# Activity 6.2: Committee Responsibilities for Implementing a Joint Integrated/ Comprehensive Plan

TIPS FOR TRAINERS

### **Suggested Use**

Use this activity after discussing 'Steps in Plan Implementation', which is part of the slide presentation on Using the Plan.

#### Time

About 90 minutes:

- 5 minutes for instructions and formation of groups
- 35 minutes for small group work on their work sheets
- 5 minutes for groups to summarize their work on easel pad paper
- About 40 minutes for presentation and discussion of each group's work (plan 10 minutes per group)
- 10 minutes to identify lessons from the activity and sum up

#### Materials

- □ Handout for Participants: Committee Responsibilities for Implementing a Joint Integrated/Comprehensive Plan
- □ Quick Reference Handout 6.1: Localizing a Joint Integrated/Comprehensive Plan

#### Knowledge or Skill Development

Increased understanding and practical knowledge about how to take responsibility for ensuring that a multi-jurisdictional plan becomes a meaningful part of the PC/PB's annual committee work plans.

## **Activity Steps**

- 1. Identify the PC/PB committees most likely to be involved in implementing parts of your EMA or TGA's integrated/comprehensive plan, and have participants join small groups based on their actual committee assignments. For example, depending on your PC/PB's committer structure, these might include Executive and Consumer Committees and the committee(s) responsible for Needs Assessment, Comprehensive Planning, Priority Setting and Resource Allocation, and Care Strategies.
- 2. Assign participants who are not members or staff of any of these committees to small groups to help equalize the number of people in each group.
- 3. Once the participants are seated in their committee groups, review the Handout for Participants with them. Participants are to assume that the table on the handout (labeled Goal 2) is an excerpt from the recently completed Integrated HIV Prevention and Care Plan, which was developed jointly by their Part A program, the state's Part B program, and the state HIV prevention program. Each committee (small group) has been asked to identify its responsibilities related to plan implementation, focusing on specific strategies and the activities that need to be completed to implement them, and to add these activities to their work plan. They should also consider possible responsibility for helping to monitor plan progress. Committees should use the Work Sheet in the handout to summarize their discussion and their work plans.
- 4. To get ideas for completing the Work Sheet, suggest that the groups draw upon the prior presentation and discussion, their own experiences, and Quick Reference Handout 6.1: Localizing a Joint Integrated/Comprehensive Plan.
- 5. Ask each group to select a **facilitator** to coordinate the work of the group and participate, a **recorder** to take notes on the Work Sheet and then summarize the group's work on easel pad paper, and a **reporter** to present the work of the small group to the full group. The same person may serve as recorder and reporter if that is the group's preference.
- 6. Give the groups 35 minutes to carry out their discussion and complete their Work Sheet.
- Monitor the groups, offer help where needed, and give participants a 10-minute and then a 5-minute warning. Allow up to an extra 5 minutes for groups to finish summarizing their work on easel pad paper.
- 8. Now ask a reporter from one small group (committee) to summarize its work in 4-5 minutes. Ask other members of the group if they have anything to add. Then invite participants from other groups to ask questions or suggest other activities. Repeat the process with each committee group.
- 9. Ask the group to identify the main lessons from the activity regarding how to "localize" a multi-jurisdictional integrated/comprehensive plan, and provide a brief sum up.

# Activity 6.2: Committee Responsibilities for Implementing a Joint Integrated/ Comprehensive Plan

HANDOUT FOR PARTICIPANTS

### Instructions

- 1. In your group, first choose a **facilitator** to coordinate the work of the small group and participate, a **recorder** to summarize the work of the small group on easel pad paper, and a **reporter** to present your group's work to the full group. The same person may serve as recorder and reporter if that is the group's preference.
- 2. Review the Integrated HIV Prevention and Care Plan excerpt: *Goal 2: Increase access to care and improve health outcomes for people with HIV in CentralState*. Assume that it comes from the Integrated HIV Prevention and Care Plan developed jointly by your Part A program, the state's Part B program, and the CDC-funded HIV prevention program. The plan has just been completed, and covers the period 2019-2023.

Since the plan was developed with the state, the Goal 2 work plan chart identifies strategies and tasks to be implemented at the state and at the local Part A level, but it doesn't provide a lot of detail about who within the Part A program should be responsible for the work, or for monitoring progress. Your committee has been asked to review the Goal 2 chart in order to:

- Identify aspects of the plan that the committee should help to implement and/or monitor, and
- Make those aspects a part of your annual committee work plan.
- 3. Summarize your discussion and key tasks on the attached Work Sheet for Plan Implementation. You have 35 minutes to complete your Work Sheet, and 5 minutes to summarize your work on easel pad paper.
- 4. Refer to Quick Reference Handout 6.1: Localizing a Joint Integrated/Comprehensive Plan for ideas.
- 5. Have your reporter prepared to present your work to the full group.

#### Work Sheet for Plan Implementation

Committee Name:

- 1. Describe what you see as your committee's most important roles in helping to implement and/or monitor progress on this part of the Integrated HIV Prevention and Care Plan (Goal 2)?
- 2. What specific activities should be included in your committee's work plan to contribute to implementation and/or monitoring of Goal 2? Agree on at least 3 main tasks, and outline below key steps and activities and who should have primary responsibility.

|    | Tasks | Implementation Steps/<br>Activities | Responsibility |
|----|-------|-------------------------------------|----------------|
| Α. |       |                                     |                |
|    |       |                                     |                |
|    |       |                                     |                |
|    |       |                                     |                |
| В. |       |                                     |                |
|    |       |                                     |                |
|    |       |                                     |                |
|    |       |                                     |                |
| C. |       |                                     |                |
|    |       |                                     |                |
|    |       |                                     |                |
|    |       |                                     |                |
|    |       |                                     |                |

- 3. What other committee(s) will you need to work in partnership with as you carry out these tasks?
- 4. What additional information do you need to more fully lay out your committee's role in implementing the plan (Goal 2)?

#### Goal 2: Increase access to care and improve health outcomes for people with HIV in CentralState.

## Objective 2.1: Increase the percentage of newly diagnosed PLWH in CentralState linked to care within 30 days after diagnosis from 65% to 85% by 2023.

Strategy 2.1.1: Improve linkage to care outcomes through Early Intervention Services activities.

Strategy 2.1.2: Develop an integrated counseling and testing, and Early Intervention Service model for CentralState.

Strategy 2.1.3: Increase the availability of transportation services for newly diagnosed PLWH in CentralState.

#### Objective 2.2: Increase the proportion of PLWH in CentralState engaged and retained in care from 81% to 85% by 2023.

#### Strategy 2.2.1: Develop ongoing strategies that reduce the number of individuals who cycle in and out of HIV care.

| Activity/Intervention  | Targeted<br>Population(s)                                  | Responsible<br>Parties   | Timeframe                                 | Resources   | Data Indicators                           | Anticipated Challenges<br>& Barriers  |
|--|--|--|---|---|---|---|
| Determine the<br>demographic<br>characteristics of<br>PLWH who are<br>susceptible for non-<br>compliance or who<br>fall in and out of care | PLWH who<br>cycle in and out<br>of care                    | HIV<br>Surveillance;<br>RWHAP Part<br>A and Part<br>B including<br>planning bodies | January 1 –<br>June 30, 2019              | eHARS system<br>and HIV<br>surveillance<br>staff resources;<br>CAREWare and<br>RWHAP data/<br>CQM staff | Completion of<br>analysis                 | Need to determine how to<br>include in analysis client<br>characteristics that may<br>affect participation in<br>HIV care that go beyond<br>simple demographics (such<br>as recent incarceration,<br>homelessness, mental health<br>issues, etc.) |
| Choose target<br>populations for<br>re-engagement and<br>retention   | PLWH<br>subpopulations<br>that cycle in<br>and out of care | Part A planning<br>council and Part<br>B recipient and<br>planning body            | July 1 –<br>December 31,<br>2019          | Planning body<br>resources;<br>Part B staff<br>resources  | List of<br>selected target<br>populations | Planning bodies may need to<br>schedule some special needs<br>assessment to supplement<br>recipient analyses, if time and<br>funding permit   |
| Develop interventions<br>aimed at retention<br>of vulnerable<br>populations that can<br>be implemented by<br>current subrecipients         | Part A and Part<br>B Subrecipients                         | RWHAP Part A<br>and Part B staff<br>and planning<br>bodies                         | January 1, 2019<br>– December 31,<br>2021 | RWHAP Part A<br>and Part B staff<br>and funding<br>resources  | Documentation<br>of interventions         | Uncertainty around what<br>Part A planning council<br>will allocate for these<br>interventions and need to<br>find low-cost interventions   |
