

# **Partnerships for Care (P4C): Data to Care Approaches through Primary Care-Public Health Partnerships**

**Andrew Margolis** (for the P4C federal team)

*CAPT, U.S. Public Health Service*

*Centers for Disease Control and Prevention*

*Division of HIV/AIDS Prevention*

# Health Centers

## Federal

CDC, Division of HIV/AIDS Prevention  
HRSA, Bureau of Primary Health Care  
HRSA, HIV/AIDS Bureau  
HHS/Office of HIV/AIDS and Infectious  
Disease Policy

## Florida

Florida State Department of Health  
Care Resource  
Community Health South Florida, Inc.  
Genesis Community Health, Inc.  
Health Care Center for the Homeless, Inc.  
I.M. Sulzbacher Center for the Homeless  
Health Choice Network (HCCN)

## Maryland

Maryland State Department of Health and  
Mental Hygiene  
Community Clinic, Inc.  
Family Health Centers of Baltimore  
Health Care for the Homeless, Inc.  
Park West Health Systems Incorporated

## Massachusetts

Massachusetts Department of Public Health  
Codman Square Health Center, Inc.  
Healthfirst Family Care Center, Inc. \ SSTAR  
Lowell Community Health Center, Inc.  
Mattapan Community Health Center, Inc.  
North Shore Community Health Center, Inc.  
Whittier Street Health Center  
Massachusetts League of Community Health Centers

## New York

New York State Department of Health  
New York City Department of Health and Mental Hygiene  
Anthony L Jordan Health Corp  
Bedford Stuyvesant Family Health Center, Inc.  
Betances Health Center  
Community Health Center of Buffalo, Inc.  
Cornerstone Family Healthcare  
Damian Family Care Centers, Inc.

## Training and Technical Assistance Contractor

MayaTech Corporation

# Disclosures

Presenters have no financial interest to disclose.

This continuing education activity is managed and accredited by Professional Education Services Group in cooperation with HSRA and LRG. PESG, HSRA, LRG and all accrediting organization do not support or endorse any product or service mentioned in this activity.

PESG, HRSA, and LRG staff has no financial interest to disclose.

# Learning Objectives

At the conclusion of this activity, the participant will be able to:

1. Increase **understanding** of the **Data to Care** strategy and its utilization by CDC-funded health departments and HRSA-funded health centers.
2. Understand **opportunities and challenges** in **Data to Care** implementation.
3. Discuss the **benefits of primary care-public health partnerships** for improving outcomes across the HIV Care Continuum.

# Obtaining CME/CE Credit

If you would like to receive continuing education credit for this activity, please visit:

# Panel Overview

- ❑ Federal project overview (10 minutes)
- ❑ Grantee presentations (70 minutes)
- ❑ Questions & discussion (10 minutes)

## For additional information

<http://www.p4chivtac.com>

# Federal Coordination and Funding

- ❑ Multi-agency three-year project coordinated jointly at federal level
  - ❑ CDC/Division of HIV/AIDS Prevention (DHAP)
  - ❑ HRSA/Bureau of Primary Health Care (BPHC)
- ❑ Other key federal partners
  - ❑ HHS/Office of HIV/AIDS and Infectious Disease Policy (OHAIDP)
  - ❑ HRSA/HIV/AIDS Bureau (HAB)
- ❑ Funded by the Secretary's Minority AIDS Initiative Fund (SMAIF) & the Affordable Care Act

# Overarching Goals

- ❑ Strengthen partnerships
  - ❑ State departments of health
  - ❑ Community health centers
  
- ❑ Identify promising new models for HIV service delivery
  - ❑ Improve identification of undiagnosed HIV infection
  - ❑ Establish new access points for care and treatment by integrating HIV services in primary care at health centers
  - ❑ Enhance the use of data for public health follow-up
  - ❑ Improve HIV outcomes along continuum of care, especially among racial/ethnic minority persons

# Three Funding Mechanisms

## ❑ CDC/DHAP

- Supporting **4** state health departments (“HDs”)
  - Each HD identified up to 6 health center partners

## ❑ HRSA/BPHC

- Supplemental funding to **22** health center (“HCs”) grantees
  - Each with multiple service sites (86 total)
- Supporting **1** contract for an HIV training and technical assistance collaboration center (“HIV TAC”)

## ❑ Funding initiated FY14

- HDs in July 2014
- HCs & HIV TAC in September & December 2014

# Grantee Eligibility

## ❑ Health Departments

- Burden of HIV: >5,000 HIV cases among African Americans and Latinos
- Laboratory reporting: viral load and CD4 data at all levels
- Not receiving CAPUS funding

## ❑ Health Centers

- Receive 330 Health Center Program Funds
- Do not receive Ryan White HIV/AIDS Part C Program funding
- Utilize an EHR system
- At least 30% of patients representing racial/ethnic minority groups
- Formal partnership agreement with a funded HD

# P4C Grantees

## Florida State Department of Health

- 6 health centers in Jacksonville, Orlando, West Palm Beach, Fort Lauderdale & Miami

## Maryland State Department of Health & Mental Hygiene

- 4 health centers in Baltimore City, Prince George's & Montgomery Counties

## Massachusetts Department of Public Health

- 6 health centers in Boston, Fall River, Lowell, and Salem

## New York State Department of Health

- 6 health centers in New York City, Hudson Valley area, Rochester and Buffalo

# Health Department Activities

**Data Use** - Use HIV surveillance & health center patient data to improve health outcomes for PLWH (e.g., Data to Care and “case conferencing”)

**Field Work** - Expand partner services, linkage, retention, and re-engagement with care services for PLWH

**Training/TA** - Support training & TA activities for health centers to expand HIV testing, care & treatment, and prevention services for PLWH

# Health Center Activities

**Service Delivery** – Provide routine HIV testing, basic HIV care, prevention services for PLWH, referrals, enabling services

**Workforce Development** – Establish and train multi-disciplinary HIV care team, train clinicians, staff and board

**Infrastructure Enhancements** – EHRs, 3<sup>rd</sup> party billing capabilities, develop and update formal referral agreements, care protocols, etc.

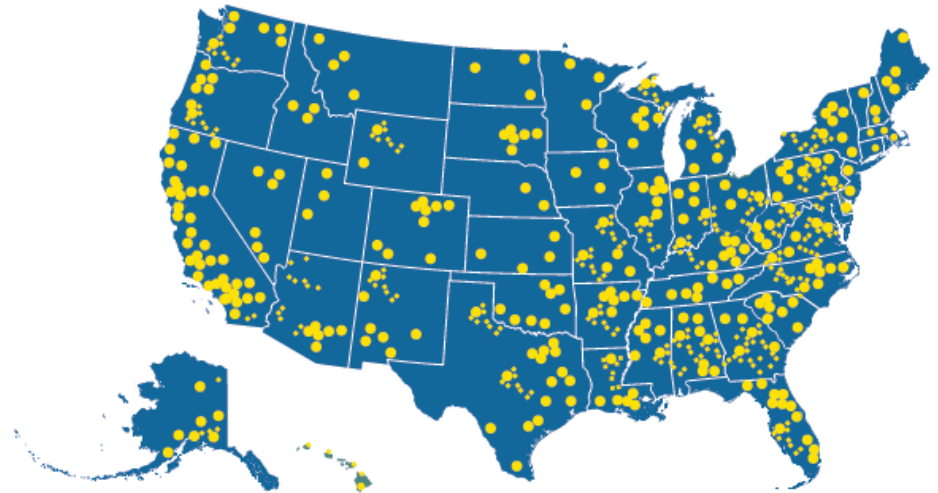

# HIV TAC Activities

- ❑ Serve primarily as a coordinator of training & technical assistance opportunities and resources
- ❑ Leverage extensive network of federally-funded and other training programs and resources
- ❑ Develop Health Center Toolkit

# Anticipated Public Health Impact

- ❑ Identify best practices and models of programmatic implementation
  - Data to Care (D2C)
  - Routine HIV testing
  - Integrating HIV into primary care
- ❑ Disseminate findings broadly to other health departments and across the Health Center Program
