Suppression	Core01
Core Measures	Prescription of HIV Antiretroviral Therapy	Core02
Core Measures	Medical Visits Frequency	Core03
Core Measures	Gap in HIV Medical Visits	Core04
Core Measures	Pneumocystis Jiroveci Pneumonia (PCP) Prophylaxis	HAB03
Core Measures	Annual Retention in Care	Core05
All Ages Measures	HIV Drug Resistance Testing Before Initiation of Therapy	HAB35
All Ages Measures	Influenza Immunization	HAB19
All Ages Measures	Lipid Screening	HAB11
All Ages Measures	Tuberculosis B Screening	HAB14
Adolescent and Adult Measures	Cervical Cancer Screening	HAB07
Adolescent and Adult Measures	Chlamydia Screening	HAB15
Adolescent and Adult Measures	Gonorrhea Screening	HAB16
Adolescent and Adult Measures	Hepatitis B Screening	HAB17

Performance Measure Category	Performance Measure Name	Measure ID
Adolescent and Adult Measures	Hepatitis B Vaccination	HAB08
Adolescent and Adult Measures	Hepatitis C Screening	HAB09
Adolescent and Adult Measures	HIV Risk Counseling	HAB10
Adolescent and Adult Measures	Oral Exam	HAB12
Adolescent and Adult Measures	Pneumococcal Vaccination	HAB22
Adolescent and Adult Measures	Preventive Care and Screening for Clinical Depression and Follow-Up Plan	HAB21
Adolescent and Adult Measures	Preventive Care and Screening Tobacco Use Smoking Cessation Intervention	HAB36
Adolescent and Adult Measures	Substance Use Screening	HAB23
Adolescent and Adult Measures	Syphilis Screening	HAB13
HIV Infected Children Measures	MMR Vaccination	HAB37
HIV Exposed Children Measures	Diagnostic Testing to Exclude HIV Infection in Exposed Infants	HAB38
HIV Exposed Children Measures	Neonatal Zidovudine Prophylaxis	HAB39
HIV Exposed Children Measures	PCP Prophylaxis for HIV-Exposed Infants	HAB40
Medical Case Management (MCM) Measures	Care Plan	HAB41
Medical Case Management (MCM) Measures	Gap in HIV Medical Visits	HAB57
Medical Case Management (MCM) Measures	HIV Medical Visit Frequency	HAB58
Oral Health Measures	Dental and Medical History	HAB42
Oral Health Measures	Dental Treatment Plan	HAB43
Oral Health Measures	Oral Health Education	HAB44
Oral Health Measures	Periodontal Screening or Examination	HAB45
Oral Health Measures	Phase I Treatment Plan Completion	HAB46
ADAP Measures	ADAP Application Determination	HAB47
ADAP Measures	Eligibility Recertification	HAB48
ADAP Measures	Formulary	HAB49
ADAP Measures	ADAP Inappropriate Anti-retroviral Regimen	HAB50
Systems-Level Measures	Waiting Time for Initial Access to Outpatient/Ambulatory Medical Care	HAB51
Systems-Level Measures	HIV Test Results for People Living with HIV	HAB52

Performance Measure Category	Performance Measure Name	Measure ID
Systems-Level Measures	HIV Positivity	HAB53
Systems-Level Measures	Late HIV Diagnosis	HAB54
Systems-Level Measures	Linkage to HIV Medical Care	HAB55
Systems-Level Measures	Housing Status	HAB56

Gender Codes

The valid Gender values are each assigned a unique Gender Code. The following table depicts the Gender codes for each Gender value.

Gender Code	Gender
1	Male
2	Female
3	Transgender (all)
4	Transgender Male to Female
5	Transgender Female to Male
6	Transgender Other

Race/Ethnicity Codes

The valid Race/Ethnicity values are each assigned a unique Race/Ethnicity Code. The following table depicts the Race/ Ethnicity codes for each Race/Ethnicity value.

Race/Ethnicity Code	Race/Ethnicity
1	American Indian/Alaska Native
2	Asian
3	Black/African America
4	Hispanic/Latino
5	Native Hawaiian/Pacific Islander
6	White
7	Multiple races

HIV Risk Factor Codes

The valid HIV Risk Factor values are each assigned a unique HIV Risk Factor Code. The following table depicts the HIV Risk Factor codes for each HIV Risk Factor value.

HIV Risk Factor Code	HIV Risk Factor
1	Male to male sexual contact (MSM)
2	Injection drug use (IDU)
3	MSM and IDU
4	Heterosexual contact
5	Perinatal transmission
6	Other

HIVQM File Upload Validations

Field Name	Validation Rule Logic (Validation will fire when the condition is met)	Validation Type	Error Message Text on UI
File to Upload	If field is empty	Error	You did not select a file to upload. Please click "Browse" to select a file before clicking "Upload File."
File to Upload	If a file selected is not an CSV file	Error	Only file with .csv extension is allowed.
File to Upload	If file size is > 29 MB	Error	The file you uploaded is larger than 29 MB. Please upload a file smaller than 29 MB and complete the remaining data directly on the form.
File to Upload	If the file directory given in the path does not exist	Error	File directory does not exist; please enter a valid directory path.
File to Upload	If the column name is missing in the file	Error	The column name '<column name>' is missing from the data file.
File to Upload	If the file has wrong column name	Error	The column name '<column name>' is unknown for the data file.
File to Upload	If a column is repeated in the file	Error	Repeated columns found for '<column name>'. Please remove extra columns.
File to Upload	If field is empty	Error	You did not select a file to upload. Please click "Browse" to select a file before clicking "Upload File."
File to Upload	If a file selected is not an CSV file	Error	Only file with .csv extension is allowed.

Field Name	Validation Rule Logic (Validation will fire when the condition is met)	Validation Type	Error Message Text on UI
File to Upload	If file size is > 29 MB	Error	The file you uploaded is larger than 29 MB. Please upload a file smaller than 29 MB and complete the remaining data directly on the form.
File to Upload	If the file directory given in the path does not exist	Error	File directory does not exist; please enter a valid directory path.
File to Upload	File does not contain data	Error	File cannot be uploaded because it does not contain data.
File to Upload	File Status = Processed AND Total # errors encountered > 0	Error	File is processed with validation errors. Data will not be populated in the HIVQM forms until all errors are fixed.
Report End Date	Report End Date = blank OR an invalid date OR not matching Report Period End Date Open for Editing	Error	A valid date is required for Report End Date. Acceptable value(s): <comma separate list of report end dates open for editing, ex. 12/31/2018, 09/30/2018, 06/30/2018, 03/31/2018>
Report Start Date; Report End Date	Report Start Date and Report End Date do not correspond to the same report period	Error	Report Start Date and Report End Date do not belong to the same reporting period.
Provider ID	Provider ID <> Reg Code of the Provider in Provider Name field	Error	Provider ID is invalid.
Provider ID	Provider ID is blank	Error	Provider ID is required.
Measure ID	Measure ID is blank	Error	Measure ID is required.
Measure ID	Measure ID <> HIVQM Performance Measure ID	Error	Measure ID is invalid. Refer to the HIVQM field definition file for the list of Measurement Codes.
Measure ID	Duplicate Measure IDs are provided in the CSV file for the same Provider and Reporting Period	Error**	Measure ID is duplicate.
Report Creation Date	Report Creation Date > today's date OR an invalid date	Error	Report Creation Date must be prior to today's date.

** Please note, when there are duplicate Measure IDs populated all the records shall be errored out and displayed as a part of the validation results document.

Appendix B

HIVQM Data Validations

Field Name	Validation Rule Logic (Validation will fire when the condition is met)	Validation Type	Error Message Text on UI
Numerator, Denominator	Measure's Numerator = blank	Error	[Performance Measure]: A whole number greater than or equal to zero must be reported in the numerator field.
Records Reviewed	Measure's Records Reviewed ≤ 0 or blank	Error	[Performance Measure]: A whole number greater than zero must be reported in the records reviewed field.
Denominator	Measure's Denominator ≤ 0 or blank	Error	[Performance Measure]: A whole number greater than zero must be reported in the denominator field.
Numerator, Denominator	Measure's Numerator is greater than the Denominator	Error	[Performance Measure]: The Numerator must be less than or equal to the Denominator.
Records Reviewed, Denominator	Measure's Denominator is greater than the number of Records Reviewed	Error	[Performance Measure]: The Records Reviewed must be greater than or equal to the Denominator.
Records Reviewed, Provider Caseload	Measure's Records Reviewed $>$ Provider Caseload (in Provider Information page)	Error	[Performance Measure]: The Records Reviewed must be less than or equal to the Caseload.
Numerator, Denominator	Measure (except for Gap in Medical Visits)'s Numerator $<$ 20 percent of the Denominator	Alert	The numerator is less than 20 percent of the Denominator. Please check the values to make sure they are accurate.
