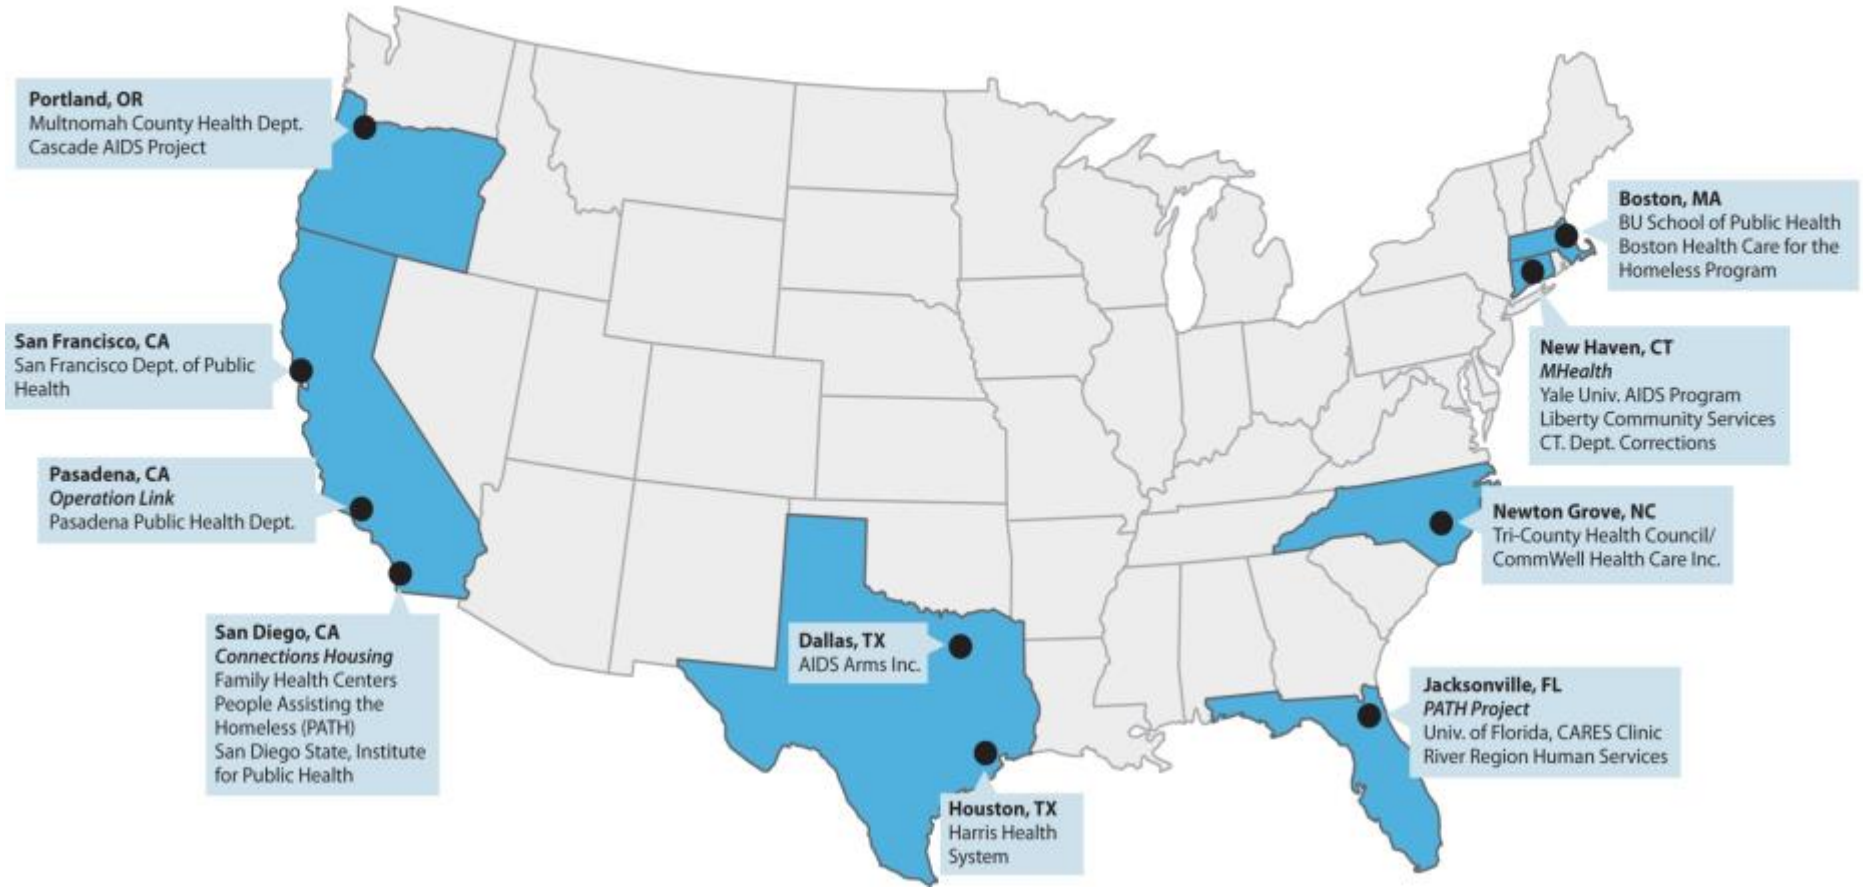
NATIONAL 2016 RYAN WHITE CONFERENCE ON HIV CARE & TREATMENT

Building a Medical Home for multiply diagnosed HIV homeless/unstably housed populations

HRSA, HIV/AIDS Bureau, Special Projects of National Significance

HRSA/SPNS Initiative: Building a Medical Home for HIV Homeless Populations



Goal: To engage homeless/unstably housed persons living with HIV who have mental illness and/or substance use disorders in HIV and behavioral health care and obtain stable housing

Learning Objectives

At the conclusion of this activity, the participant will be able to:

1) Describe the complex needs of people living with HIV who experience homelessness or are unstably housed

2) Develop strategies to build staff skills and create external partnerships to facilitate care and services.

3) Create strategies, resources, and tools to provide integrated care to people who are multiply diagnosed and homeless/unstably housed.

4) Identify approaches to use Ryan White funding, create partnerships with housing, behavioral health care and other community agencies, and generate other resources that can sustain medial homes and housing for persons living with HIV who are homeless/unstably housed.

Providing care to people who are homeless/unstably housed: Barriers & Facilitators to achieving the National AIDS Strategy goals

Workshop 101

Serena Rajabiun, Boston University School of Public Health
Lisa McKeithan, SPNS Program Manager, CommWell Health
Deborah Borne, San Francisco Department of Public Health
Luis Moreno, AIDS Arms Inc

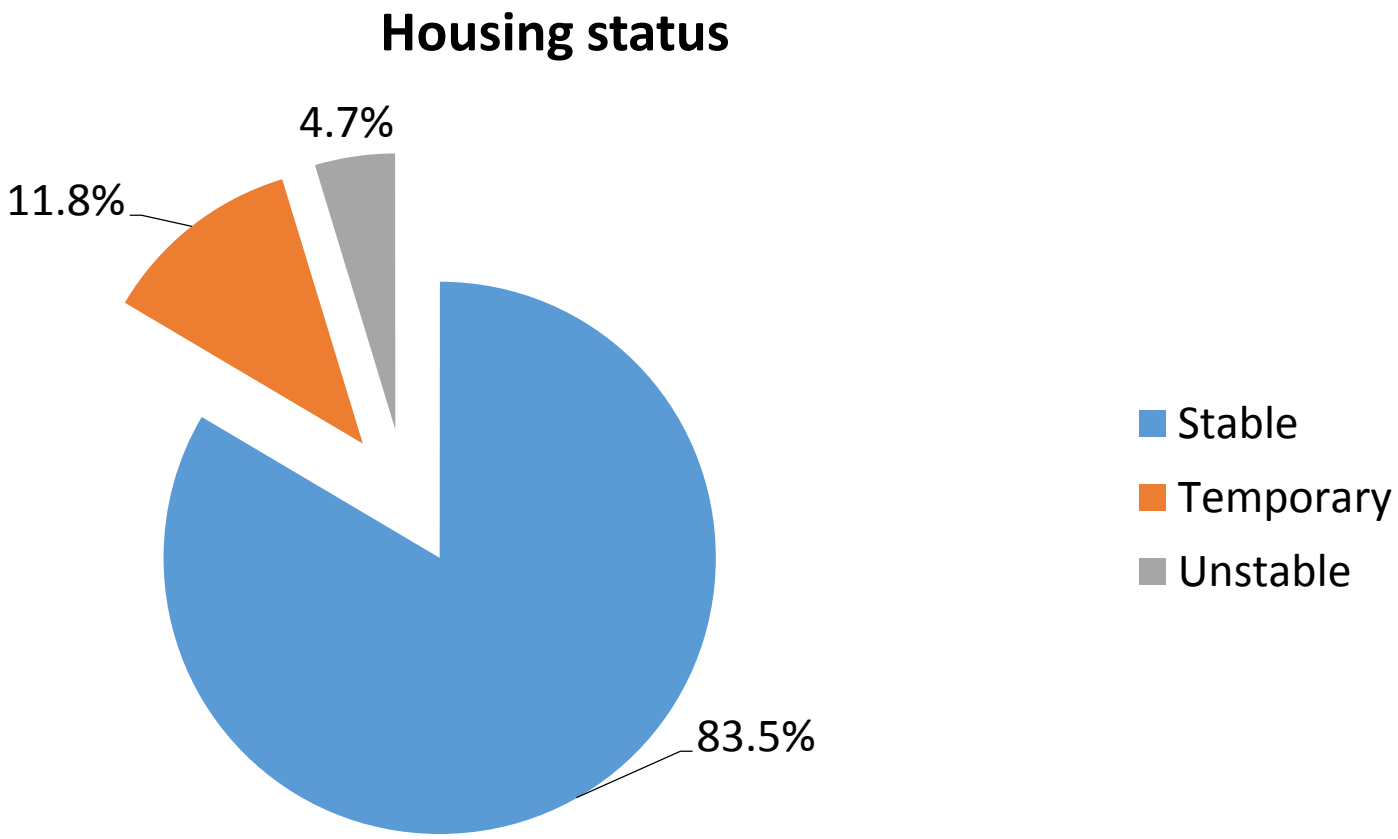
Learning Objectives

At the conclusion of this activity, the participant will be able to:

1) Describe the complex needs of people living with HIV who experience homelessness or are unstably housed

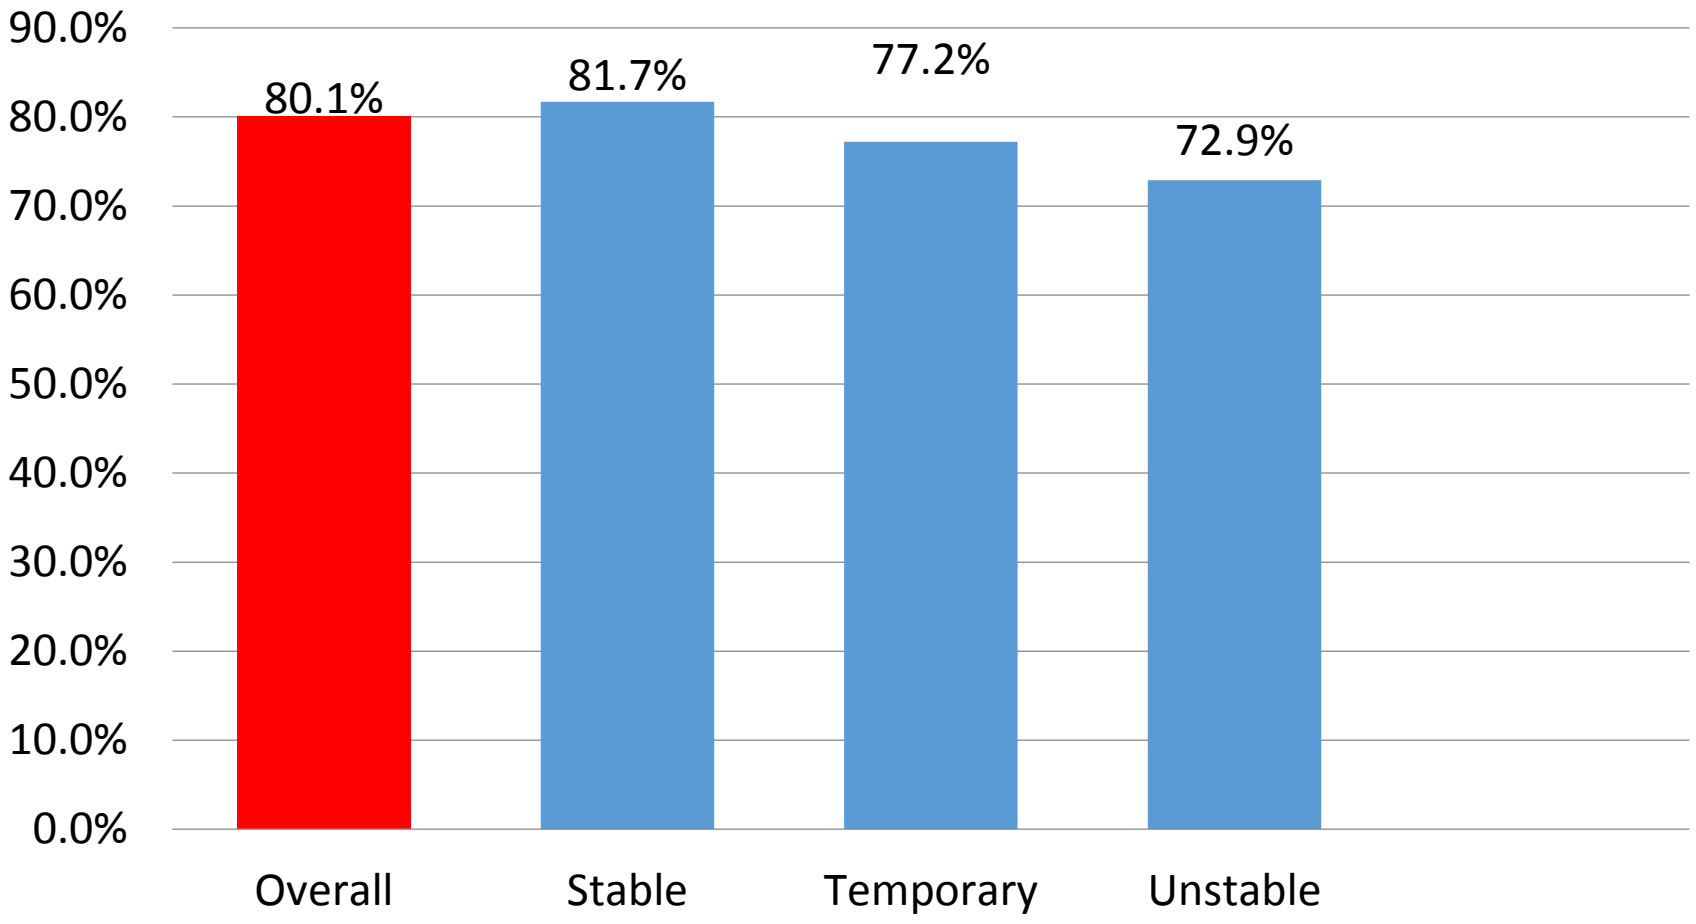
2) Create strategies to address the challenges at the patient, provider and system levels

Housing stability among RWAP clients



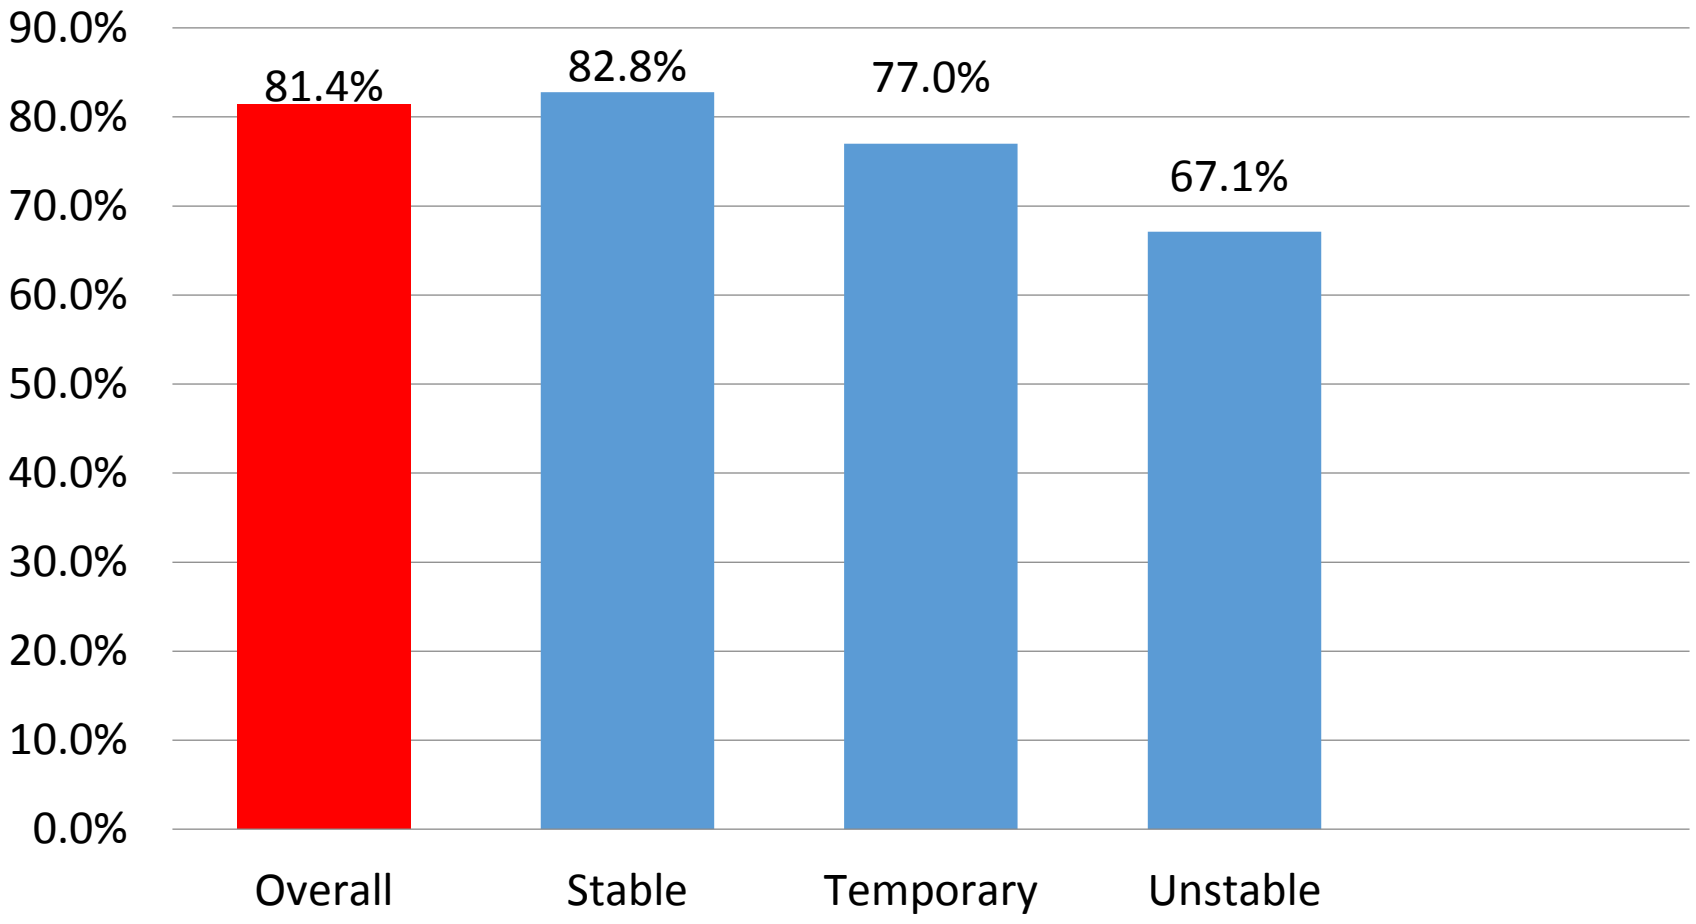
https://www.careacttarget.org/library/2014-rwhap-annual-client-level-data-report

Housing stability & Retention in care



https://www.careacttarget.org/library/2014-rwhap-annual-client-level-data-report

Housing stability & Viral suppression

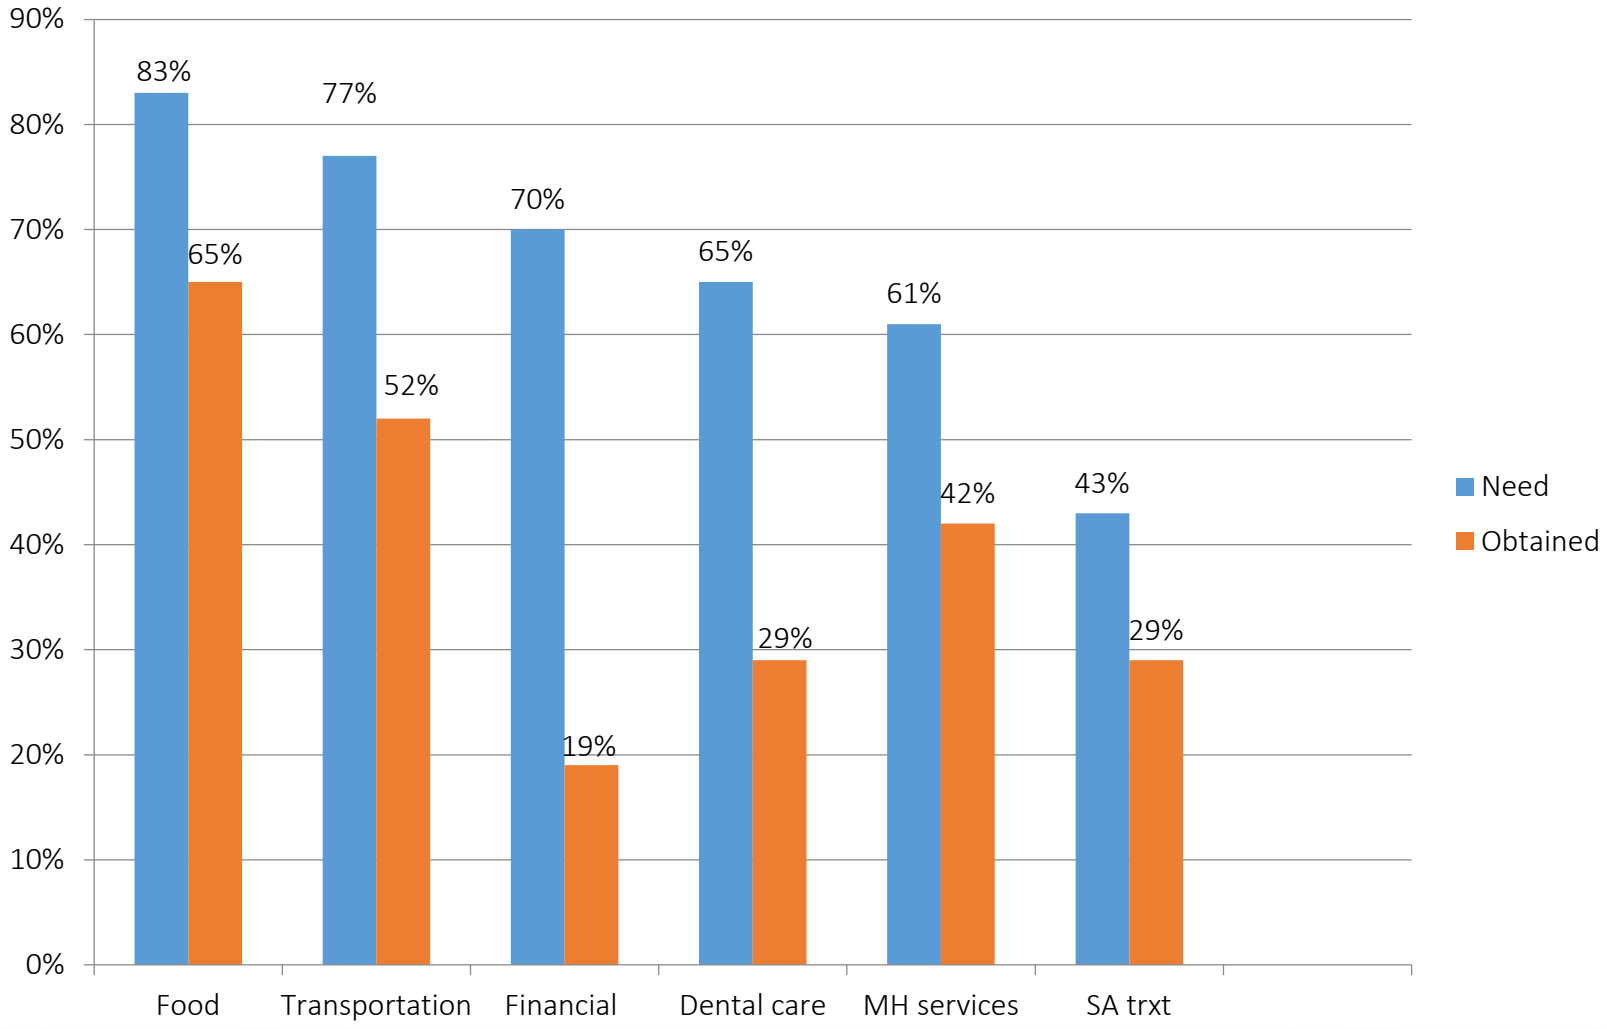


https://www.careacttarget.org/library/2014-rwhap-annual-client-level-data-report

Definition of Homelessness

- **Literally homeless**
  - Lacks a fixed, regular, and adequate nighttime residence
- **Unstably housed**
  - No lease, ownership interest or occupancy agreement in permanent and stable housing) in the last 60 days; or
  - Persistent housing instability as measured by two moves or more in the preceding 60 days; and
  - Expected to continue as such for an extended period of time.
- **Fleeing domestic violence**
  - Fleeing or attempting to flee domestic violence, has no other residence and lacks the resources to obtain permanent housing.

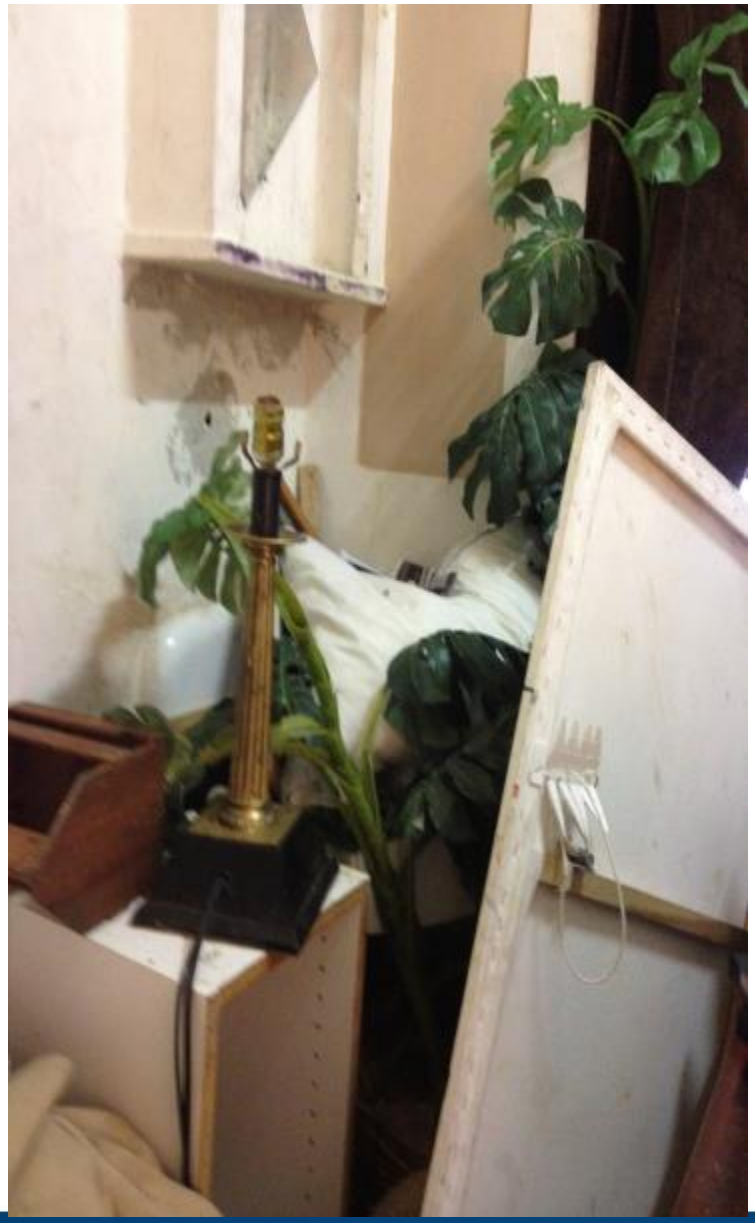
Service Gaps (n=909)
Number of unmet needs= 4



Barriers to care (n=909)

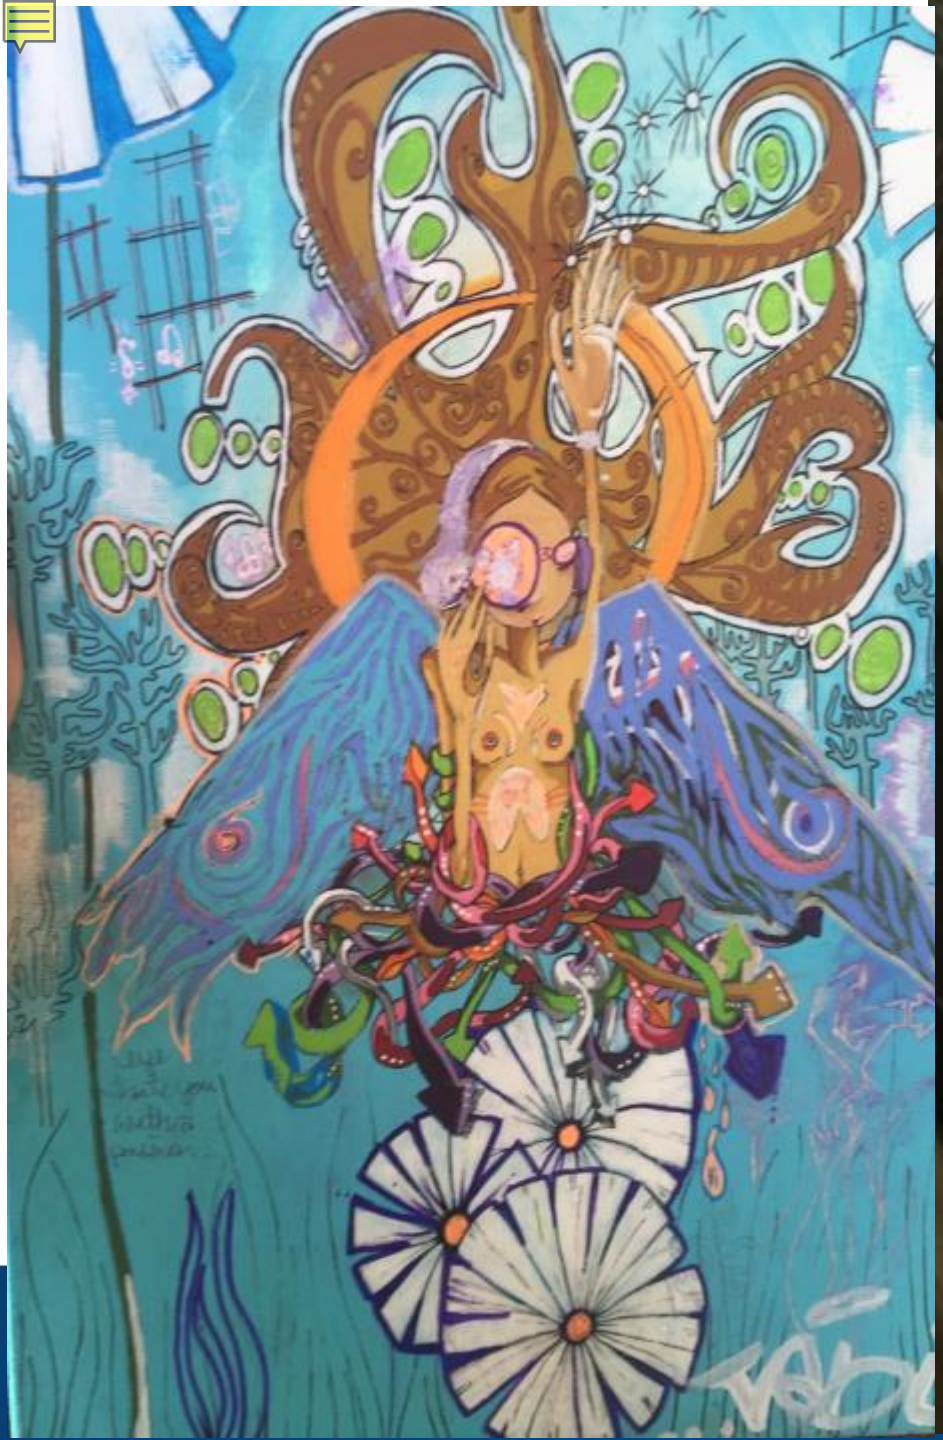
	%
No transportation to get to care	37%
Too depressed	36%
Did not want to go	31%
Not like to make appts too far in advance	27%
Could not pay for medical care	25%
Too sick	23%
Not sure where to go	22%
Number of reported barriers (average)	**3**

Barriers to care experienced by Persons living with HIV who are homeless/unstably housed



Challenges to Engagement and Retention

Trauma: Homelessness and Sanctuary Trauma



DO NOT DISTU

Client Voices

Will get recording from Janel

Housing instability in Rural areas

- Homelessness
- Unstably Housed

Barriers to Retention in HIV Care in Rural Communities

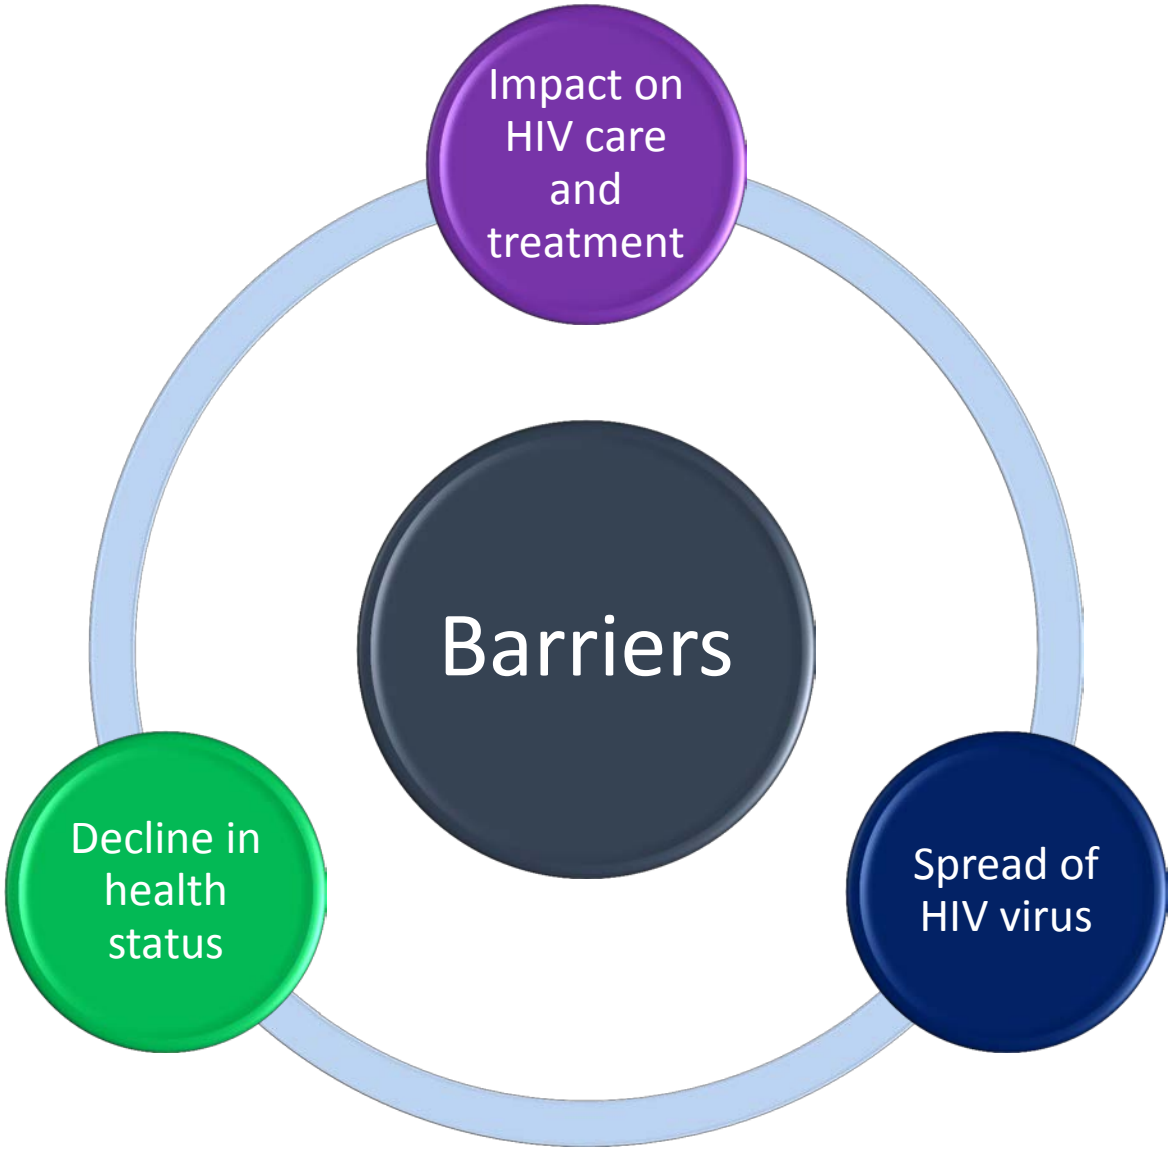
- Housing instability
- Transportation needs
- Substance abuse
- Mental health
- Provider discrimination
- Stigma
- Lack of financial resources
- High no-show rates
- Lost to care and out-of-care

Homeless PLWH – Needs

- Trauma history and persistence
- Substance use or abuse specifically Meth
- Mental Illness
- Multiple co-morbidities, physical disabilities and unaddressed health and other conditions/concerns
- Resistance to engaging in care and treatment

Homeless PLWH – Barriers

- Lack of trust
- Difficulty maintaining contact
- Hunger and dehydration
- Lack of identification/documentation
- Lack of transportation
- Poor or no access to sanitation resources
- Extremes in temperature



Impact on HIV care and treatment
Barriers
Decline in health status
Spread of HIV virus

Challenges from the system to house and get people into HIV care and treatment

Challenges: System

- Not Enough Stabilization or Supportive Housing
- Lack of Trauma Informed Programs and Providers.
- Communication between hospital–hospital and hospital-community
- Not enough medical CM programs to ‘step down’ to.
- Data Issues: Different Data Systems
- Political environment constantly changing

System Challenges in rural areas

- Transportation
- MH/SA treatment
- Limited resources- housing units, transitional housing
- Services for homeless but not HIV+
- Red tape- background checks, drug screens
- Funding (Cost for emergency shelters)
- Duplication of services
- Few Housing Providers
- Lack of permanent, affordable housing
- Fragmented system
- Poor coordination of services

Serving Homeless PLWH – Systems Challenges

Inadequate:

- Available housing
- Adoption of housing first model
- Availability of providers with sufficient knowledge and understanding regarding needs of homeless individuals
- Availability of public transportation

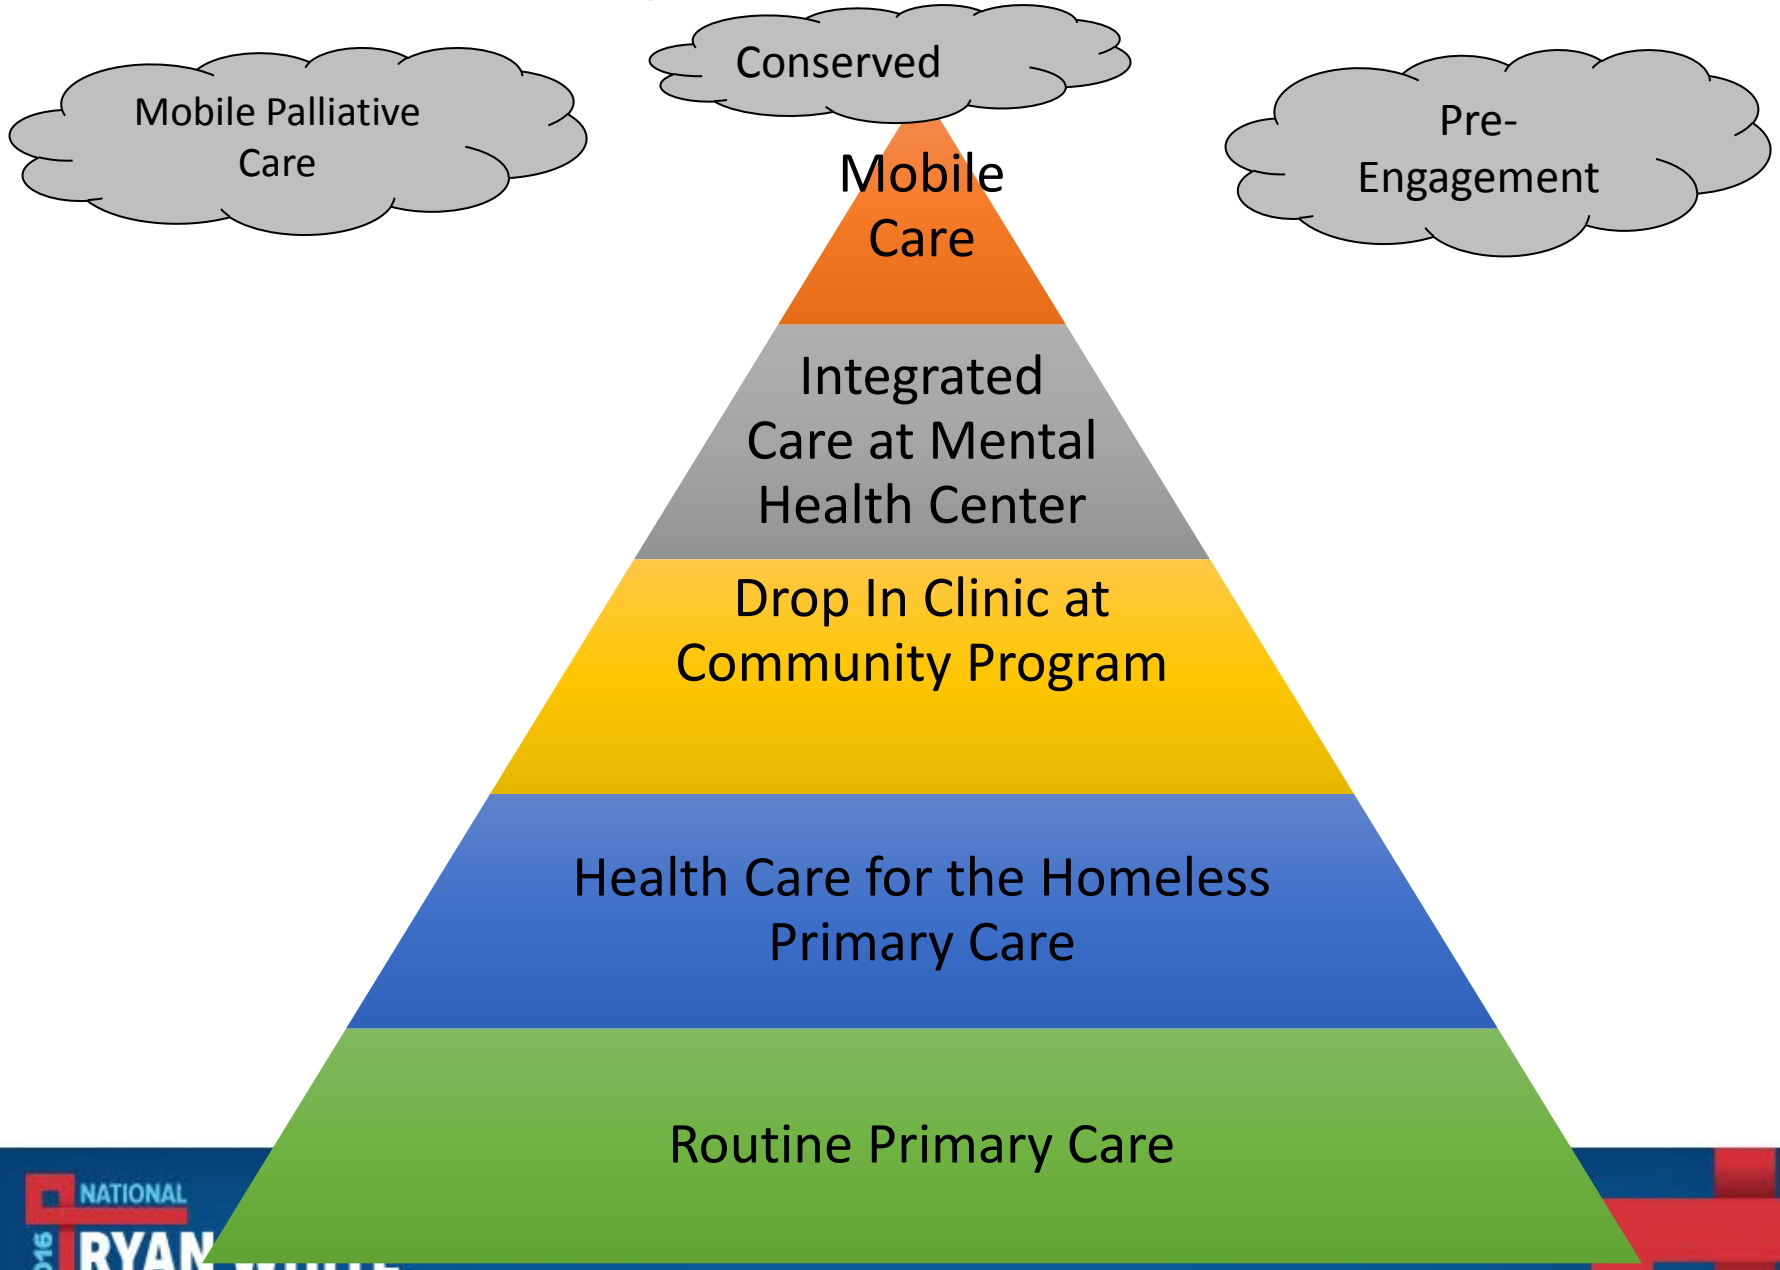
Strategies and approaches to providing care and addressing barriers

Essentials Of Homeless HIV Health Care

Essential Services for Homeless & Marginally Housed HIV + Individuals

Team Based Primary Medical Care	Medical Case Management:	Office Based RN Care Coordination and Adherence
Integrated Behavioral Health Treatment	Addiction Medicine: Office Based Opiate Treatment	Shelter Health and Wellness
Dental Care	Housing: Stabilization and Permanent Supportive	Respite Care
Benefits Acquisition	HIV Prevention: LINCS coordination *'for Lost Clients'*	Quality Improvement: Chronic Disease Management

Levels Of Primary Care for HIV Positive Homeless Clients



Acuity and Chronicity Assessment

Mobile Medical

Case Management

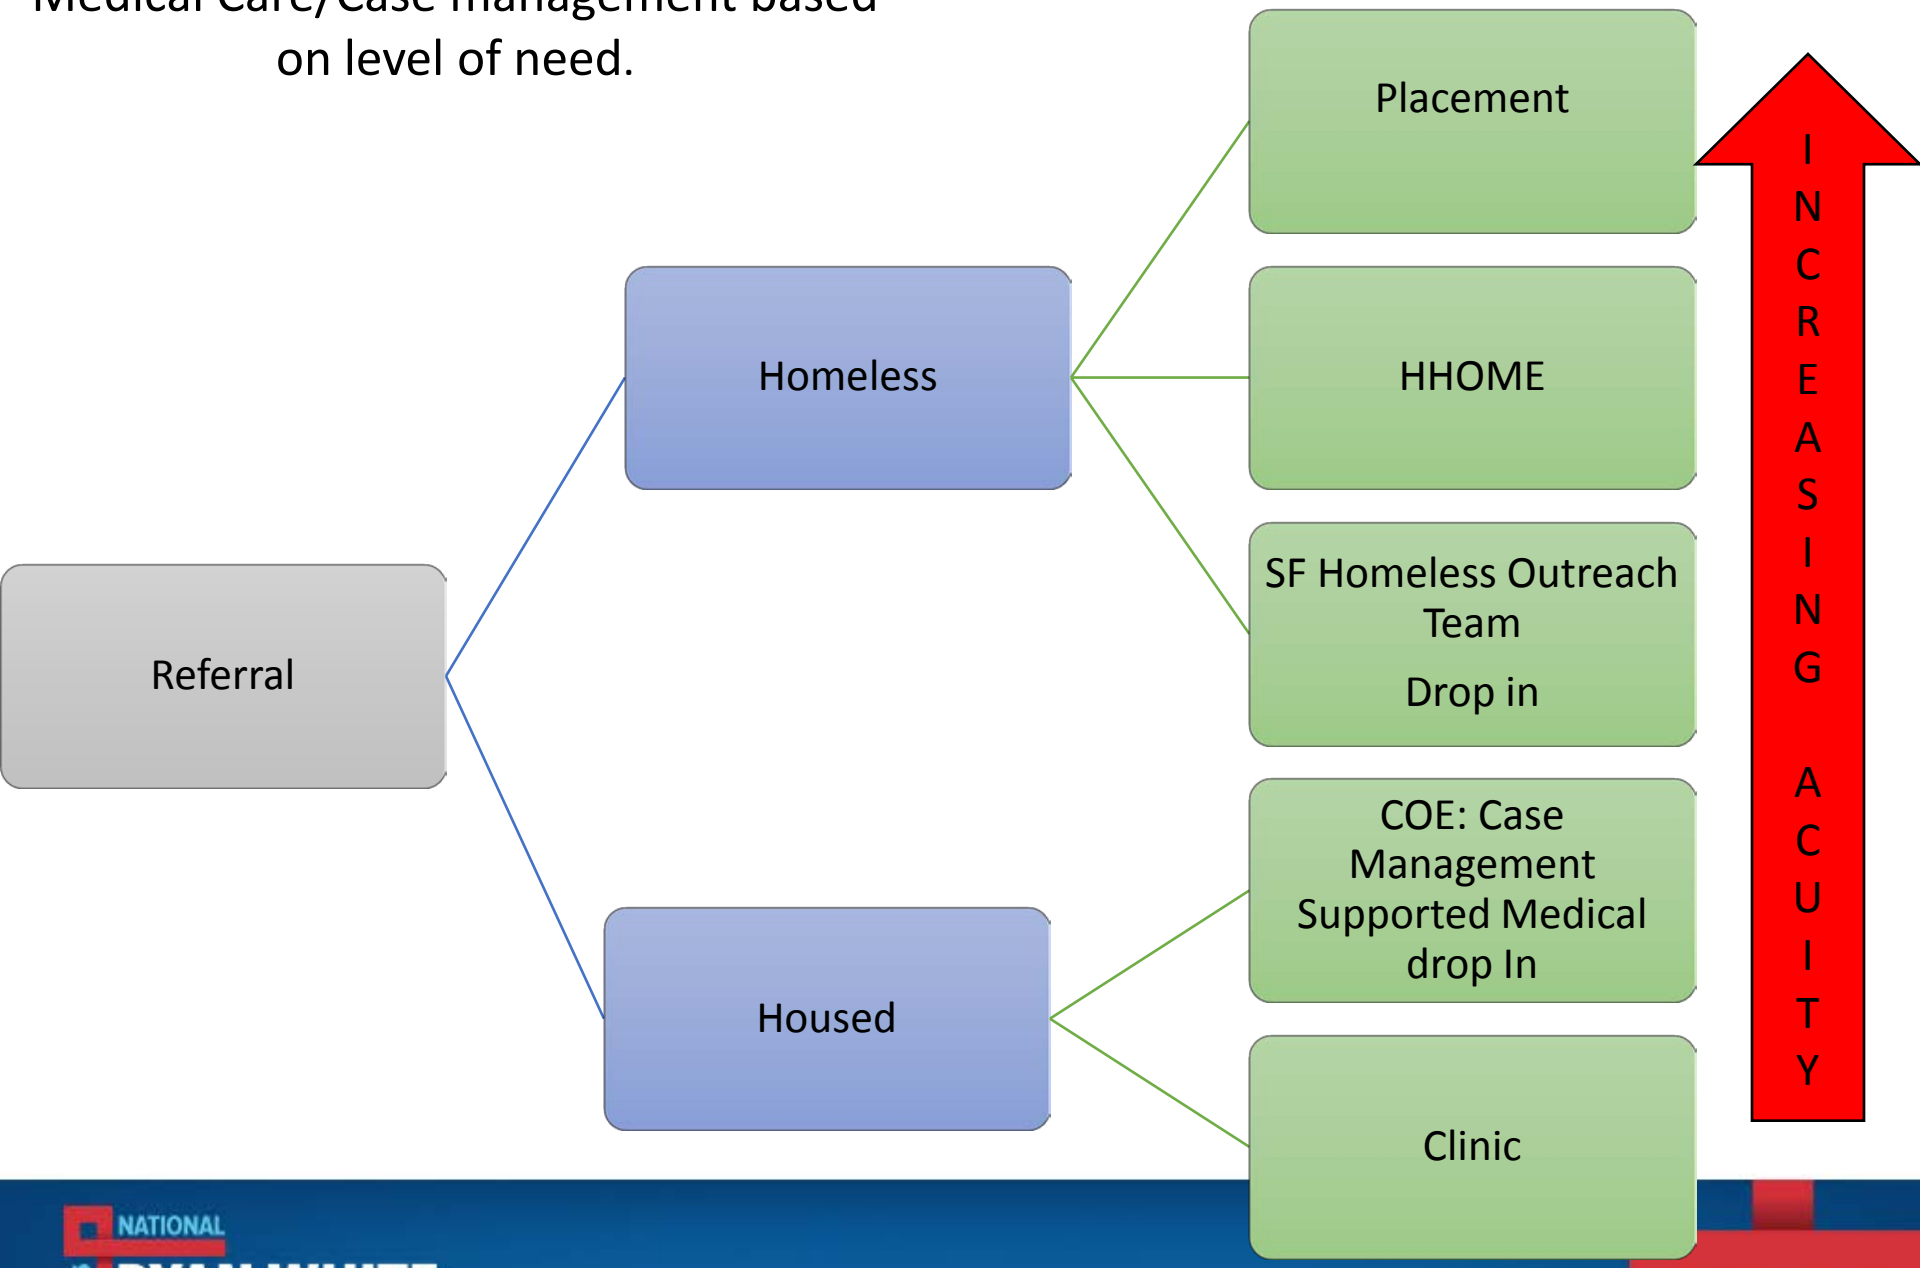
HOUSING

HHOME TEAM

Behavioral Health

Navigation

Medical Care/Case management based on level of need.



How is Homeless Care Different from 'Typical' Ryan White Service

- Providers must work with a team
- Care:
  - Trauma Informed
  - Client Centered
  - Strengths based
  - Harm Reduction
  - Recovery Model
  - System Supported
- Medical Advocacy

NC REACH:
SPNS Program at CWH

- Innovation
  - Build and maintain sustainable linkages to mental health, substance abuse treatment, and HIV/AIDS primary care services that meet the complex service needs and ensure adherence to treatment of HIV positive homeless or unstably housed individuals.
    - Network navigators
    - Behavioral health
    - Housing services
    - comprehensive care coordination team (Positive Life Program)

Role of the Network Navigator

- Connecting to community housing and other support services
- Participates in the multidisciplinary clinical team
- Providing supportive services to clients to maintain housing and reduce risky behaviors
- Making relevant supportive programs available for clients
- Serve as a liaison between the client and the landlords

Health Hope and Recovery – Program Model

Care Coordination provided by three full-time experienced social workers. It includes:

- Use of motivational interviewing and strengths based counseling to engage clients in identifying goals related to housing, medical care, mental health and/or substance use treatment.
- Frequent meetings with clients to address barriers to accomplishing goals.
- Significant collaboration with medical providers, pharmaceutical assistance programs, housing resources and others to connect clients with critical resources.

Health Hope and Recovery – Program Model

Also includes:

- Providing supportive services to clients to maintain housing and reduce risky behaviors.
- Making relevant supportive programs available for clients such as the HIVE, WRAP groups, etc.
- Providing ongoing advocacy on behalf of clients.
- Ensuring that clients are receiving appropriate and respectful care.
- Enabling clients to build resiliency.

System approaches

INTEGRATED MOBILE CARE: SPNS/HHOME Pulled System Gaps Together

Mobile Medical Case Management

Mobile RN Care Coordination and Adherence

Mobile Integrated Primary Medical Care

Timely Access to Medical Shelter, Stabilization Room and Respite

City Wide Evaluation for Level of Care for Clients

Coordination of community partners and services available to clients

Access to all city Supportive Housing (outside of DPH)

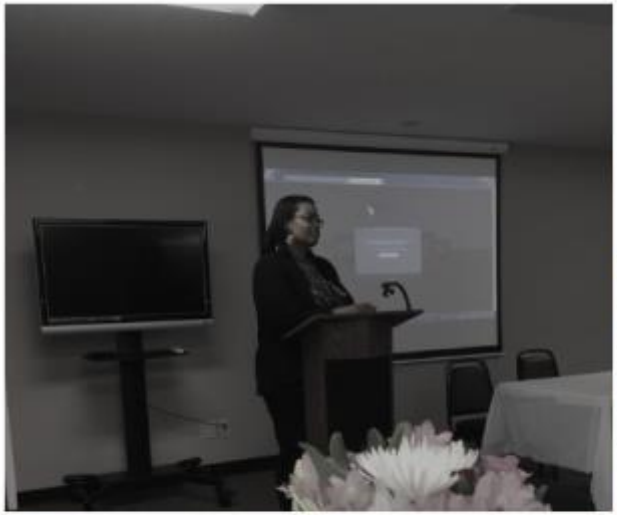
Integrated Patient HIV Registry

Fully Utilize Peer Navigators as part of care team

Community Housing Coalition

- Forum for local housing providers
- Quarterly meetings
- Development of shared goals and objectives
- Venue to share resources
- 2-way street: connecting clients to housing and medical

Community Housing Coalition



Community Outreach

Health Hope and Recovery Strategies

AIDS Arms has made concerted efforts to:

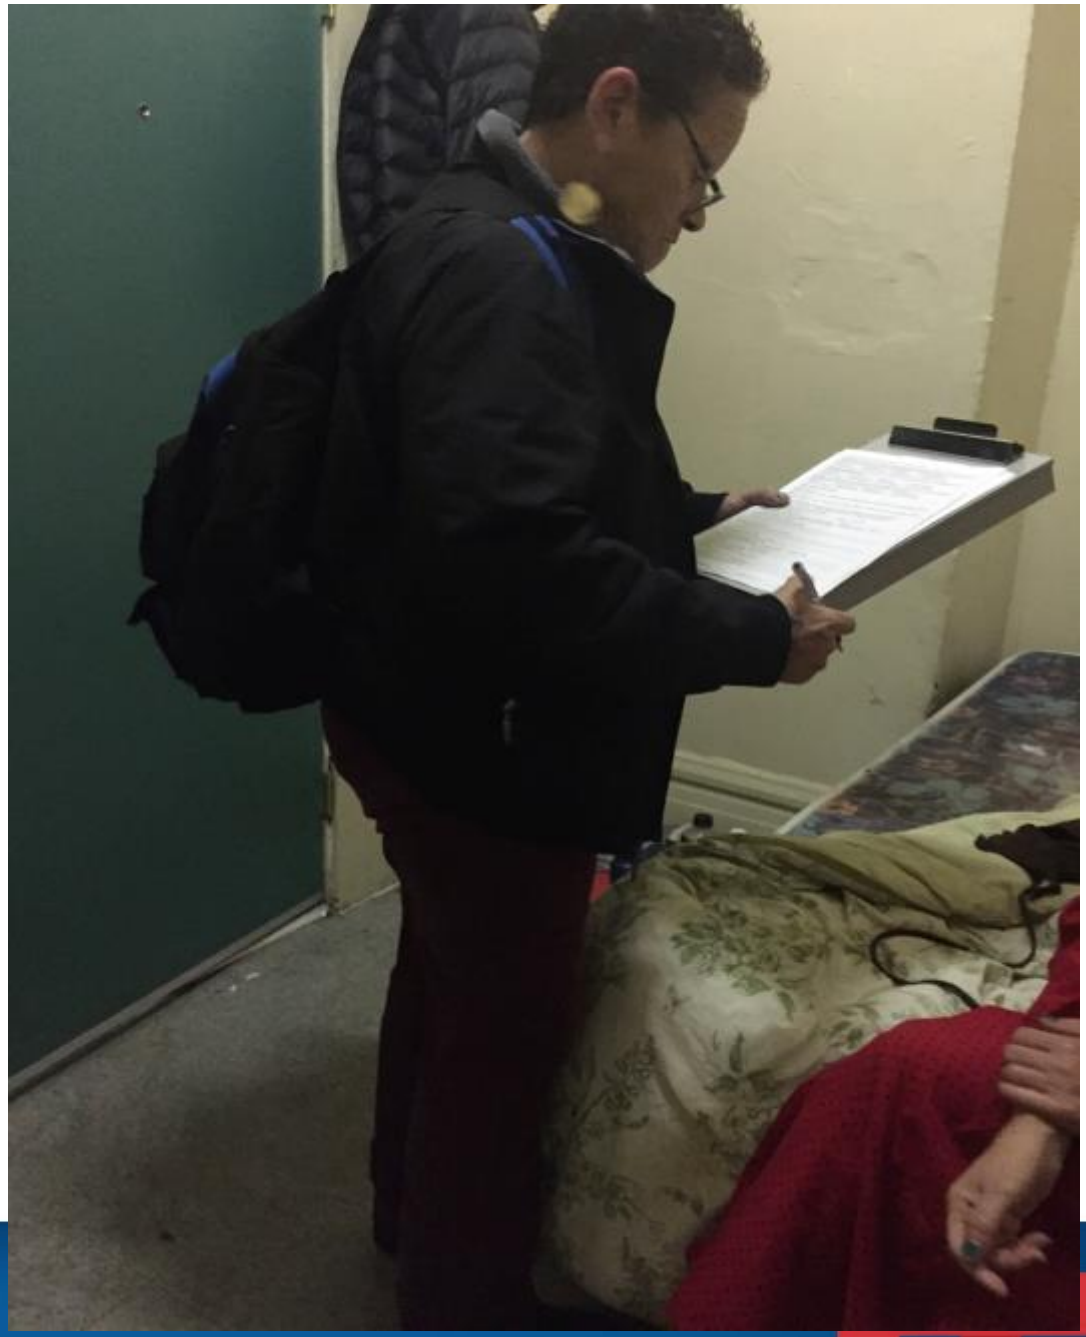
- Improve communication with providers serving the homeless clientele in order to ensure that appropriate, adequate care
- Refine and strengthen internal procedures and protocols regarding serving the homeless population
- Inform providers about client needs
- Educate internal and external providers about trauma informed care
- Promote the use of the Housing First model

Tools/Resources

What Works: Tools

"Never Give up Never Surrender"

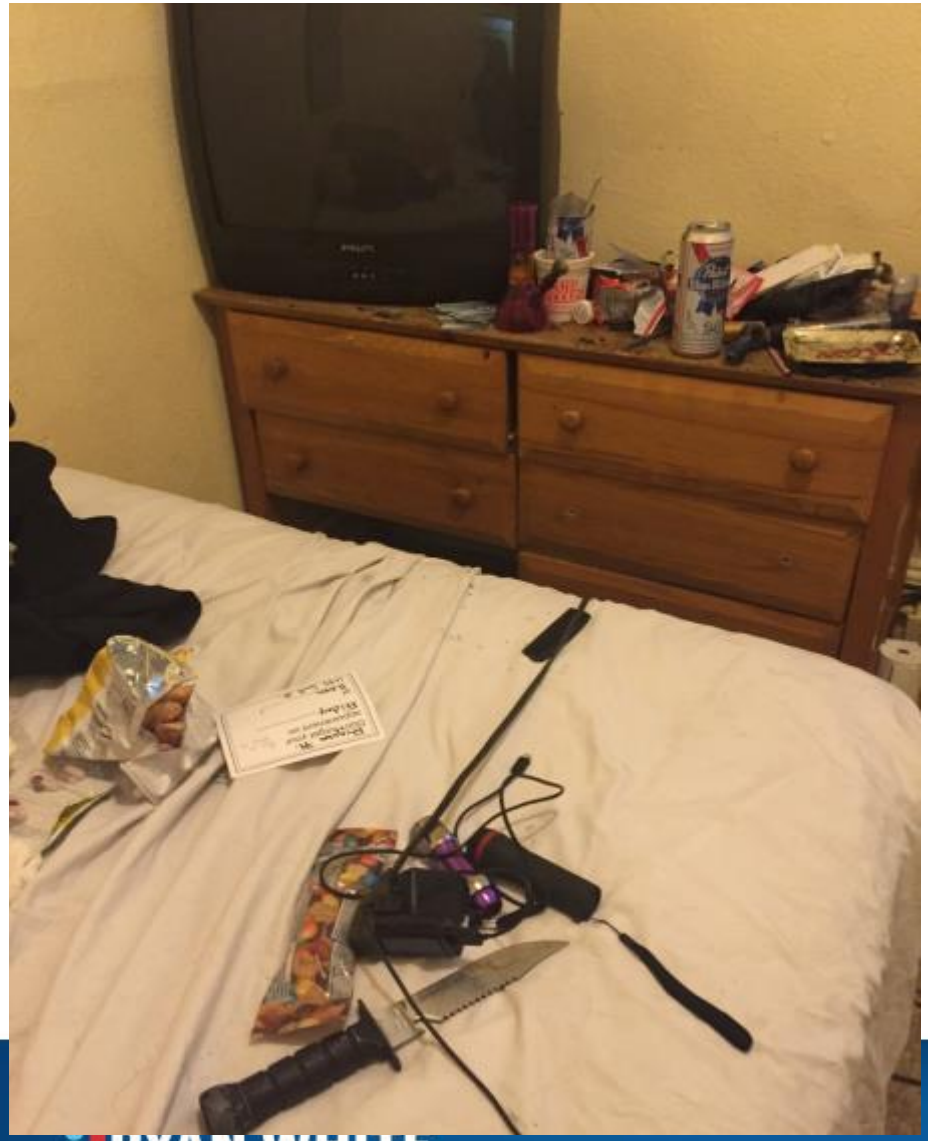
- *Siotha King-Thomas*



Our Approaches

CREATIVE APPROACHES TO ADHERENCE

Peer Navigation



"Its not going to work if you're doing more for the client then they are doing for themselves" – *Jason Dow*

What Works

- Team Communication
- Flexible Treatment plans
- Cross training of team
- Starting treatment

  anywhere, anytime
- Insist on the Best Quality of Care
- Community Pharmacy
- Courage of consumer and team

Consumer Sets the Treatment Plan

Tools and Resources

AIDS Arms has worked toward making the following resources available for Health Hope and Recovery clients:

- Emergency housing
- Cell phones
- Monetary assistance for document replacement
- Safe storage of key documents
- Basic resources for survival
- Acceptance of client mail

Program Changes & Next Steps

Program Enhancements at AIDS Arms

- Subscription to HMIS
- Availability of pre-packaged food and water for clients
- Transportation assistance
- Cooling stations
- Mail acceptance
- Care coordination follows the client
- Ensuring warm hand-off to facilitate transition to 'standard of care’
- Increased staff education regarding how best to serve clients who are homeless

Ongoing Gaps

- Inadequate options for clients who have acute medical needs
- Hospitals discharging clients with ongoing medical needs to the street without necessary support
- Inconsistency regarding eligibility determination for permanent housing
- Staff turnover at service providers

Success

- Several participants are stably housed due to partnerships made through the **Community Housing Coalition**

Health Hope & Recovery Client Story

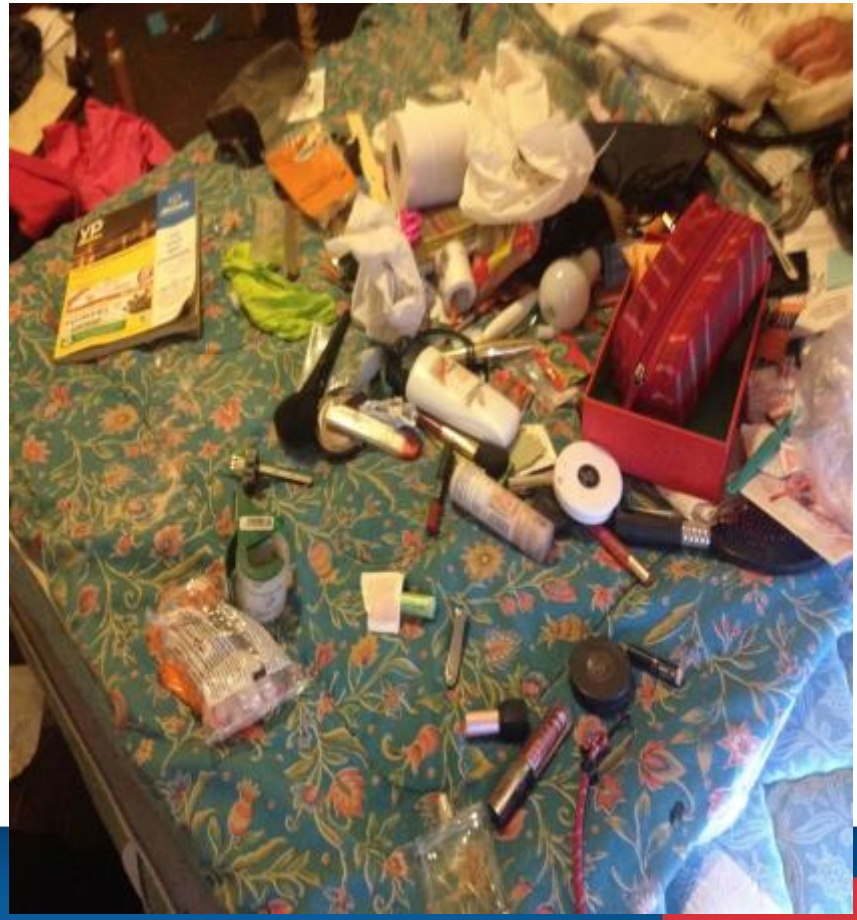
Video Link:
https://drive.google.com/open?id=0B9kKzN00i7KBaXNHODVZSnZCbVk

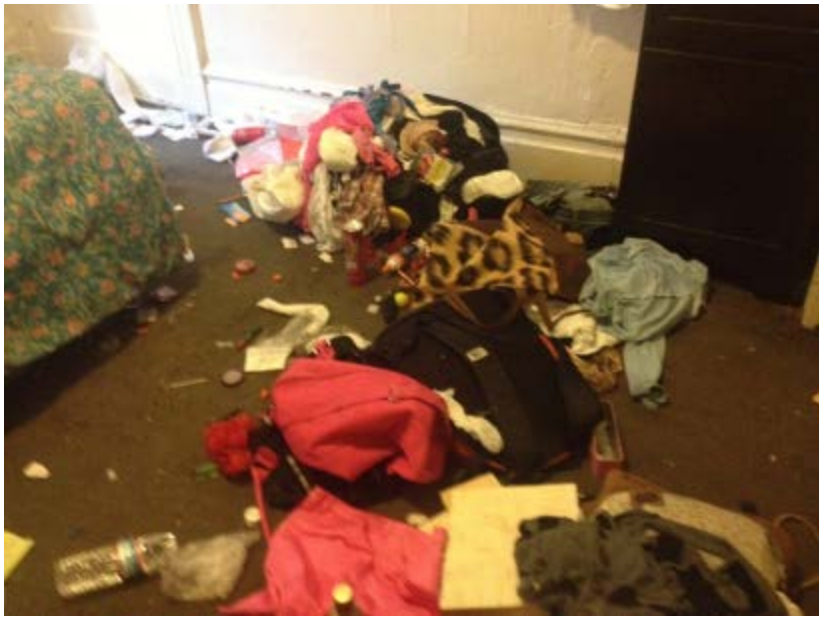
Humans Are Amazing

WHAT IT LOOKS LIKE

IN the BEGINNING

Clients struggle with organization and being indoors





Never Give up on Anyone

WHAT IT CAN LOOK LIKE

It can take many weeks to many months for clients to adjust and then thrive indoors
