

INITIATIVE + INTEGRATION + INNOVATION = IMPACT

Karen L. Robinson
HIV Community Services Program Supervisor

INITIATIVE

End AIDS Washington

End AIDS Washington

- Strategic framework for Washington State's HIV programs
- Investments required by multiple systems

Integrated Plan

- Investment by the Department of Health's (DOH) and the Seattle TGA's HIV Prevention and Care Service Delivery System

Washington's Integrated Plan and End AIDS Washington share five goals and twelve strategies

Goals

- Reduce new HIV Diagnosis by 50%
- Increase Viral Suppression to 80%
- Reduce HIV-related Mortality by 25%
- Reduce HIV Health Disparities
- Improve Quality of Life

Strategies

- Reduce stigma
- Community mobilization of persons living with HIV (PLWH) and persons at high risk (PAHR) in Black and Hispanic communities
- Implement routine HIV screening
- Increase access to transmission barriers including PrEP and condoms
- Improve healthcare for sexual Minorities
- Improve prevention and care for substance users
- Reduce insurance barriers for PLWH & PAHR
- Increase housing options for PLWH
- Increase PLWH & PAHR engaged in comprehensive healthcare
- Improve sexual health education
- Community engagement of PAHR & PLWH communities
- Data to care

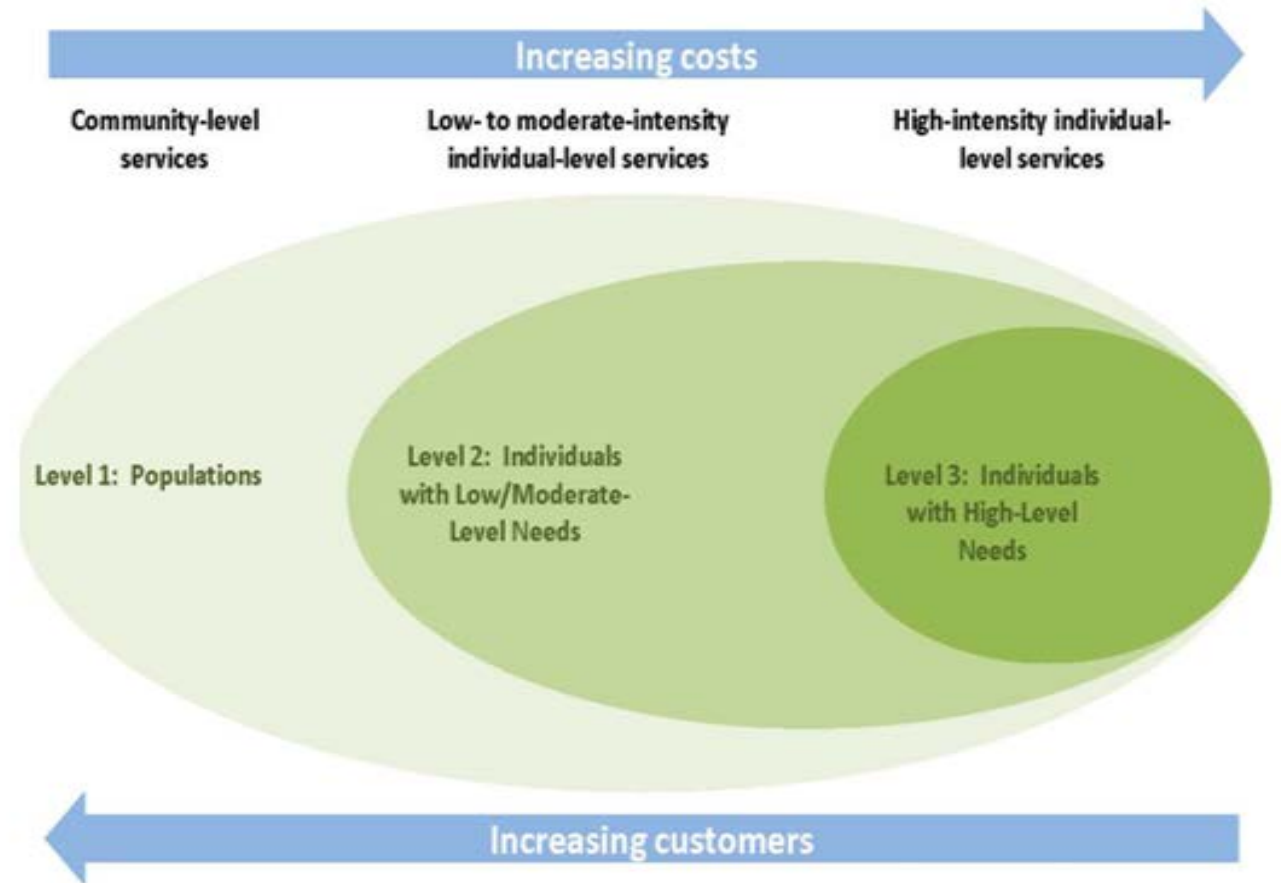

INTEGRATION

Why Integrate?

Three Primary Reasons to Integrate HIV Care and Prevention Funding:

1. Client engagement
2. Economies of scale
3. Alignment of services and systems

Collapsing Silos

Guidelines

Service categories

Service standards

Data collection

Local coordination

Statewide coordination

Community engagement

INNOVATION

Integrated Funding = New Projects

- Dental services
- Mental health services
- Housing services
- MAX clinic Pierce County
- MAX clinic King County
- Latinx health disparities
- Early intervention services for Persons Living with HIV (PLWH)
