NATIONAL PARAMETER STREAMENT

Learning Objectives

At the conclusion of this activity, the participant will be able to:

- 1. Identify resources developed to support the implementation and replication of successful models of HIV care.
- 2. Describe three innovative models of care for addressing vulnerable populations disproportionately affected by HIV.
- 3. Discuss how these models have contributed to improved health outcomes for PLWH.

Translation and Replication of Innovative SPNS Models: Moving Vulnerable PLWH Along the HIV Care Continuum

Shelly Kowalczyk

PESG, HRSA, and LRG staff as well as planners and reviewers have no relevant financial or nonfinancial interest to disclose.

Commercial Support was not received for this activity.

Session Overview

- Brief overview of the Special Projects of National Significance (SPNS)
 Program and the Integrating HIV Innovative Practices (IHIP) Project
- Introduction to presenters
- Brief description of SPNS Initiatives of focus
- Overview of the 3 featured SPNS interventions
- Q&A/Facilitated discussion

SPNS Program

- HRSA's Ryan White HIV/AIDS Program (RWHAP) Part F
- Provides opportunities for the development, implementation, and assessment of system, community, and individual-level innovations designed to:
 - ▶ Meet the National Goals to End the HIV Epidemic
 - > Address the demands of **changing health care delivery systems**
 - Quickly respond to emerging needs of clients served by the RWHAP
- 69 current SPNS grant recipients
- Provides clinical and supportive services to over 9,000 individuals living with HIV
- Promotes dissemination and replication of successful SPNS models

IHIP Project

- Improves dissemination and replication of SPNS models through:
 - Development of training tools and resources
 - Promotion of effective strategies and lessons learned
 - Delivery of capacity building assistance
- Approaches to Capacity Building Assistance:
 - > IHIP e-newsletter
 - Peer-to-peer sharing of information
 - Knowledge exchange (with partners)
 - Presenting at conferences and meetings

Presenters

- Luis Freddy Molano, MD—VP of Infectious Disease & LGBTQ Programs,
 Community Healthcare Network (New York, NY)
 - Transgender Women Engagement and Entry to Care Project (T.W.E.E.T)
- Deborah Borne, MD, MSW—Medical Director, Transitions Division, San Francisco Department of Public Health (San Francisco, CA)
 - Homeless HIV Health, Outreach, and Mobile Engagement (HHOME)
- Joseph Garland, MD—Medical Director, Infectious Diseases/Immunology Center, The Miriam Hospital (Providence, RI)
 - Patient-Centered Care Model to Integrate Opiate Treatment and HIV Care

Featured SPNS Initiatives

- Enhancing Engagement and Retention in Quality HIV Care for Transgender Women of Color (2012-2017)
 - 9 demonstration sites funded to design, implement, and evaluate innovative interventions to successfully engage and retain in care transgender women of color at high-risk of or infected with HIV
- Building a Medical Home for Multiply Diagnosed HIV-Positive Homeless Populations (2012-2017)
 - 9 demonstration sites funded to design, implement and evaluate innovative interventions focused on the development of sustainable linkages to care for homeless or unstably housed PLWH with co-occurring mental illness and/or substance use disorders
- Innovative Methods for Integrating Buprenorphine Opioid Abuse Treatment in Primary Care (2004-2009)
 - ➤ 10 demonstration sites funded to integrate buprenorphine opioid abuse treatment into HIV primary care settings to improve health outcomes for PLWH with opioid dependency
