Learning Objectives

At the conclusion of this activity, participants will be able to:

1. Identify 4 goals and 4 areas of critical focus in the National HIV/AIDS Strategy.
2. Describe how the Ryan White HIV/AIDS Program is integral to the comprehensive national response to HIV.
3. Outline ways health care providers and community-based organizations can align their activities to meet the goals of the National HIV/AIDS Strategy.

5 Major Changes Since 2010

Research is unlocking new knowledge & tools

Affordable Care Act has transformed health care access

Our prevention toolkit has expanded

HIV testing & treatment are recommended

Improving the HIV Care Continuum is a priority

THE GOALS

Reducing new HIV infections

Improving access to care and health outcomes

Reducing HIV-related health disparities

Achieving a more coordinated national response

Advances in 4 Key Areas are of Critical Focus through 2020

Widespread HIV testing and linkage to care enabling people living with HIV to access treatment early.

Full access to PrEP services for those whom it is appropriate and desired, with support for medication adherence for those using PrEP.

Broad support for people living with HIV to remain engaged in comprehensive care, including support for treatment adherence.

Universal viral suppression among people living with HIV.

Executive Order to Implement the Strategy

NATIONAL HIV/AIDS STRATEGY: UPDATED TO 2020

MONITORING OUR PROGRESS

GOAL 1: REDUCING NEW HIV INFECTIONS

- ✓ Increase knowledge of serostatus
- ✓ Reduce new diagnoses
- ✗ Reduce HIV-risk behaviors among young gay and bisexual males

GOAL 3: REDUCING HIV-RELATED DISPARITIES

Reduce disparities in HIV diagnosis among:

- ✗ Gay and bisexual men
- ✗ Young Black gay and bisexual men
- ✓ Black females
- ✗ Persons living in the Southern US

Increase viral suppression among:

- ✓ Youth
- ✓ Persons who inject drugs

GOAL 2: IMPROVING HEALTH OUTCOMES FOR PEOPLE LIVING WITH HIV

- ✓ Increase linkage to care
- ➡ Increase retention in HIV care
- ✓ Increase viral suppression
- ✗ Reduce homelessness
- ✓ Reduce death rate

DEVELOPMENTAL INDICATORS

- Use of pre-exposure prophylaxis (PrEP)
- HIV stigma
- HIV among transgender persons

- ✓ ANNUAL TARGET MET
- ➡ ANNUAL TARGET NOT MET
(Progress in the expected direction)
- ✗ ANNUAL TARGET NOT MET
(Moving in the wrong direction)

Continuum of Care: NHAS Indicators

Developmental Indicators

PrEP use

HIV stigma

HIV among
transgender persons

Federal Action Plan

- *Reducing New Infections:*
- **HRSA and CDC** will develop and deliver TA, trainings, and information to HRSA programs on PrEP and PEP implementations strategies.
- *Improving Access to Care & Health Outcomes:*
- **HRSA** will provide TA on Data to Care by developing a learning collaborative across Ryan White jurisdictions to share models for addressing gaps along the care continuum.
- **OPA, CDC, HRSA** will provide trainings for HHS award recipients to incorporate family planning as part of comprehensive HIV, mental health, substance use treatment delivery.

Federal Action Plan Continued

- ***Reducing Disparities:***
- **HRSA and CDC** will promote development of public leadership skills by including PLHIV in integrated prevention/care planning.
- ***Achieving Greater Coordination:***
- **HRSA and HUD** will identify models for integrating housing and HIV care data systems to enhance coordination of service delivery.
- **HRSA** will develop tools to help award recipients measure progress toward performance goals.

FEDERAL ACTION PLAN

DECEMBER 2015

NATIONAL HIV/AIDS STRATEGY
for the **UNITED STATES:**

UPDATED TO 2020

**COMMUNITY ACTION
PLAN FRAMEWORK**

DECEMBER 2015

RECOMMENDED STEPS

NOTE: Some of these steps can be taken simultaneously (i.e., connecting with other organizations and stakeholders as you plan your action items).

1. Read and review the *National HIV/AIDS Strategy: Updated to 2020 and the Federal Action Plan*.
 - a. What areas outlined by the Strategy would your organization most like to target?
 - b. Where can your organization best focus your efforts—at the local, state, Tribal, or national level?
2. Identify your organization's focus areas, existing projects, funding, local network, and potential partners and ongoing activities that are related to the Strategy.
 - a. What populations in your community are at greatest risk for HIV infection?
 - b. What are the gaps in HIV-related services, policies, education, and awareness in your community?
 - c. What resources (personnel, money, time) does your organization have to dedicate to implementing the Strategy?

FOCUS QUESTIONS

- How can your organization connect people living with HIV to health care coverage?
- What can your organization do to strengthen the current provider workforce and increase the number of HIV providers through integrating services, collaborating across programs and systems, and providing or obtaining training and experience?
- In what ways can your organization help increase screening and treatment for substance use and mental health disorders for persons living with HIV?

EXAMPLES OF ACTIONS FOR STAKEHOLDERS

Community-based organizations can:

- Determine effective ways that HIV testing services can be marketed to populations at highest risk, and take steps to allocate resources accordingly.
- Provide linkage to PrEP services for persons at substantial risk for HIV infection.

Advocacy groups can:

- Promote access to PrEP for those at substantial risk and immediate treatment for persons with diagnosed HIV infection.
- Provide lawmakers and policymakers with the latest scientific information regarding HIV acquisition and transmission risks.

SAMPLE TEMPLATE: EXAMPLE FOR COMMUNITY-BASED ORGANIZATIONS

NHAS GOAL AND STEP	PROGRAMMATIC GOAL	ACTION	TARGET YEAR FOR COMPLETION	LEADERSHIP	PARTNERS	RESOURCES	DATA		COMMUNICATIONS
							MEASURES TO MONITOR PROGRESS	MEASURES OF IMPACT	
Step 1.C: Educate all Americans with easily accessible, scientifically accurate information about HIV risks, prevention, and transmission.	Increase the number of young Black gay and bisexual men (YBMSM) and transgender women in our community who know their HIV	EXAMPLE: Determine effective ways that HIV testing services can be marketed to populations at highest risk. ACTION:	2018	Jane Doe	Community support groups, youth groups, radio and TV stations	\$10,000 x 3 years	Percentage increase of YBMSM and transgender women who know their HIV status, who are taking PrEP or PEP, and who are in treatment	Align with NHAS Indicators #1, #2, #4 and #6	Monthly blog posts, local news interviews

Implementing the Strategy

Community briefings on developmental indicators are opportunities to hear about local Strategy implementation

- Networks of PLHIV
- PrEP implementers
- Transgender advocates

8 Years of Policy Progress

First comprehensive National HIV/AIDS Strategy

Updated through 2020

Ryan White HIV/AIDS Treatment Extension Act, 2009

RWHAP now serves about half of all Americans living with HIV

Affordable Care Act, 2010

More than 20 million more Americans now with health coverage

HIV entry ban lifted, 2010

U.S. hosted the 2012 International AIDS Conference

HIV Organ Policy Equity (HOPE) Act, 2013

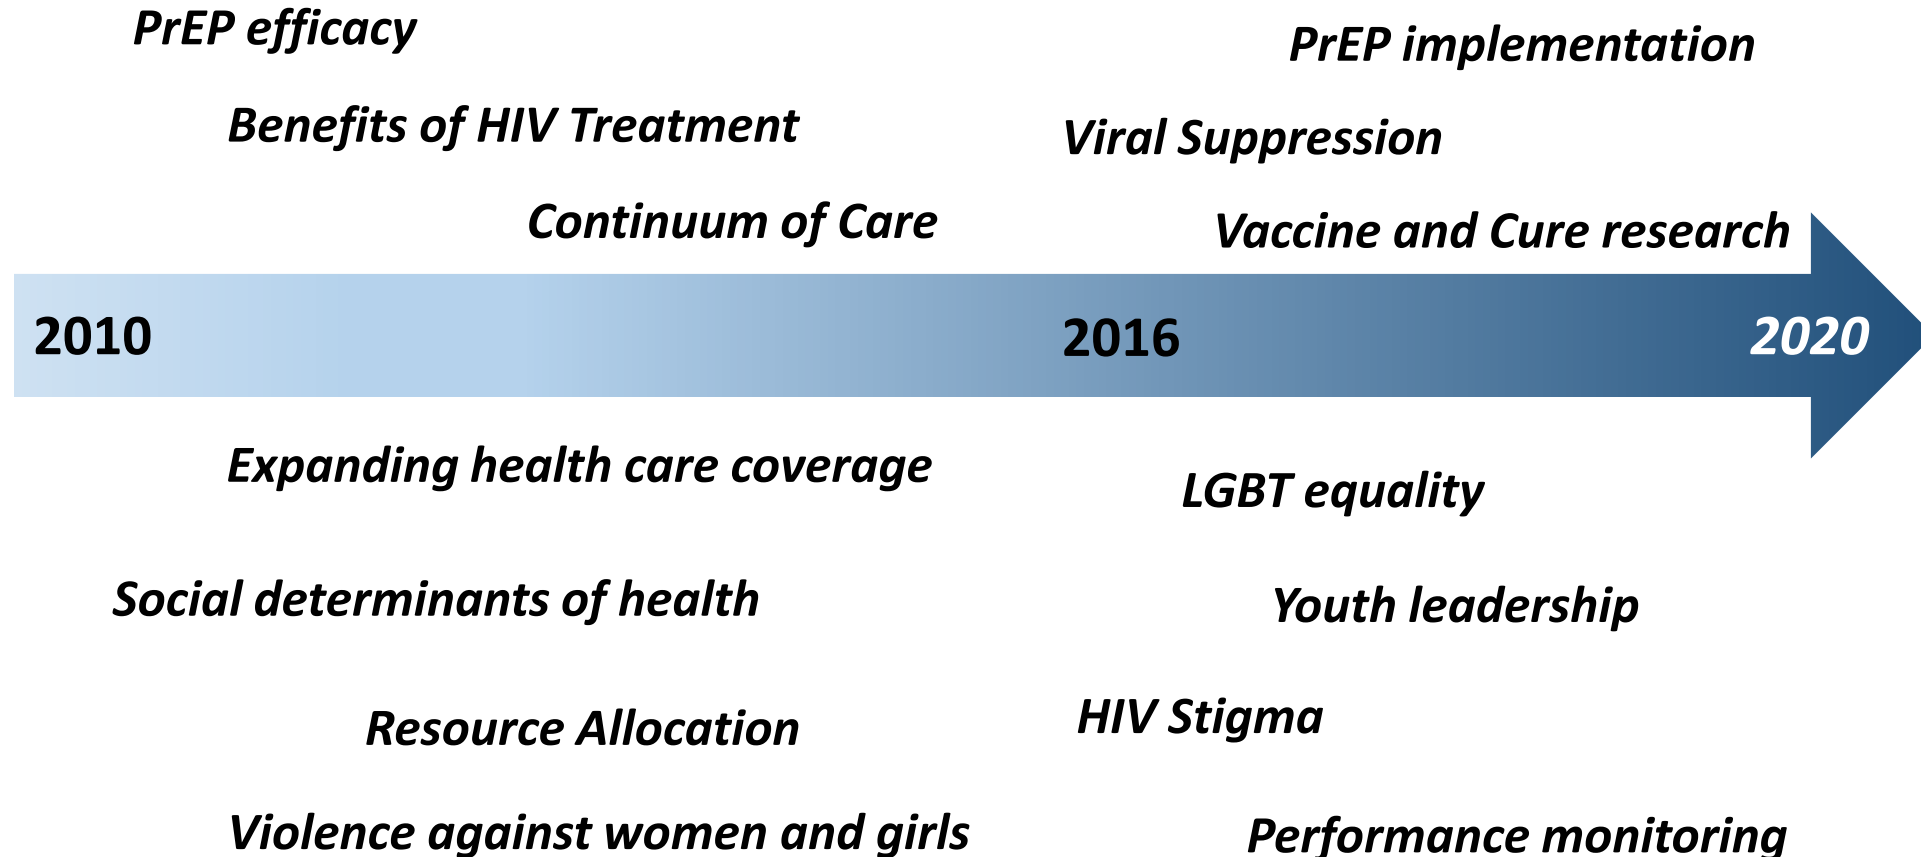

First transplants conducted, 2016

Authorized use of Federal funds for Syringe Service Programs, FY16

Housing Opportunity Through Modernization Act, 2016

Revises formula & requirements for distributing HOPWA funds

National HIV/AIDS Strategy 2010-2020

Reaching the Goals

- As a guiding document, the Strategy is a **National plan, not just a Federal plan.**
- The goals of the Strategy can only be achieved by **engagement** at the **national, state, Tribal, and local** levels and **across all sectors.**
- **Everyone is needed** to put this Strategy into action and end the HIV epidemic.

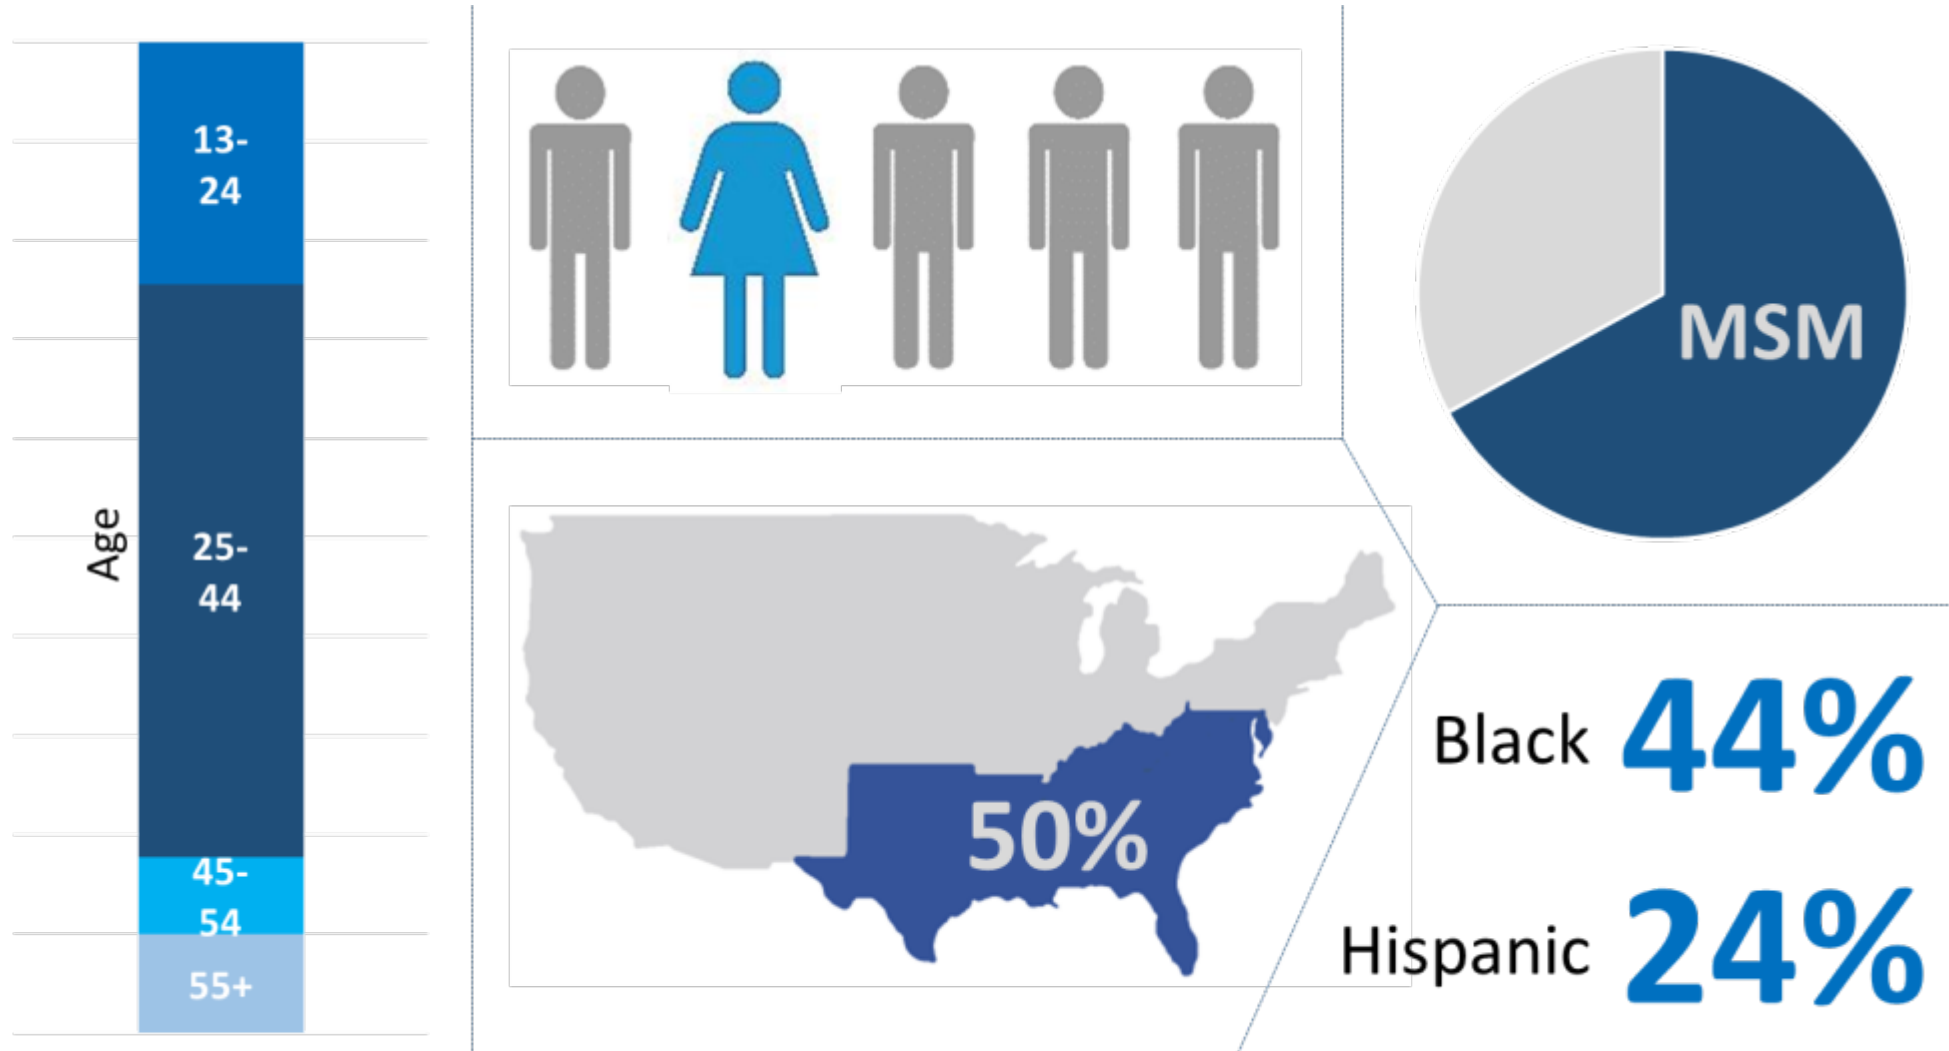

1.2 Million People Living with HIV

**87% Know Their
Serostatus**

~45,000 HIV Diagnoses in 2014
